Each time I found myself at a low point, I thought of the child who still believed in his dreams, who looked to the future with hope and determination. I learned that true strength comes not from the absence of challenges, but from the ability to face them head-on, to get up after every fall, to believe in yourself even when the world doubts you. I have always believed that music has the power to heal, to unite and to transform. I remember once, after a performance, a child looked me in the eye and said that my music helped her overcome a difficult period in her life. This moment was a powerful reminder that our purpose goes beyond ourselves. We are here to make a difference, to inspire and to leave this world a little better than we found it. Remember, it is not the number of times we fall that defines our worth, but rather the number of times we get up and continue to dance. Every step, every note, every word all have the power to change the world. So, live with passion, love without fear, and never stop believing in yourself. The star that shines brightest is the one that never gives up shining. Be that star.

This book examines the origins and psychological underpinnings of the media's hostility by closely analyzing some of the most harshly critical writings about Jackson. While racism and discomfort with Jackson's otherness have previously been recognized as the elements that fueled media criticisms, Susan Woodward reveals another important factor: the perception that Jackson was extraordinarily powerful, in ways that went beyond celebrity and wealth. Through research and careful analysis, Woodward explores the ways in which Jackson's power was seen, the largely unconscious response to his power, the functions of the media's criticisms and the origins of the perceptions of Jackson's power.
