till the stars come down: Ah This! Osho, 2017-11-12 The feeling that it is five minutes to midnight is known to many by now, and is often referred to as the Doomsday Clock. As the many crises faced by humanity and planet Earth gather and tumble toward an emergency, some have even reduced the time left to two and a half minutes. It is no wonder that we feel increasingly helpless and at a loss what to do. Osho calls Zen not a teaching but an alarm to wake us up, because as individuals we are all deeply asleep, and this sleep has to be shattered. "For centuries, you have been asleep. Sleep has become your nature. You have forgotten what awareness is, what to be awake means." He wants us to wake up...before it is too late. Zen, more than any other religious or spiritual tradition, is relevant to such times as these, when none of our old approaches to solving problems will do. Immediate, urgent, and direct, Zen is not interested in answers or in questions, not interested in teaching at all, because it is not a philosophy. As Osho begins here, by quoting the great Zen master, Diale: "All the teachings of the sages, of the saints, of the masters, have expounded no more than this: they are commentaries on your sudden cry, 'Ah, This!'" In this series of talks, Osho unfolds a selection of classic Zen stories and responds to questions. Along the way, we learn how the tools of Zen can be used to embrace uncertainty, to be at ease with not-knowing, to act decisively and with clarity and awareness. To get woke, in other words, so that we can use each moment between now and midnight for transformation.

till the stars come down: *Burning the Box of Beautiful Things* Alex Seago, 1995 Alex Seago's book has been inspired by his desire to understand and discover the origins of postmodern culture in Britain. One of the main points of his study is that it was art and design students who were among the first to be aware of and to articulate social implications of postmodern culture. Arguing that postwar art schools provided a vital crucible for the development of a particularly English cultural sensibility, he focuses on cultural change at the Royal College of Art, London, during the 1950s and 1960s. The students' attack on the English 'box of beautiful things' - a term used by a former student to describe the neo-Romantic, neo-Victorian, highly decorated tastes of some RCA tutors - took several forms which eventually resulted in the Pop Art produced by the 1959-62 generation (Boshier, Phillips, Jones, Hockney et al.) Alex Seago traces the emergence of English postmodernism through

the pages of ARK: The Journal of the Royal College of Art, interviewing ARK's editors, art editors, and contributors including Len Deighton, novelist and art editor of ARK 10; Clifford Hatts, student at the RCA 1946-8 and later head of the Design Group, BBC; Peter Blake (RCA Painting School, 1953-6); Robyn Denny (RCA Painting School, 1954-7). ARK's object of enquiry remained 'the elusive but necessary relationships between the arts and the social context' throughout its twenty-five year history, making it a valuable archive for the cultural historian: in its most memorable issues, ARK's layouts complemented the contents to produce distillations of the energy and enthusiasm of the period under review.

till the stars come down: *Visual Culture and Decolonisation in Britain* Anandi Ramamurthy, 2019-05-23 First published in 2006, this volume provides the first in-depth analysis of the place of visual representations within the process of decolonisation during the period 1945 to 1970. The chapters trace the way in which different visual genres – art, film, advertising, photography, news reports and ephemera – represented and contributed to the political and social struggles over Empire and decolonisation during the mid-Twentieth century. The book examines both the direct visual representation of imperial retreat after 1945 as well as the reworkings of imperial and 'racial' ideologies within the context of a transformed imperialism. While the book engages with the dominant archive of artists, exhibitions, newsreels and films, it also explores the private images of the family album as well as examining the visual culture of anti-colonial resistance.

