Poetry From The Renaissance

poetry from the renaissance: Lyric Poetry by Women of the Italian Renaissance Virginia Cox, 2013-07-31 Bilingual, annotated edition of more than 200 poems by Italian Renaissance women, many of which have never before been published in English. Outstanding Academic Title, Choice Lyric Poetry by Women of the Italian Renaissance is the first modern anthology of verse by Italian women of this period to give a full representation of the richness and diversity of their output. Although familiar authors such as Vittoria Colonna, Gaspara Stampa, and Veronica Gambara are well represented, half of the fifty-four poets featured are unknown even to many specialists. Especially noteworthy is an extensive selection of verse from the period following 1560, which has received little or no critical attention. This later, strikingly experimental, proto-Baroque tradition of verse is reconstructed here for the first time. Virginia Cox creates both a scholarly teaching resource and a collection of poetry accessible to general readers with no previous knowledge of the Italian poetic tradition. Each poem is presented in its original language, accompanied by a translation and commentary. An introduction traces the history of Italian lyric poetry from the fifteenth to the seventeenth century. Cox also provides a guide to meter, rhythm, and rhyme, as well as a glossary of rhetorical terms and a biographical dictionary of authors. Organized thematically, this book offers poems about love, religion, and politics; verse addressed to patrons, friends, family, and places; and polemical and correspondence verse. Four languages are represented: Greek, Latin, literary Tuscan of various levels of standardization, and the stylized rustic dialect of pavan. The volume contains more than 200 poems, of which about a quarter have never before been published in a modern

edition and more than a third have not previously been available in English translation. Exhaustive and insightful . . . This is an amazing book, a major achievement in the field of women's studies.—*Renaissance Quarterly*, reviewing *Women's Writing in Italy, 1400-1650*

poetry from the renaissance: The Classical Legacy in Renaissance Poetry Robin Sowerby, 1994 The formative influence of the Graeco-Roman classics was fundamental to the creation of literary culture in the Renaissance. Through detailed analysis, this book illustrates the classical legacy as it was known in the Renaissance. It then shows how that legacy was received in translation, transformed in imitation and put to creative uses by Renaissance poets working in genres under classical influence.

poetry from the renaissance: *English Renaissance Poetry* John Williams, 2016-02-23 AN ANTHOLOGY FROM THE AUTHOR OF *STONER* Poetry in English as we know it was largely invented in England between the early 1500s and 1630, and yet for many years the poetry of the era was considered little more than a run-up to Shakespeare. The twentieth century brought a reevaluation, and the English Renaissance has since come to be recognized as the period of extraordinary poetic experimentation that it was. Never since have the possibilities of poetic form and, especially, poetic voice—from the sublime to the scandalous and slangy—been so various and inviting. This is poetry that speaks directly across the centuries to the renaissance of poetic exploration in our own time. John Williams's celebrated anthology includes not only some of the most famous poems by some of the most famous poets of the English language (Sir Thomas Wyatt, John Donne, and of course Shakespeare) but also—and this is what makes Williams's book such a rare and rich resource—the strikingly original work of little-known masters like George Gascoigne and Fulke Greville.

poetry from the renaissance: *The Rhetoric of Renaissance Poetry* Thomas O. Sloane, Raymond B. Waddington, 1974 The *Rhetoric of Renaissance Poetry* is meant to demonstrate to the modern student the general importance of rhetoric in the study of English Poetry in the sixteenth and seventeenth centuries. By argument and by example the ten essays serve to define the present state of rhetorical criticism as it is practiced by younger generation of scholar-critics, trained upon those monumental studies by Tuve, Howell, and Ong which spurred the revival of rhetoric in literary study. The present essays are characterized by their common effort to implement the rhetorical approach as a more flexible, subtler, and wider -ranging critical methodology than that employed by critics before the revival. Accordingly, there are efforts to discriminate more precisely the nature and evolution of Renaissance rhetoric; to respect the differences between rhetorical theory and poetic practice; to subject to scrutiny kinds of poetry not usually associated with rhetorical structures, figures, and techniques, there emerges as well a significant concern with the broader rhetorical situation, such as the projected speaker-audience relationship, the definition of audience and of speaker's voice, and the ways in which the rhetoric of a poem involves the reader directly in the formulation of its meaning. Rhetorical criticism is the subject of the volume, but it is a kind which has been absorbed increasingly into the mainstream of critical methodology, distinguished itself by a dominant attitude or point of view rather than by a single-minded application of the rules and definition from rhetoric handbooks. Through this syncretic flexibility the volume best reveals the richly heuristic qualities of the rhetorical approach to poetry. Because the collection includes a number of essays which are important, and even provocative, in their implications, it will be of interest to specialist and students of this period generally as well as to those more particularly concerned with rhetoric.—Publisher

