star wars prints uk: Star Wars Will Brooker, 2020-10-01 The release of Star Wars in 1977 marked the start of what would become a colossal global franchise. Star Wars remains the second highest-grossing film in the United States, and George Lucas's six-part narrative has grown into something more: a culture that goes far beyond the films themselves, with tie-in toys, novels, comics, games and DVDs as well as an enthusiastic fan community which creates its own Star Wars fictions. Critical studies of Star Wars have treated it as a cultural phenomenon, or in terms of its special effects, fans and merchandising, or as a film that marked the end of New Hollywood's innovation and the birth of the blockbuster. Will Brooker's illuminating study of the film takes issue with many of these commonly-held ideas about Star Wars. He provides a close analysis of Star Wars as a film, carefully examining its shots, editing, sound design, cinematography and performances. Placing the film in the context of George Lucas's previous work, from his student shorts to his 1970s features, and the diverse influences that shaped his approach, from John Ford to Jean-Luc Godard, Brooker argues that Star Wars is not, as Lucas himself has claimed, a departure from his earlier cinema, but a continuation of his experiments with sound and image. He reveals Lucas's contradictory desires for total order and control, embodied by the Empire, and for the raw energy and creative improvisation of the Rebels. What seemed a simple fairy-tale becomes far more complex when we realise that the director is rooting for both sides; and this tension unsettles the saga as a whole, blurring the boundaries between Empire and Republic, dark side and light side, father and son. In his foreword to this new edition, Will Brooker discusses how subsequent films in the series, specifically *Rogue One* (2016) and *The Last Jedi* (2017), foregrounded and developed the themes of opposition that are at the heart of Star Wars. He shows how Derridean theories of opposites which become undermined and subverted, and which change places are made more clear with hindsight and provide us with a useful lens for looking back at the 1977 Star Wars.

star wars prints uk: European Film Industries Anne Jäckel, 2019-07-25 In what kind of state is the European film business? This study is the first in a series that provides an accessible understanding of how the world's contemporary screen industries function. It looks at all the factors in play, from government regulation to the marketing strategies behind an international success like 'Run Lola Run'/'Lola Rennt'. Anne Jackel evaluates how Europe's film industries operate, their working practices and the region's place within the global business of cinema. Exploring trends in production, distribution and exhibition, the book considers a range of national and pan-regional developments. Key areas of critical debate are highlighted, including private and public financing, co-production, film policy, links between the film and television industries, and the threats to 'art cinema' from within and without Europe.

star wars prints uk: The Making of Star Wars: The Empire Strikes Back J. W. Rinzler, 2010-10-12 In this lavish fortieth-anniversary tribute to the blockbuster film *Star Wars: Episode V*

The Empire Strikes Back, New York Times bestselling author J. W. Rinzler draws back the curtain to reveal the intense drama and magnificent wizardry behind the hit movie—arguably the fan favorite of the Star Wars Saga. Following his *The Making of Star Wars*, the author has once again made use of his unlimited access to the Lucasfilm Archives and its hidden treasures of previously unpublished interviews, photos, artwork, and production mementos. The result is a comprehensive behind-the-scenes, up-close-and-personal look at the trials and triumphs, risks and close calls, inspiration, perspiration, and imagination that went into every facet of this cinematic masterpiece. Here's the inside scoop on: • the evolution of the script, from story conference and treatment to fifth draft, as conceived, written, and rewritten by George Lucas, famed science-fiction author Leigh Brackett, and screenwriter Lawrence Kasdan • the development of new key characters, including roguish hero Lando Calrissian, sinister bounty hunter Boba Fett, and iconic Jedi Master Yoda • the challenges of shooting the epic ice planet battle in the frozen reaches of Norway and of conjuring up convincing creatures and craft—from tauntauns and snowspeeders to Imperial walkers • the construction of a life-sized Millennium Falcon and the swamp planet Dagobah inside a specially built soundstage in Elstree Studios • the technique behind master Muppeteer Frank Oz's breathing life into the breakthrough character Yoda • the creation of the new, improved Industrial Light & Magic visual effects facility and the founding of the now-legendary Skywalker Ranch In addition, of course, are rare on-the-scene interviews with all the major players: actors Mark Hamill, Harrison Ford, Carrie Fisher, Billy Dee Williams, Anthony Daniels, Peter Mayhew, and David Prowse; director Irvin Kershner; producer Gary Kurtz; effects specialists Richard Edlund, Dennis Muren, Ken Ralston, and Phil Tippett; composer John Williams; and many others. Punctuating the epic account is a bounty of drawings, storyboards, and paintings by Ralph McQuarrie, Joe Johnston, and Ivor Beddoes, along with classic and rare production photos. An added bonus is a Foreword by acclaimed director Ridley Scott. *The Making of Star Wars: The Empire Strikes Back* is a fittingly glorious celebration of an undisputed space-fantasy movie milestone. Search your feelings, you know it to be true.

star wars prints uk: Modern Times: British Prints, 1913-1939 Jennifer Farrell, 2021-10-20
The bold graphic images made by artists affiliated with Vorticism, British Futurism, and the Grosvenor School of Modern Art capture the optimism and anxiety of early twentieth-century Britain. This richly illustrated volume features rare British prints from the Leslie and Johanna Garfield collection dating between 1913 and 1939—a period marked by two world wars, a global pandemic, the Great Depression, and the rise of Fascism and Communism, but also new technologies, women's suffrage, and a growing focus on public access to art. Essays explore how artists turned to printmaking to alleviate trauma, memorialize their wartime experiences, and capture the aspirations and fears of the twenties and thirties. At the heart of the catalogue are the colorful linocuts made by artists associated with London's celebrated Grosvenor School. The visually striking compositions by Sybil Andrews, Claude Flight, Cyril E. Power, and Lill Tschudi, among others, convey the vitality of quotidian life during the machine age.
