house of silk horowitz: *A Companion to the Biopic* Deborah Cartmell, Ashley D. Polasek, 2020-01-15 The most comprehensive reference text of theoretical and historical discourse on the biopic film. The biopic, often viewed as the most reviled of all film genres, traces its origins to the early silent era over a century ago. Receiving little critical attention, biopics are regularly dismissed as superficial, formulaic, and disrespectful of history. Film critics, literary scholars and historians tend to believe that biopics should be artistic, yet accurate, true-to-life representations of their subjects. Moviegoing audiences, however, do not seem to hold similar views; biopics continue to be popular, commercially viable films. Even the genre's most ardent detractors will admit that these films are often very watchable, particularly due to the performance of the lead actor. It is increasingly common for stars of biographical films to garner critical praise and awards, driving a growing interest in scholarship in the genre. *A Companion to the Biopic* is the first global and authoritative reference on the subject. Offering theoretical, historical, thematic, and performance-based approaches, this unique volume brings together the work of top scholars to discuss the coverage of the lives of authors, politicians, royalty, criminals, and pop stars through the biopic film. Chapters explore evolving attitudes and divergent perspectives on the genre with topics such as the connections between biopics and literary melodramas, the influence financial concerns have on aesthetic, social, or moral principles, the merger of historical narratives with Hollywood biographies, stereotypes and criticisms of the biopic genre, and more. This volume: Provides a systematic, in-depth analysis of the biopic and considers how the choice of historical subject reflects contemporary issues Places emphasis on films that portray race and gender issues Explores the uneven boundaries of the genre by addressing what is and is not a biopic as well as the ways in which films simultaneously embrace and defy historical authenticity Examines the distinction between reality and 'the real' in biographical films Offers a chronological survey of biopics from the beginning of the 20th century *A Companion to the Biopic* is a valuable resource for researchers, scholars, and students of history, film studies, and English literature, as well as those in disciplines that examine interpretations of historical figures

house of silk horowitz: Man Up Morna Ramday, 2015-10-05 Much has been written regarding the New Woman in the fin de siècle and the changes women's groups fought so hard to achieve. However, the social and gender changes demanded by women as the nineteenth century drew to a close necessitated a corresponding change in traditional masculinities. Redefinition of the male role was not easily negotiated in an era of rampant patriarchy and Victorian supremacy; the distinct boundaries between male and female social space made this increasingly problematic for both genders. Some Victorian men, who had seen the public sphere as exclusively theirs, felt both their masculinity and male privilege threatened and were confused by women's challenges and their attempted encroachment into what had previously been perceived as solely male domains. While many female authors explored possibilities for the New Woman figure, as the fin de siècle approached, male authors began to consider how masculinities might respond to changing gender dynamics. Authors such as Sir Arthur Conan Doyle and Bram Stoker, amongst others, addressed ways in which their male characters could negotiate a quandary of masculinities under threat by alterations to conventional gender spheres while remaining "manly" in situations which required a rethinking of many of their basic tenets during this time of flux. This book examines the opinions of women within both the dominant and reverse discourses, and parallels them with ideas surrounding changes in masculinities that began to emerge in male-authored texts. As such, it details an often vociferous negotiation of volatile issues which led to a major upheaval of gender roles in the approach to a new century that demanded changes which were difficult to achieve.