till the stars come down: London calling Barry Miles, 2012 “Eravamo anti-sistema in tutto e per tutto, nella musica e nell’arte. Volevamo distruggere qualsiasi cosa avesse regole prestabilite, tutto quel che c’era di asfissiante, tutte le certezze. Eravamo decisi a infrangere tutte le regole in tutti i modi possibili”. La Londra di Barry Miles è quella della cultura underground che nasce fra le macerie della Seconda guerra mondiale ed esplode nel corso degli anni Sessanta e Settanta, concentrandosi sul West End e su Soho, le zone in cui era confluita un’eterogenea popolazione di personaggi creativi e fuori dalle righe, intolleranti nei confronti delle costrizioni della cultura e del costume ufficiale: scrittori, poeti, registi, musicisti, artisti, pubblicitari, architetti, stilisti, e una miriade di più anonimi personaggi decisi a fare della propria vita un’arte. È la storia di una rivoluzione culturale determinata a ottenere una “totale confusione dei sensi”, che si sviluppa fra le vie di una metropoli artisticamente onnivora, fatta di locali, librerie, club, pub, teatri, piazze, vicoli, scantinati, case occupate o case borghesi. Una storia di sconvolgente energia vitale e al tempo stesso autodistruttiva, raccontata sul filo di quell’ironia che solo un testimone diretto può comunicare. Mettere in fila i nomi che si incontrano fra queste pagine fa tremare l’idea stessa di ‘controcultura’, poiché vi si ritrova molta della creatività che animerà per ibridazione la cultura ufficiale del Novecento: Dylan Thomas, Francis Bacon, i Situazionisti, il cool jazz, il rock ‘n’ roll, Mary Quant, Kingsley Amis, J.G. Ballard, i Rolling Stones, i Beatles, William Burroughs, Jimi Hendrix, i Pink Floyd, Allen Ginsberg, Pete Townshend, Yoko Ono, Derek Jarman, David Hockney, i Clash, i Police, Gilbert & George, Vivienne Westwood, i Sex Pistols, Boy George, Charles Saatchi, Lucian Freud, Damien Hirst e moltissimi altri. Un libro-mondo brulicante di storie e di personaggi, il ritratto più preciso e divertente mai scritto sull’avventura gloriosa e infame di un’epoca oggi entrata nella leggenda.

till the stars come down: W.H. Auden's "The Healing Fountain" Read through A. Aviram's Theory of Poetic Rhythm Boutheina Boughnim Laarif, 2018-04-18 Although Auden has often been hailed as the twentieth century’s master of metre and most outstanding practitioner of traditional poetic forms, his metrical art still remains a mystery, as far as its real significance is concerned. This book sheds new light on the enticing appeal of formal poetry which induced Auden into composing in almost every possible stanza form. In order to work out a ‘new’ appreciative assessment of Auden’s formal art, the book uses Amittai Aviram’s theory of poetic rhythm, which transcends the common literary critical process, based on the rhetorical assessment of rhythm in poetry. Aviram’s theory clearly revolutionises our common methods of interpretation regarding rhythm rather than meaning as the starting point in reading poetry; it is the poem’s ideas and theme which express and strengthen rhythm, not the other way round. Such conception of rhythm, as allegorized by meaning

(images and metaphors), breathes new life into the outworn Russian formalist tradition. Turning to Auden's poetry today may be said to be urged by both literary and political contexts; in an age marked by uncertainties and an upsurge of violence, poetry's voice, regrettably, reverberates less forcefully, sinking into a state of formal loosening. As such, this book may be said to be prompted by a 'necessity' to revive the interest in Auden's poetry, especially given its recent neglect. A reconsideration of Auden's conception of the nature of poetry and its status enables us to encrypt his verbal art, assess its multiple effects, and appreciate the metrical range that has helped the poet handle so subtly his twofold inquiry: What is poetry? What is its use?

till the stars come down: Ah, This! Talks on Zen Stories Osho, 2023-12-01 ZEN IS JUST ZEN. There is nothing comparable to it. It is unique -- unique in the sense that it is the most ordinary and yet the most extraordinary phenomenon that has happened to human consciousness. It is the most ordinary because it does not believe in knowledge, it does not believe in mind. It is not a philosophy, not a religion either. It is the acceptance of the ordinary existence with a total heart, with one's total being, not desiring some other world, supra-mundane, supra-mental. It has no interest in any esoteric nonsense, no interest in metaphysics at all. It does not hanker for the other shore; this shore is more than enough. Its acceptance of this shore is so tremendous that through that very acceptance it transforms this shore -- and this very shore becomes the other shore.

