faith martin book order: "Faith, Gender and the Senses in Italian Renaissance and Baroque Art " ErinE. Benay, 2017-07-05 Taking the Noli me tangere and Doubting Thomas episodes as a focal point, this study examines how visual representations of two of the most compelling and related Christian stories engaged with changing devotional and cultural ideals in Renaissance and Baroque Italy. This book reconsiders depictions of the ambiguous encounter of Mary Magdalene and Christ in the garden (John 20:11-19, known as the Noli me tangere) and that of Christ's post-Resurrection appearance to Thomas (John 20:24-29, the Doubting Thomas) as manifestations of complex theological and art theoretical milieus. By focusing on key artistic monuments of the Italian Renaissance and Baroque periods, the authors demonstrate a relationship between the rise of skeptical philosophy and empirical science, and the efficacy of the senses in the construction of belief. Further, the authors elucidate the differing representational strategies employed by artists to depict touch, and the ways in which these strategies were shaped by gender, social class, and educational level. Indeed, over time St. Thomas became an increasingly public--and therefore masculine--symbol of devotional verification, juridical inquiry, and empirical investigation, while St. Mary Magdalene provided a more private model for pious women, celebrating, mostly behind closed doors, the privileged and active participation of women in the faith. The authors rely on primary source material--paintings, sculptures, religious tracts, hagiography, popular sermons, and new documentary evidence. By reuniting their visual examples with important, often little-known textual sources, the authors reveal a complex relationship between visual imagery, the senses, contemporary attitudes toward gender, and the shaping of belief. Further, they add greater nuance to our understanding of the relationship between popular piety and the visual culture of the period.

Based on an autoethnographic study about a free food store in Aotearoa New Zealand, this book presents a first-hand account of how a community is organized around surplus food to deal with food poverty, while also helping the reader to see through the complexity that brings the free food store to life. Examining how alternative economies and relations emerge from these community solutions, the author shows it is possible to think, act and organize differently within and beyond capitalist

dynamics.

faith martin book order: *God and the EU* Jonathan Chaplin, Gary Wilton, 2015-12-14 The current political, economic and financial crises facing the EU reveal a deeper cultural, indeed spiritual, malaise – a crisis in ‘the soul of Europe’. Many observers are concluding that the ‘soul of Europe’ cannot be restored to health without a new appreciation of the contribution of religion to its past and future, and especially that of its hugely important but widely neglected Christian heritage, which is alive today even amidst advancing European secularization. This book offers a fresh, constructive and critical understanding of Christian contributions to the origin and development of the EU from a variety of theological and national perspectives. It explains the Christian origins of the EU, documents the various ways in which it has been both affirmed and critiqued from diverse theological perspectives, offers expert, theologically-informed assessments of four illustrative policy areas of the EU (trade, finance, environment, science), and also reports on the place of religion in the EU, including how religious freedom is framed and how contemporary religious (including Muslim) actors relate to EU institutions and vice versa. The book fills a major gap in the current debate about the future of the European project and will be of interest to students and scholars of religion, politics and European studies.

faith martin book order: *Faith, Hope, and Love in the Kingdom of God* Robert Hernan Cubillos, 2017-04-27 We live in a world full of challenges. The three graces can almost be seen as motors for Christian life in today's world, but the words faith, hope, and love have so many everyday uses that their technical, theological meanings are, for many, difficult to appreciate. Modern life also leaves many yearning for authenticity and meaning. Many religions have answered that need by calling to mind the image of a path. Always profound progressions, religious paths tend to be motivated either by practices (the act of walking the path) or focal points. Christianity has a focal point, an object, and it sees the three graces as distinctively content filled. The heart of this book is about helping people find the Christian path and their intellectual, emotional, and spiritual balance--an equilibrium that is sustained by a strong personal faith, an enduring hope for the future, and genuine love that will withstand the worst of times. It contributes to the category of Christian literature that provides a pattern for Christian living without surrendering the intellect to the more popular side of this genre.

faith martin book order: *Faith and Fraternity* Laura Branch, 2017-05-08 In *Faith and Fraternity* Laura Branch provides the first sustained comparative analysis of London's livery companies during the Reformation. Focussing on the Grocers and the Drapers, this book challenges the view that merchants were zealous early Protestants and that the companies to which they belonged adapted to the Reformation by secularising their ethos. Rather, the rhetoric of Christianity, particularly appeals to brotherly love, punctuated the language of corporate governance throughout the century, and helped the liveries retain a spiritual culture. These institutions comprised a spectrum of religious identities yet members managed to coexist relatively peacefully; in this way the liveries help us to understand better how the transition from a Catholic to a Protestant society was negotiated.
