nick stone order of books: *Antillanité, créolité, littérature-monde* Isabelle Constant, Kahiudi C. Mabana, 2013-02-14 This collection of essays explores concepts present in literatures in French that, since the 2007 manifesto, more and more critics, suspicious of the term Francophonie, now prefer to designate as littérature-monde (world literature). The book shows how the three movements of antillanité, créolité and littérature-monde each in their own way break with the past and distance themselves from the hexagonal centre. The critics in this collection show how writers seek to represent an authentic view of their history, culture, identities, reality and diversities. According to many of the contributors, creolization and littérature-monde offer new perspectives and possibly a new genre of literature. nick stone order of books: *The Atlantic and Its Enemies* Norman Stone, 2010-05-25 After World War II, the former allies were saddled with a devastated world economy and traumatized populace. Soviet influence spread insidiously from nation to nation, and the Atlantic powers -- the Americans, the British, and a small band of allies -- were caught flat-footed by the coups, collapsing armies, and civil wars that sprung from all sides. The Cold War had begun in earnest. In *The Atlantic and Its Enemies*, prize-winning historian Norman Stone assesses the years between World War II and the collapse of the Iron Curtain. He vividly demonstrates that for every Atlantic success there seemed to be a dozen Communist or Third World triumphs. Then, suddenly and against all odds, the Atlantic won -- economically, ideologically, and militarily -- with astonishing speed and finality. An elegant and path-breaking history, *The Atlantic and Its Enemies* is a monument to the immense suffering and conflict of the twentieth century, and an illuminating exploration of how the Atlantic triumphed over its enemies at last.

nick stone order of books: *Farewell to Visual Studies* James Elkins, Gustav Frank, Sunil Manghani, 2015-10-28 Each of the five volumes in the *Stone Art Theory Institutes* series brings together a range of scholars who are not always directly familiar with one another's work. The outcome of each of these convergences is an extensive and "unpredictable conversation" on knotty and provocative issues about art. This fifth and final volume in the series focuses on the identity, nature, and future of visual studies, discussing critical questions about its history, objects, and methods. The contributors question the canon of literature of visual studies and the place of visual studies with relation to theories of vision, visuality, epistemology, politics, and art history, giving voice to a variety of inter- and transdisciplinary perspectives. Rather than dismissing visual studies, as its provocative title might suggest, this volume aims to engage a critical discussion of the state of visual studies today, how it might move forward, and what it might leave behind to evolve in productive ways. The contributors are Emmanuel Alloa, Nell Andrew, Linda Báez Rubí, Martin A. Berger, Hans Dam Christensen, Isabelle Decobecq, Bernhard J. Dotzler, Johanna Drucker, James Elkins, Michele Emmer, Yolaine Escande, Gustav Frank, Theodore Gracyk, Asbjørn Grønstad, Stephan Günzel, Charles W. Haxthausen, Miguel Á. nick stone order of books: *Social Ghosts and the Dead of World History* Martyn Hudson, 2023-04-07 *Social Ghosts and the Dead of World History* looks at the global phenomena of the dead in world history, examining the phantasms and spirits of classical social science and philosophy. From Hegel's 'World-Spirit' to Max Weber's 'Verstehen' and Marx's phantasms, there is a recurring obsession with the 'spirits' of modernity. This book explores the relationships and interactions between those spirits and materiality in five broad areas: the nature of the dead in modernity, shape-shifting and mobile souls, the spirit in accounts of prehistory and archaeology, the phenomenology of spirits and the relation to statues and stone, and the nature of spirit as it is manifested in wooden artefacts and folklore. It offers a counter-modernity to that of classical social science and philosophy and new ways of thinking about our crises and catastrophes in social theory and the world and the worlds beyond this world. Building on the author's previous work on the sociology of haunted houses and landscapes, it examines the body and the individual as the locus of haunting. The book will appeal to academics in philosophy, history, social theory, anthropology and cultural studies in its omni-disciplinarity and in its import for rethinking the histories of social thought.
