daily nation newspaper kenya daily nation newspaper kenya: *Birth of a Nation* Gerard Loughran, 2010-02-12 Launched in Nairobi in 1960, three years before the birth of independent Kenya, the Nation group of newspapers grew up sharing the struggles of an infant nation, suffering

the pain of its failures and rejoicing in its successes. Marking its 50th anniversary in 2010, the Nation looks back on its performance as the standard-bearer for journalistic integrity and how far it fell short or supported the loyalty demanded by its founding slogan 'The Truth shall make you free'. The Aga Khan was still a student at Harvard University when he decided that an honest and independent newspaper would be a crucial contribution to East Africa's peaceful transition to democracy. The Sunday Nation and Daily Nation were launched in 1960 when independence for Kenya was not far over the horizon. They quickly established a reputation for honesty and fair-mindedness, while shocking the colonial and settler establishment by calling for the release of the man who could become the nation's first prime minister, Jomo Kenyatta, and early negotiations for 'Uhuru'. The history of the 'Nation' papers and that of Kenya are closely intertwined; in the heat of its printing presses and philosophical struggles, that story is told here: from committed beginnings to its position today as East Africa's leading newspaper group.

Some lines are short; some lines are long. All lines are variable. Some appear parallel but connect in latency. Some appear linear. When held against the light they reveal dependence or independence; Freedom or constraints; Empowerment or strife; Subjugation or Justice. The Trouble with Kenya is a microcosm of any given country's social and justice pillars. These pillars have been subordinated to the political and economic pillars in many societies with politics and the economy being deified as the all-encompassing enablers of the advancement of Nations. With the world becoming more connected, happenings in far-flung places are increasingly becoming risk factors locally, precipitating issues of local concern and increasing the impediments to collective human development. All these may appear to be abstract concepts in daily life where making the next pay check, putting food on the table or securing a comfortable future for oneself and family is an exhausting endeavor but those who ignore the harbinger flicks subject themselves to ongoing or future succumb. The story of the founding of Kenya as a country and the continuous strides towards nationhood is similar to many countries globally that have had a monarchy in their founding DNA. Indeed, some countries have excelled in building institutions that ensure an equitable society, while some continue to struggle with cartelization and usurpation of independence of institutions and commensurately experience unjust societal confluence where only a few enjoy the benefits of a nation-wide toil. daily nation newspaper kenya daily nation newspaper kenya: China in Africa Sabella O. Abidde, Tokunbo A. Ayoola, 2021-02-03 This book examines Sino-African relations and their impact on Africa. It argues that Africa's relationship with China has had a profound impact on key sectors in Africa—economic and political development, the media, infrastructural development, foreign direct investments, loans, debt peonage, and international relations. The authors also analyze the imperialist and neo-colonialist implications of this relationship and discuss the degree to which the relationship is beneficial to Africa.

daily nation newspaper kenya daily nation newspaper kenya: Policing Criminality and Insurgency in Africa Dawud Muhammad Dawud, Usman A. Tar, 2022-11-14 Policing Criminality and Insurgency in Africa: Perspectives on the Changing Wave of Law Enforcement provides critical insights into the trends and patterns of crime and insurgency in contemporary African society. In Africa criminals and insurgents are becoming more resourceful, smart, and connected, as criminal syndicates are increasingly deploying modern technologies to commit crimes in ways and manners that are profoundly daring, and on a transnational and global scale. Meanwhile, the capacity of local, state, and security forces to stem the tide of crimes and insurgencies is decimated by dwindling resources on the part of the state due to official corruption, down-sizing of public institutions and a fierce competition for resources between security and other developmental agencies. In this volume, the contributors, who are expert academics in policing and security in Africa as well as security practitioners, provide detailed explanations of the new wave of crime, characterized by cyber insecurity, terror financing, the proliferation of small arms and light weapons, and transnational networking among criminal syndicates. The volume forensically explores how these complex waves and emerging trends of criminality and insurgency impact on the socio-economic and political development of Africa. Editors, Usman A. Tar and Dawud Muhammad Dawud highlight how these factors affect and shape policing and law enforcement in an era of “smart crimes” and insurgency within the continent.