till the stars come down: *The Lives of Lucian Freud: The Restless Years* William Feaver, 2019-10-29 The first biography of the epic life of one of the most important, enigmatic and private artists of the 20th century. Drawn from almost 40 years of conversations with the artist, letters and papers, it is a major work written by a well-known British art critic. Lucian Freud (1922-2011) is one of the most influential figurative painters of the 20th century. His paintings are in every major museum and many private collections here and abroad. William Feaver's daily calls from 1973 until Freud died in 2011, as well as interviews with family and friends were crucial sources for this book. Freud had ferocious energy, worked day and night but his circle was broad including not just other well-known artists but writers, bluebloods, royals in England and Europe, drag queens, fashion models gamblers, bookies and gangsters like the Kray twins. Fierce, rebellious, charismatic, extremely guarded about his life, he was witty, mischievous and a womanizer. This brilliantly researched book begins with the Freuds' life in Berlin, the rise of Hitler and the family's escape to London in 1933 when Lucian was 10. Sigmund Freud was his grandfather and Ernst, his father was an architect. In London in his twenties, his first solo show was in 1944 at the Lefevre Gallery. Around this time, Stephen Spender introduced him to Virginia Woolf; at night he was taking Pauline Tennant to the Gargoyle Club, owned by her father and frequented by Dylan Thomas; he was also meeting Sonia Orwell, Cecil Beaton, Auden, Patrick Leigh-Fermor and the Aly Khan, and his muse was a married femme fatale, 13 years older, Lorna Wishart. But it was Francis Bacon who would become his most important influence and the painters Frank Auerbach and David Hockney, close friends. This is an extremely intimate, lively and rich portrait of the artist, full of gossip and stories recounted by Freud to Feaver about people, encounters, and work. Freud's art was his life—my work is purely autobiographical—and he usually painted only family, friends, lovers, children, though there were exceptions like the famous small portrait of the Queen. With his later portraits, the subjects were often nude, names were never given and sittings could take up to 16 months, each session lasting five hours but subjects were rarely bored as Freud was a great raconteur and mimic. This book is a major achievement, a tour de force that reveals the details of the life and innermost thoughts of the greatest portrait painter of our time. Volume I has 41 black and white integrated images, and 2 eight-page color inserts.

till the stars come down: *"Landscape, Art and Identity in 1950s Britain "* Catherine Jolivet, 2017-07-05 During the years following World War II debates about the British landscape fused with questions of national identity as the country reconstructed its sense of self. For better or for worse artists, statesmen, and ordinary citizens saw themselves reflected in the landscape, and in turn helped to shape the way that others envisioned the land. While landscape art is frequently

imagined in terms of painting, this book examines the role of landscape in terms of a broader definition of visual culture to include the discussion not only of works of oil on canvas, but also prints, sculpture, photography, advertising, fashion journalism, artists' biographies, and the multi-media stage of the national exhibition. Making extensive use of archival materials (newspaper reviews, radio broadcasts, interviews with artists, letters and exhibition planning documents), Catherine Jolivet explores the intersection of landscape art with a variety of discourses including the role of women in contemporary society, the status of immigrant artists in Britain, developments in science and technology, and the promotion of British art and culture abroad.

till the stars come down: Love Me Fierce In Danger Steven Powell, 2023-01-12 WINNER OF 2024 EDGAR ALLAN POE AWARD (BEST CRITICAL/BIOGRAPHICAL BOOK) THE TELEGRAPH'S BEST BOOKS OF THE YEAR SHORTLISTED FOR THE H.R.F KEATING AWARD FOR BEST BIOGRAPHICAL/CRITICAL BOOK As gripping and twisted as a James Ellroy novel. - Ian Rankin A masterpiece of literary biography. - David Peace The first critical biography of a titan of American crime fiction. *Love Me Fierce In Danger* is the story of James Ellroy, one of the most provocative and singular figures in American literature. The so-called "Demon Dog of Crime Fiction," Ellroy enjoys a celebrity status and notoriety that few authors can match. However, traumas from the past have shadowed his literary success. When Ellroy was ten years old, his mother was brutally murdered. The crime went unsolved, and her death marked the start of a long and turbulent road for Ellroy that has included struggles with alcoholism, drug addiction, homelessness, and jail time. In tracing his life and career, Steven Powell reveals how Ellroy's upbringing in LA, always on the periphery of Hollywood, had a profound and dark influence on his work as a novelist. Using new sources, Powell also uncovers Ellroy's family secrets, including the mysterious first marriage of his mother Jean Ellroy, eighteen years before her murder. At its heart, *Love Me Fierce in Danger* is the story of how Ellroy overcame his demons to become the bestselling and celebrated author of such classics as *The Black Dahlia* and *LA Confidential*. Informed by interviews with friends, family, peers, and literary

and Hollywood collaborators, as well as extensive conversations with Ellroy himself, *Love Me Fierce In Danger* pulls back the curtain on an enigmatic figure who has courted acclaim and controversy with equal zealotry.
