Da hael book is bilingual apairt fae da bits fae da seeven midder tongue spaekers at ir onnly in Shaetlan, as is onnly richt. This is the first bilingual grammar of Shaetlan, the language which pre-dates English in Shetland, the northernmost part of the UK. The language is of a mixed ancestry, with Norn and Scots as its main input languages, but with a linguistic history shaped by intense contact with the Low Country Germanic languages due to the intense Hanseatic and fishing trades. Shaetlan has seen severe stigmatisation over the last few centuries, and has never been formally recognised. It is now in an endangered state, with dwindling intergenerational transmission. However, the structure of the language has remained remarkably resilient and still shows its unique Mixed Language ancestry not only in its vocabulary but also in its grammar. This grammar describes the language from a linguistic typological perspective, and places it in a global typological context. While it is a linguistically oriented book, it is written to be accessible for the general public. The data consists of 37,5 hours of archival recordings (which represents a corpus of about 400,000 words) as well as more than nine years of interviews, participant observation and immersion. The book starts with

seven contributions by Shaetlan mother tongue speakers. It is then divided into two parts: Part I sets the scene and gives the historico-linguistic background to the formation of Shaetlan, discusses its status and place in society today, shows the data for classifying it as a Mixed Language in its own right, and presents the orthography used for the data in Da Shaetlan Project. Part II gives a grammatical description of contemporary Shaetlan, using a general typological linguistic framework and structured as a conventional typological linguistic grammar. The entire book is bilingual, with the exception of the seven introductory contributions by Shaetlan mother tongue speakers, which are in Shaetlan only.

It contains over 1,500 listings, including revised and updated listings from the 2024 edition, and over 300 brand new entries. Finding the information you need is now quicker and easier than ever before, with multiple tables and a detailed index, and unique paragraph numbers to help you get to the listings you're looking for. The variety of tables helps you navigate the listings in different ways, and includes a Table of Authors, which lists over 6,000 authors and tells you who represents them, or who publishes them, or both. The number of genres in the index has expanded to over 900. So, for example, while there was only one option for "Romance" in previous editions, you can now narrow this down to Historical Romance, Fantasy Romance, Supernatural / Paranormal Romance, Contemporary Romance, Diverse Romance, Erotic Romance, Feminist Romance, Christian Romance, or even Amish Romance. The new edition includes: · Over 650 literary agents and agencies; · Over 450 magazines; and · Over 500 publishers that don't charge fees. International markets become more accessible than ever, with listings that cover both the main publishing centres of New York and London, as well as markets in other English-speaking countries. With more and more agents, publishers, and magazines accepting submissions online, this international outlook is now more important than ever. There are no adverts, no advertorials, and no obscure listings padding out hundreds of pages. By including only what's important to writers – contact details for literary agents, publishers, and magazines – this directory is able to provide more listings than its competitors, at a lower price. The book also allows you to create a subscription to the firstwriter.com website for free until 2026. This means you can get free access to the firstwriter.com website, where you can find even more listings, and also benefit from other features such as advanced searches, daily email updates, feedback from users about the markets featured, saved searches, competitions listings, searchable personal notes, and more. "I know firsthand how lonely and dispiriting trying to find an agent and publisher can be.
