Giving up on an unloved career as an electrician, he turned his attention to acting and soon, through a natural talent for making people laugh, found himself working with the leading lights of British comedy in the 1960s and '70s: Eric Idle, Michael Palin, Bob Monkhouse and Ronnie Barker. Barker would become a mentor to David, leading to hugely successful stints in *Porridge* and *Open All Hours*. It wasn't until 1981, kitted out with a sheepskin jacket, a flat cap, and a clapped-out Reliant Regal, that David found the part that would capture the nation's hearts: the beloved Derek 'Del Boy' Trotter in *Only Fools and Horses*. Never a one-trick pony, he had an award-winning spell as TV's favourite detective Jack Frost, took a country jaunt as Pop Larkin in the *Darling Buds of May*, and even voiced a crime-fighting cartoon rodent in the much-loved children's show *Danger Mouse*. But life hasn't all been so easy: from missing out on a key role in *Dad's Army* to nearly drowning in a freak diving accident, David has had his fair share of ups and downs, and has lost some of his nearest and dearest along the way. David's is a touching, funny and warm-hearted story, which charts the course of his incredible five decades at the top of the entertainment business. He's been a shopkeeper and a detective inspector, a crime-fighter and a market trader, and he ain't finished yet. As Del Boy would say, it's all cushty.

Davies re-imagined the programme so successfully, so triumphantly, that it's become an instant Christmas tradition, a BAFTA winner, an international 'superbrand' and a number one rated show. It's even been credited with reinventing family TV. This is the first full-length book to explore the 'new Who' phenomenon through to the casting of Matt Smith as the new Doctor. It explores Doctor Who through contemporary debates in TV Studies about quality TV and how can we define TV series as both 'cult' and 'mainstream'. Further, the book challenges assumptions in focusing on the importance of breath-taking, dramatic moments along

with narrative structures, and in analysing the significance of Murray Gold's music as well as the series' visual representations. Matt Hills is a lifelong Who fan and he also considers the role of fandom in the show's return. a bit of a do tv series: Remembering Television Kate Darian-Smith, Sue Turnbull, 2013-01-16 This path-breaking book extends our knowledge of the social and cultural impacts of television, asking new questions about the ways television's technologies and programming have been experienced, understood and remembered. Television has served as a companion to the historical events that have unfolded in our everyday lives both on and off the screen, and its presence is intricately bound up in our memories of the past and actions in the present. As this volume demonstrates, the influence of television over individual and family behaviours, national identity and ideas of global citizenship is complex and wide-ranging. Drawing upon recent developments in memory studies, history, media and cultural studies, and with particular reference to Australia, leading scholars explore the histories of television, and how its programs and personalities have been celebrated, recalled with nostalgia or simply forgotten. Topics covered include the pre-figuring of television; memories of the struggle for transmission in remote locations; the transnational experience of television for immigrant communities; the evocation of television programs through spin-off products; televised war reportage and censorship; and the value of 'unofficial' television archives such as YouTube. As a whole, these essays offer a striking and original examination of the connections between history, memory and television in today's world.