Proposals to remedy this deficiency have been made, in part, by members of the Shanghai Cooperation Organization (led by the Russian Federation), but the United States and select allies have rejected these proposals, arguing that existing international law already provides a suitable comprehensive framework necessary to tackle cyber-warfare. Cyber-Attacks and the Exploitable Imperfections of International Law does not contest (and, in fact, supports) the idea that contemporary jus ad bellum and jus in bello, in general, can accommodate cyber-warfare. However, this analysis argues that existing international law contains significant imperfections that can be exploited; gaps, not yet filled, that fail to address future risks posed by cyber-attacks.

daily nation newspaper kenya daily nation newspaper kenya: Africa and China Aleksandra W. Gadzala, 2015-09-03 The China-Africa relationship has so far largely been depicted as one in which the Chinese state and Chinese entrepreneurs control the agenda, with Africans and their governments as passive actors exercising little or no agency. This volume examines the African side of the relation, to show how African state and non-state actors increasingly influence the China-Africa partnership and, in so doing, begin to shape their economic and political futures. The influx of public and private sector Chinese actors across the African continent has led to a rise of opportunities and challenges, which the volume sets out to examine. With case studies from Nigeria, Angola, Kenya, South Africa, Ethiopia, and Zambia, and across the technology, natural resource, manufacturing, and financial sectors, it shows not only how African realities shape Chinese actions,

but also how African governments and entrepreneurs are learning to leverage their competitive advantages and to negotiate the growing Chinese presence across the continent.

Working at the intersection of cultural studies, critical development studies and feminist theory, the book's contributors articulate a radical and innovative framework for understanding the linkages between women, culture and development, applying it to issues ranging from sexuality and the gendered body to the environment, technology and the cultural politics of representation. This revised and updated edition brings together leading academics, as well as a new generation of activists and scholars, to provide a fresh perspective on the ways in which women in the South are transforming our understanding of development.

daily nation newspaper kenya daily nation newspaper kenya: *Kenyan, Christian, Queer* Adriaan van Klinken, 2019-07-24 Popular narratives cite religion as the driving force behind homophobia in Africa, portraying Christianity and LGBT expression as incompatible. Without denying Christianity's contribution to the stigma, discrimination, and exclusion of same-sex-attracted and gender-variant people on the continent, Adriaan van Klinken presents an alternative narrative, foregrounding the ways in which religion also appears as a critical site of LGBT activism. Taking up the notion of "arts of resistance," Kenyan, Christian, Queer presents four case studies of grassroots LGBT activism through artistic and creative expressions—including the literary and cultural work of Binyavanga Wainaina, the "Same Love" music video produced by gay gospel musician George Barasa, the Stories of Our Lives anthology project, and the LGBT-affirming Cosmopolitan Affirming Church. Through these case studies, Van Klinken demonstrates how Kenyan traditions, black African identities, and Christian beliefs and practices are being navigated, appropriated, and transformed in order to allow for queer Kenyan Christian imaginations. Transdisciplinary in scope and poignantly intimate in tone, Kenyan, Christian, Queer opens up critical avenues for rethinking the nature and future of the relationship between Christianity and queer activism in Kenya and elsewhere in Africa.

daily nation newspaper kenya daily nation newspaper kenya: *What's Wrong With Being Black?* Matthew Ashimolowos, 2011-07-28 Thoroughly researched and extensively referenced, this highly credible work uses evidence from biblical, anthropological, historical, and ancient literature sources dating as far back as 3,000 years ago to support the facts that: People of color have a positive history. People of color were the first to give structure and order in society. Scripture cites Black role models. Current issues such as idolatry and slavery have their roots in the practices of ancestors. Color was not used as a segregating tool until 300 years ago. Racial equality is a truth Black people have different issues. There is nothing wrong with being black. I have said,...all of you are children of the most High (Psalm 82:6). Pastor of the largest church in Western Europe, Matthew Ashimolowo looks at the glorious past of the Black race and examines uncompromisingly the conformations that have molded Black people. His fascinating insight celebrates the rich heritage and confronts today's challenges.

daily nation newspaper kenya daily nation newspaper kenya: *Refugees in Extended Exile* Jennifer Hyndman, Wenona Giles, 2016-10-04 This book argues that the international refugee regime and its 'temporary' humanitarian interventions have failed. Most refugees across the globe live in 'protracted' conditions that extend from years to decades, without legal status that allows

them to work and establish a home. It is contended that they become largely invisible to people based in the global North, and cease to remain fully human subjects with access to their political lives. Shifting the conversation away from the salient discourse of 'solutions' and technical fixes within state-centric international relations, the authors recover the subjectivity lost for those stuck in extended exile. The book first argues that humanitarian assistance to refugees remains vital to people's survival, even after the emergency phase is over. It then connects asylum politics in the global North with the intransigence of extended exile in the global South. By placing the urgent crises of protracted exile within a broader constellation of power relations, both historical and geographical, the authors present research and empirical findings gleaned from refugees in Iran, Kenya and Canada and from humanitarian and government workers. Each chapter reveals patterns of power circulating through the 'colonial present', Cold War legacies, and the global 'war on terror'. Seeking to render legible the more quotidian struggles and livelihoods of people who find themselves defined as refugees, this book will be of great interest to international humanitarian agencies, as well as migration and refugee researchers, including scholars in refugee studies and human displacement, human security, globalization, immigration, and human rights.

