Paul, 2012-03-15 In this timely new book, Christopher Paul analyzes how the words we use to talk about video games and the structures that are produced within games shape a particular way of gaming by focusing on how games create meaning, lead to identification and division, persuade, and circulate ideas. Paul examines the broader social discourse about gaming, including: the way players are socialized into games; the impact of the lingering association of video games as kid's toys; the dynamics within specific games (including Grand Theft Auto and EA Sports Games); and the ways in which players participate in shaping the discourse of games, demonstrated through examples like the reward system of World of Warcraft and the development of theorycraft. Overall, this book

illustrates how video games are shaped by words, design and play; all of which are negotiated, ongoing practices among the designers, players, and society that construct the discourse of video games.

He was the force behind modern Protestant missions, launched efforts that eventually became the ecumenical movement, and influenced some of the most significant theological projects of the modern world from Schleiermacher's to Barth's and Bonhoeffer's. He was convinced that in important respects the Christian church of his day had lost its way both intellectually and practically. In these speeches, given to overflow crowds in Berlin, he brought to expression what he held to be the absolute and nonnegotiable center of Christian existence-the main thing. Here he laid out for public view the heart of all his activity, the guiding reality of his life. In these speeches Zinzendorf focuses on fundamental theological themes. One senses the influence upon him of the Pietist movement and of Orthodox theology. One gains an appreciation for his bold idiosyncrasy, his willingness to stand apart, and to bear witness. But above all, one gains here an insight into the very heart of Zinzendorf.

The text covers the power, and the limits, of the language of morality and interpretive imagination as James grapples with what America and Europe have in common; and also with what, because their contexts and sense of history are so profoundly different, they cannot have in common. **the lost and damned: The Promise of the Father** Phoebe Palmer, 2015-09-23 Phoebe Palmer's Promise of the Father (1859) is a massive defense of women's right to preach. She attributes the long-standing prohibitions against women taking an active role in the leadership of the church to two things: bad exegesis and a distorted and un-Christian view most men had of the opposite sex. She concludes that women, acting in their legitimate sphere, were more likely than men to exhibit true piety. Based on the promise of Joel 2:28, restated by Peter at Pentecost in Acts 2:17-18, Phoebe takes God at his Word. In the 'latter days' the Holy Spirit will be given to women as well as to men, and both will be expected to pray, prophesy, and preach. **the lost and damned: Wesley and the Wesleyans** John Kent, 2002-07-11 Wesley and the Wesleyans challenges the cherished myth that at the moment when the Enlightenment and the Industrial Revolution were threatening the soul of eighteenth-century England, an evangelical revival - led by the Wesleys - saved it. It will interest anyone concerned with the history of Methodism and the Church of England, the Evangelical tradition, and eighteenth-century religious thought and experience. The book starts from the assumption that there was no large-scale religious revival during the eighteenth century. Instead, the role of what is called 'primary religion' - the normal human search for ways of drawing supernatural power into the private life of the individual - is analysed in terms of the emergence of the Wesleyan societies from the Church of England. The Wesleys' achievements are reassessed; there is fresh, unsentimental description of the role of women in the movement, and an unexpectedly sympathetic picture emerges of Hanoverian Anglicanism.
