This comprehensive guide will help you understand everything you need to know about Cavachons, where to find them, and how to ensure you bring home a healthy, happy puppy.

What Is a Cavachon?

Origin and Breed Characteristics

The Cavachon is a delightful hybrid dog, a cross between the Cavalier King Charles Spaniel and the Bichon Frise. This mix combines the best qualities of both breeds, resulting in a friendly, affectionate, and adaptable companion. Originally bred as a companion dog, the Cavachon has gained popularity due to its charming appearance and gentle demeanor.

Physical Features

Cavachons typically have:

- Soft, curly or wavy coat that may require regular grooming
- Expressive eyes and a sweet face
- Size ranging from 12 to 13 inches at the shoulder
- Weight usually between 12 to 20 pounds

Their adorable appearance and affectionate nature make them perfect for families, singles, and seniors alike.

Why Choose a Cavachon in the UK?

Temperament and Suitability

Cavachons are known for their friendly and social nature. They tend to get along well with children, other pets, and strangers, making them a versatile choice for various living situations. Their moderate energy levels mean they enjoy playtime but are equally happy to relax with their owners.

Hypoallergenic Qualities

While no dog breed is completely hypoallergenic, Cavachons often produce fewer allergens compared to other breeds. Their curly or wavy coat can trap dander, making them a better option for allergy sufferers if properly groomed.

Adaptability to UK Living Conditions

Whether you live in a city apartment or a countryside home, Cavachons adapt well to different environments. They enjoy walks in parks, playing in gardens, and cozy evenings indoors.

- Brushing several times a week
- Professional trimming every 6-8 weeks
- Ear cleaning and dental care

Cost of a Cavachon in the UK

Prices vary depending on the breeder, lineage, and location. On average, expect to pay:

- £1,200 to £2,000 for a well-bred puppy from a reputable breeder
