put your foot down: *Beyond Empathy* Richard Erskine, Janet Moursund, Rebecca Trautmann, 2013-06-17 In this book, the authors focus on the importance of relationship in psychotherapy. Relationships between people form the basis of our daily lives. We require this contact with others, the sense of respect and value it produces, the relational needs it fulfills. As we face the inevitable traumas of life, large and small, our ability to make full contact with others is often disrupted. As this reduction in contact increases, relational needs go unfulfilled, producing psychological dysfunction. Beyond Empathy offers therapists a methodology for assisting people in rediscovering their ability to maintain genuine, contactful relationships and thus, better psychological health. The authors

describe an integrative psychotherapy approach that they have developed and now teach at the Institute for Integrative Psychotherapy in New York City. It draws from Rogers' client-centered therapy, Berne's transactional analysis, Perls' Gestalt therapy, Kohut's self psychology, and the work of British object-relations theorists. Written in a conversational style, the book introduces the theory behind the approach while using real life interchanges between therapists and clients to illustrate the concepts it presents. The second part of the book details the application of this method in therapy work and provides almost complete transcripts from seven therapy sessions. These include examples of psychotherapeutic regression, working with a parental introject, couples psychotherapy, and more. The open writing style of this book makes it accessible to both beginners and seasoned practitioners within the field of mental health. This versatile approach to therapy promises to be effective across a wide range of therapeutic situations, making this a valuable book for both students and practicing clinicians throughout the spectrum of mental healthcare providers.

Finding Miami Beach to be too crowded, the father changes directions and takes the family to a remote and less known vacation resort in South Carolina. There the boys meet and fall head over rich privileged heels in love with a beautiful local girl who works as a cleaning girl who cleans the

rental vacation cottages. When they return the next year they start up a full blown love and sexual affair with the girl, Melissa. The girl falls in love with them; both of them. Both brothers want to marry the girl. The situation lead to quite a rivalry between the two brothers which could lead to a serious break between them in the family. The problem is that Melissa said she wants to marry BOTH men. She says that she loves them both equally and cannot choose between them. In the end she refuses to choose between them saying that if they will not agree to a three-way marriage she will live with them both in a menage-a-twa arrangement anywhere. While that could be worked out in backwoods mountain country, it would be totally unacceptable in straight laced conservative Baltimore Brahmin society. The boys do not want to leave their family home and situation. By a series of events that include a savage barroom between the brothers and locals over the girl, a fight in which one of the brothers seriously mutilates a knife welding redneck thug, facing possible serious danger from angry locals who falsely blame the girl for provoking the fight, the girl comes home with the boys to live with them as a cleaning girl in the family home in Baltimore, much to the chagrin of the boys straight laced mother. At home behind closed doors, the boys carry on in secret the affair they started in Carolina. At their sister's wedding reception both of the brothers propose to the girl with the one she does not choose agreeing to drop out of the picture. The issue unresolved as ever, the affair otherwise continues in secret at the family house. The years roll on, Melissa marries out of necessity, but which one did she choose?