daily nation newspaper kenya daily nation newspaper kenya: Digital Democracy, Analogue Politics Nanjala Nyabola, 2018-11-15 From the upheavals of recent national elections to the success of the #MyDressMyChoice feminist movement, digital platforms have already had a dramatic impact on political life in Kenya - one of the most electronically advanced countries in Africa. While the impact of the Digital Age on Western politics has been extensively debated, there is still little appreciation of how it has been felt in developing countries such as Kenya, where Twitter, Facebook, WhatsApp and other online platforms are increasingly a part of everyday life. Written by a respected Kenyan activist and researcher at the forefront of political online struggles, this book presents a unique contribution to the debate on digital democracy. For traditionally marginalised groups, particularly women and people with disabilities, digital spaces have allowed Kenyans to build new communities which transcend old ethnic and gender divisions. But the picture is far from wholly positive. Digital Democracy, Analogue Politics explores the drastic efforts being made by elites to contain online activism, as well as how 'fake news', a failed digital vote-counting system and the incumbent president's recruitment of Cambridge Analytica contributed to tensions around the 2017 elections. Reframing digital democracy from the African perspective, Nyabola's ground-breaking work opens up new ways of understanding our current global online era.

Case studies examine not only some of the largest media corporations (News Corp., The Microsoft Corporation) in terms of revenues, but also media corporations that hold considerable power within national, regional, or geolinguistic contexts (Televisa, The Bertelsmann Group, Sony Corporation). Each chapter approaches a different corporation through the lens of economy, politics, and culture, giving students and scholars a thoughtful and data-driven guide with which to interrogate contemporary media industry power.

daily nation newspaper kenya daily nation newspaper kenya: The Foreign Policies of East African States Jude Kagoro, Julian Friesinger, Klaus Schlichte, 2024-11-26 This book analyses the foreign policies of African countries, specifically in the region of East Africa. It reveals the regional dynamics and the way in which the international system interacts with these policies and how they are driven by domestic politics versus national visions, and vice versa. As such, it provides fine-grained and historically informed analyses of the international relations of these states arguing that foreign policy is always informed by domestic processes and the relations between states and changes within the international system impact on the formulation of domestic politics via foreign policy. Finally, the book argues that East Africa's foreign policy is not one of militarised action alone but rather a mélange of self-survival strategies stemming from the desire to close the gap with more

industrialised states necessitating a variety of trade and diplomatic efforts. This book is of key interest to scholars and students of African politics, Foreign Policy, Foreign Policy Analysis, International Organisations and, more broadly, to comparative politics and international relations.

daily nation newspaper kenya daily nation newspaper kenya: The Responsibility to Protect and the International Criminal Court Serena Sharma, 2015-12-22 This book provides an account of how the responsibility to protect (R2P) and the International Criminal Court (ICC) were applied in Kenya. In the aftermath of the disputed presidential election on 27 December 2007, Kenya descended into its worst crisis since independence. The 2007-08 post-election crisis in Kenya was among the first situations in which there was an appeal to both the responsibility to protect and a responsibility to prosecute. Despite efforts to ensure compatibility between R2P and the ICC, the two were far from coherent in this case, as the measures designed to protect the population in Kenya undermined the efforts to prosecute perpetrators. This book will highlight how the African Union-sponsored mediation process effectively brought an end to eight weeks of bloodshed, while simultaneously entrenching those involved in orchestrating the violence. Having secured positions of power, politicians bearing responsibility for the violence set out to block prosecutions at both the domestic and international levels, eventually leading the cases against them to unravel. As this book will reveal, by utilising the machinery of the state as a shield against prosecution, the Government of Kenya reverted to an approach to sovereignty that both R2P and the ICC were specifically designed to counteract. This book will be of interest to students of the Responsibility to Protect, humanitarian intervention, African politics, war and conflict studies and IR/Security Studies in general.

daily nation newspaper kenya daily nation newspaper kenya: Perspectives on the right to development Carol C Ngang, Serges Djoyou Kamga, Vusi Gumede, 2018-01-01 The last couple of decades has not only witnessed an increased convergence between human rights and development but also a significant shift towards rights-based approaches to development, including especially responsiveness to the fact that development in itself is a human right guaranteed to be enjoyed by all peoples. This edited volume of peer-reviewed papers constitutes the first product resulting from the annual international conference series on the right to development, organised by the Centre for Human Rights, University of Pretoria, and the Thabo Mbeki African Leadership Institute at the University of South Africa. It explores the complex nature of the right to development from a diversified perspective, including from a conceptual, thematic, country and regional points of view. Conceived with the purpose to overshadow dominant economic growth approaches to development, the perspectives on the right to development articulated in this publication seek to locate the developmentalist discourse within the framework of accountability and people-centred development programming, necessitating appropriate policy formulation to ensure the constant improvement in human well-being. The book is written with the aim to reach out to researchers, academics, practitioners and policy makers who desire an in-depth understanding of the right to development as it applies universally.