poetry from the renaissance: *Rethinking Gaspara Stampa in the Canon of Renaissance Poetry* Unn Falkeid, Aileen Feng, 2016-03-03 Despite the fact that Gaspara Stampa (1523?-1554) has been recognized as one of the greatest and most creative poets and musicians of the Italian Renaissance, scholarship on her work has been surprisingly scarce and uncoordinated. In recent years, critical attention towards her work has increased, but until now there have been no anthologies dedicated solely to Stampa. *Rethinking Gaspara Stampa in the Canon of Renaissance Poetry* aims to set a foundation for further Stampa studies by accounting for her contributions to literature, music history, gender studies, the history of ideas, philosophy, and other areas of critical thought. This volume brings together an international group of interdisciplinary scholars who employ varied methodologies to explore multiple aspects of Stampa's work in dialogue with the most recent scholarship in the field. The chapters emphasize the many ways in which Stampa's poetry engages with multiple cultural movements of early modern Italy and Europe, including: Ficinian and Renaissance Neoplatonism, male-authored writing about women, Longinus's theory of the sublime, the formation of writing communities, the rediscovery of Aristotle's writings, and the reimagined relation between human and natural worlds. Taken as a whole, this volume presents a rich introduction to, and interdisciplinary investigation of, Gaspara Stampa's impact on Renaissance culture.

Their up-to-date engagement with many scholarly fields - art and iconography, cartography, cultural and social history, literature, politics, theatre, and film - will ensure that this book makes a valuable contribution to contemporary Renaissance studies, with a special interest for those researching and teaching English literature and drama. The nineteen contributors include distinguished Renaissance scholars such as Ann Blake, Graham Bradshaw, Alan Brissenden, Conal Condren, Joost Daalder, Heather Dubrow, Philippa Kelly, Anthony Miller, Kay Gililand Stevenson, Robert White, and Lawrence Wright. Work on Shakespeare forms the core of this coherent collection. There are also significant essays on Magnificence, Donne, Marlowe, A Yorkshire Tragedy, Jonson, Marvell, the Ferrars of Little Gidding, and female conduct literature. hardbound with dust jacket; xii+353 pp; 18 b/w illustrations.

poetry from the renaissance: Impossible Desire and the Limits of Knowledge in Renaissance Poetry Wendy Beth Hyman, 2019-04-04 Impossible Desire and the Limits of Knowledge in Renaissance Poetry examines the limits of embodiment, knowledge, and representation at a disregarded nexus: the erotic carpe diem poem in early modern England. These macabre seductions offer no compliments or promises, but instead focus on the lovers' anticipated decline, and—quite stunningly given the Reformation context—humanity's relegation not to a Christian afterlife but to a Marvellian 'desert of vast Eternity.' In this way, a poetic trope whose classical form was an expression of pragmatic Epicureanism became, during the religious upheaval of the Reformation, an unlikely but effective vehicle for articulating religious doubt. Its ambitions were thus largely philosophical, and came to incorporate investigations into the nature of matter, time, and poetic representation. Renaissance seduction poets invited their auditors to participate in a dangerous intellectual game, one whose primary interest was expanding the limits of knowledge. The book theorizes how Renaissance lyric's own fragile relationship to materiality and time, and its self-conscious relationship to making, positioned it to grapple with these 'impossible' metaphysical and representational problems. Although attentive to poetics, the book also challenges the commonplace view that the erotic invitation is exclusively a lyrical mode. Carpe diem's revival in post-Reformation Europe portends its radicalization, as debates between man and maid are dramatized in disputes between abstractions like chastity and material facts like death. Offered here is thus a theoretical reconsideration of the generic parameters and aspirations of the carpe diem trope, wherein questions about embodiment and knowledge are also investigations into the potentialities of literary form.

poetry from the renaissance: Rhetoric, Rhetoricians, and Poets Marijke Spies, A. van Strien, 1999 The Netherlandish rhetoricians of the sixteenth century have, in the course of the last decades, shed their image of third-rate poets who, lacking all sense of true beauty, were capable only of pompous verbosity and a shallow manipulation of form. The new scholarly assessment has also shed light on the role they played in the cultural and literary life of their time, and it now appears that many of their dramas are well worth staging. Once the sixteenth century was freed from the stigma of being the preparatory phase for the Golden Age, the way was clear for thorough studies of the literature produced during the most turbulent period in the history of the Low Countries. This volume contains essays which deal with works written not only in Dutch, but also in French and in New Latin, with topics ranging from the effects of poetic principles on literary practice to the use of poetry as a means for improving society and developing the individual. The unifying thread in these studies is the pivotal importance of rhetoric in all forms of literary expression.
