worst female serial killers: *Talking with Female Serial Killers - A chilling study of the most evil women in the world* Christopher Berry-Dee, 2018-05-17 Christopher Berry-Dee, criminologist and bestselling author of books about the serial killers Aileen Wuornos and Joanne Dennehy, turns his uncompromising gaze upon women who not only kill, but kill repeatedly. Because female murderers, and especially serial murderers, are so rare compared with their male counterparts, this new study will surprise as well as shock, particularly in the cases of women like Beverley Allitt, who kill children, and Janie Lou Gibbs, who killed her three sons and a grandson, as well as her husband. Here too are women who kill under the influence of their male partners, such as Myra Hindley and Rosemary West, and whose lack of remorse for their actions is nothing short of chilling. But the author also turns his forensic gaze on female killers who were themselves victims, like Aileen Wuornos, whose killing spree, for which she was executed, can be traced directly to her treatment at the hands of men. Christopher Berry-Dee has no equal as the author of hard-hitting studies of the killers who often walk among us undetected for many years, and who in so many cases seem to be acting entirely against their natures.

worst female serial killers: Female Serial Killers Peter Vronsky, 2007-08-07 In this fascinating book, Peter Vronsky exposes and investigates the phenomenon of women who kill—and the political, economic, social and sexual implications buried with each victim. How many of us are even remotely prepared to imagine our mothers, daughters, sisters or grandmothers as fiendish killers? For centuries we have been conditioned to think of serial murderers and psychopathic predators as men—with women registering low on our paranoia radar. Perhaps that's why so many trusting husbands, lovers, family friends, and children have fallen prey to "the female monster." From history's earliest recorded cases of homicidal females to Irma Grese, the Nazi Beast of Belsen, from Britain's notorious child-slayer Myra Hindley to 'Honeymoon Killer' Martha Beck to the sensational cult of Aileen Wournos—the first female serial killer-as-celebrity—to cult killers, homicidal missionaries, and our pop-culture fascination with the sexy femme fatale, Vronsky not only challenges our ordinary standards of good and evil but also defies our basic accepted perceptions of gender role and identity.
