for a friend manga: Manga's First Century Andrea Horbinski, 2025-10-28 A comprehensive English-language history of a beloved medium, *Manga's First Century* tells the story of the artists and fans who built a cultural juggernaut. Manga is the world's most popular style of comics. How did manga and anime—"moving manga"—become ubiquitous? *Manga's First Century* delves into the history and finds surprising answers. In fact, manga has always been a global phenomenon. Countering essentialist myths of manga's emergence from the deepest wells of Japanese art, author Andrea Horbinski shows it was born in the early 1900s, a hybrid form that crossed single-panel satirical cartoons popular in Europe and America with the Edo period's artistic legacy. As a medium, manga initially focused on political commentary, expanding to include social satire, children's comics, and proletarian art in the 1920s and 1930s. Manga's evolution into a medium embracing complex, long-form storytelling was likewise driven by creators and fans pushing publishers to accept new, radical expansions in manga's artistic and narrative practices. In the 1970s, innovative creators and fans empowered a new breed of fan-generated comics (*dōjinshi*) and established robust audiences of adult, female, and queer manga readers, while nurturing generations of amateur and professional creators who continue to enrich and renew manga today.

Through contributions from leading scholars in the fields of comics and Japanese culture, it describes manga culture in two ways: as a fundamentally hybrid culture comprised of both subcultures and transcultures, and as an aesthetic culture which has eluded modernist notions of art, originality, and authorship. The latter is demonstrated in a special focus on the best-selling manga franchise, *NARUTO*.

for a friend manga: *Asian Interventions in Global Shakespeare* Poonam Trivedi, Paromita Chakravarti, Ted Motohashi, 2020-11-16 This volume critically analyses and theorises Asian interventions in the expanding phenomenon of Global Shakespeare. It interrogates Shakespeare's 'universality' from Asian perspectives: how this has been modified or even replaced by the 'global bard' as a recognisable brand, and how Asian Shakespeares have contributed to or subverted this process by both facilitating the worldwide dissemination of the bard's plays and challenging and resisting the very templates through which they become globally legible. Critically acclaimed Asian productions have prominently figured at premier Western festivals, and popular Asian appropriations like Bollywood, manga and anime have created new kinds of globally accessible Shakespeare. Essays in this collection engage with the emergent critical issues: the efficacy of definitions of the 'local', 'global', 'transnational' and 'cosmopolitan' and of the liminalities and mobilities in between. They further examine the politics of 'West' and 'East', the evolving markers of the 'Asian' and the equation of the 'glocal' with the 'Asian'; they attend to performance and archiving protocols and bring the current debates on translation, appropriation, and world literature to speak to the concerns of global and transnational Shakespeare. These investigations analyse recent innovative Asian theatre productions, popular cinematic and manga appropriations and the increasing presence of Shakespeare in the Asian digital sphere. They provide an Asian standpoint and lens in rereading the processes of cultural globalisation and the mobilisation of Shakespeare.

for a friend manga: British Children's Literature in Japanese Culture Catherine Butler, 2023-09-21 Whether watching Studio Ghibli adaptations of British children's books, visiting Harry Potter sites in Britain or eating at Alice in Wonderland-themed restaurants in Tokyo, the Japanese have a close and multifaceted relationship with British children's literature. In this, the first comprehensive study to explore this engagement, Catherine Butler considers its many manifestations in print, on the screen, in tourist locations and throughout Japanese popular culture. Taking stock of the influence of literary works such as Gulliver's Travels, Alice's Adventures in Wonderland, The Tale of Peter Rabbit, Tom's Midnight Garden, and the Harry Potter series, this lively account draws on literary criticism, translation, film and tourist studies to explore how British children's books have been selected, translated, understood, adapted and reworked into Japanese commercial, touristic and imaginative culture. Using theoretically informed case studies this book will consider both individual texts and their wider cultural contexts, translations and adaptations (such as the numerous adaptations of British children's books by Studio Ghibli and others), the dissemination of distinctive tropes such as magical schools into Japanese children's literature and popular culture, and the ways in which British children's books and their settings have become part of way that Japanese people understand Britain itself.

for a friend manga: Passionate Friendship Deborah M. Shamoon, 2012-03-13 Shoujo manga are romance comics for teenage girls. Characterized by a very dense visual style, featuring flowery backgrounds and big-eyed, androgynous boys and girls, it is an extremely popular and prominent genre in Japan. Why is this genre so appealing? Where did it come from? Why do so many of the stories feature androgynous characters and homosexual romance? Passionate Friendship answers these questions by reviewing Japanese girls' print culture from its origins in 1920s and 1930s girls'

literary magazines to the 1970s “revolution” shojo manga, when young women artists took over the genre. It looks at the narrative and aesthetic features of girls’ literature and illustration across the twentieth century, both pre- and postwar, and discusses how these texts addressed and formed a reading community of girls, even as they were informed by competing political and social ideologies. The author traces the development of girls’ culture in pre-World War II magazines and links it to postwar teenage girls’ comics and popular culture. Within this culture, as private and cloistered as the schools most readers attended, a discourse of girlhood arose that avoided heterosexual romance in favor of “S relationships,” passionate friendships between girls. This preference for homogeneity is echoed in the postwar genre of boys’ love manga written for girls. Both prewar S relationships and postwar boys’ love stories gave girls a protected space to develop and explore their identities and sexuality apart from the pressures of a patriarchal society. Shojo manga offered to a reading community of girls a place to share the difficulties of adolescence as well as an alternative to the image of girls purveyed by the media to boys and men. Passionate Friendship’s close literary and visual analysis of modern Japanese girls’ culture will appeal to a wide range of readers, including scholars and students of Japanese studies, gender studies, and popular culture.

for a friend manga: Present Imperfect Andrew van der Vlies, 2017-05-26 *Present Imperfect* asks how South African writers have responded to the end of apartheid, to the hopes that attended the birth of the 'new' nation in 1994, and to the inevitable disappointments that have followed. The first full-length study of affect in South Africa's literature, it understands 'disappointment' both as a description of bad feeling and as naming a missed appointment with all that was promised by the anti-colonial and anti-apartheid Struggle (a dis-appointment). Attending to contemporary writers' treatment of temporality, genre, and form, it considers a range of negative feelings that are also experiences of temporal disjuncture-including stasis, impasse, boredom, disaffection, and nostalgia. *Present Imperfect* offers close readings of work by a range of writers - some known to international Anglophone readers including J.M. Coetzee, Nadine Gordimer, Ivan Vladislavic, and Zoë Wicomb, some slightly less well-known including Afrikaans-language novelists Marlene van Niekerk and Ingrid Winterbach, and others from a new generation including Songeziwe Mahlangu and Masande Ntshanga. It addresses key questions in South African studies about the evolving character of the historical period in which the country now finds itself. It is also alert to wider critical and theoretical conversations, looking outward to make a case for the place of South African writing in global conversations, and mobilizing readings of writing marked in various ways as 'South African' in order to complicate the contours of World Literature as category, discipline, and pedagogy. It is thus also a book about the discontents of neoliberalism, the political energies of reading, and the fates of literature in our troubled present.
