rose from keeping up appearances: *Rose Macaulay, Gender, and Modernity* Kate Macdonald, 2017-07-20 This book is the first collection on the British author Rose Macaulay (1881-1958). The essays establish connections in her work between modernism and the middlebrow, show Macaulay's attentiveness to reformulating contemporary depictions of gender in her fiction, and explore how her writing transcended and celebrated the characteristics of genre, reflecting Macaulay's responses to modernity. The book's focus moves from the interiorized self and the psyche's relations with the body, to gender identity, to the role of women in society, followed by how women, and Macaulay, use language in their strategies for generic self-expression, and the environment in which Macaulay herself and her characters lived and worked. Macaulay was a particularly modern writer, embracing

technology enthusiastically, and the evidence of her treatment of gender and genre reflect Macaulay's responses to modernism, the historical novel, ruins and the relationships of history and structure, ageing, and the narrative of travel. By presenting a wide range of approaches, this book shows how Macaulay's fiction is integral to modern British literature, by its aesthetic concerns, its technical experimentation, her concern for the autonomy of the individual, and for the financial and professional independence of the modern woman. There are manifold connections shown between her writing and contemporary theology, popular culture, the newspaper industry, pacifist thinking, feminist rage, the literature of sophistication, the condition of 'inclusionary' cosmopolitanism, and a haunted post-war understanding of ruin in life and history. This rich and interdisciplinary combination will set a new agenda for international scholarship on Macaulay's works, and reformulate contemporary ideas about gender and genre in twentieth-century British literature.

rose from keeping up appearances: The Rose of Martinique Andrea Stuart, 2007-12-01 The acclaimed biography of Josephine Bonaparte, the Caribbean-born Creole who became the first wife of Napoleon and Empress of France. One of the most remarkable women of the modern era, Josephine Bonaparte was born Rose de Tasher on her family's sugar plantation in Martinique. She embodied all the characteristics of a true Creole—sensuality, vivacity, and willfulness. Rescued from near starvation, she grew to epitomize the wild decadence of post-revolutionary Paris. It was there that Josephine first caught the eye of Napoleon Bonaparte. A true partner to Napoleon, she was equal parts political adviser, hostess par excellence, confidante, and passionate lover. Josephine managed to be in the forefront of every important episode of her era's turbulent history: from the rise of the West Indian slave plantations that bankrolled Europe's rapid economic development, to the decaying of the ancien régime, to the French Revolution itself, from which she barely escaped the guillotine. Using diaries and letters, Andrea Stuart brings her so utterly to life that we finally understand why Napoleon's last word before dying was the name he had given her: Josephine. "A comprehensive and truly empathetic biography. Andrea Stuart, who was raised in the Caribbean, combines scholarly distance with a genuine attempt to understand her heroine." —The Washington Post

Based on detailed research and presenting previously unpublished texts, pictures, and photographs, they are notable feats of scholarly detective work. Six

of them focus on four pivotal members of the Bloomsbury Group – Virginia Woolf, Vanessa Bell, Clive Bell, and Roger Fry. Prominent ingredients of their story include art, writing, friendship, love, sex, mental illness, and Greek travel. The five ‘out of Bloomsbury’ essays are about the ‘new’ letters from the novelist Rose Macaulay to the Irish poet Katharine Tynan; the prodigious teenage talents of Dorothy L. Sayers; the remarkable story of Tolkien’s schoolmaster R. W. Reynolds; and the artist Tristram Hillier in Portugal. The collection creates a richly varied and entertaining picture of British culture in the first half of the twentieth century.

rose from keeping up appearances: *The 1920s* Tamás Béneyi, Shene Boskani, Nick Hubble, 2025-07-24 The particularity of 1920s British fiction has become obscured by an academic focus on modernism. This book takes a fresh approach to the decade by examining both canonical writers such as Virginia Woolf and E. M. Forster as well as less widely-studied writers such as A. A. Milne and Naomi Mitchison. From the aftermath of First World War to the Great Depression of 1929, and its political consequences, the 1920s were a decade marked by radical social change. Internationally, there was an ongoing shift of global power and nationally, Britain was adjusting to the aftermath of First World War, to no longer being the dominant imperial power in the world, and to the introduction of universal male suffrage and votes for women over thirty, which was extended to those over twenty-one in 1928. This volume relates the British fiction of the decade to these contexts in order to reassess and explain trends of the period, such as war books, fantastic romance, literary modernism, and new expressions of gender and sexuality. A major critical re-evaluation of the decade, the book covers such writers as Agatha Christie, E. M. Forster, Ethel Mannin, Somerset Maugham, R. H. Mottram, D. H. Lawrence, Wyndham Lewis, A. A. Milne, Hope Mirrlees, Naomi Mitchison, Dorothy Richardson and Virginia Woolf, among others; illustrating how their key themes and concerns fit within the social and political circumstances of the decade.

rose from keeping up appearances: *Injustice* Danny Dorling, 2015-06-03 In the five years since the first edition of *Injustice* there have been devastating increases in poverty, hunger and destitution in the UK. Globally, the richest 1% have never held a greater share of world wealth, while the share of most of the other 99% has fallen in the last five years, with more and more people in debt, especially the young. Economic inequalities will persist and continue to grow for as long as we tolerate the injustices which underpin them. This fully rewritten and updated edition revisits Dorling’s claim that Beveridge’s five social evils are being replaced by five new tenets of injustice: elitism is efficient; exclusion is necessary; prejudice is natural; greed is good and despair is inevitable. By showing these beliefs are unfounded, Dorling offers hope of a more equal society. We are living in the most remarkable and dangerous times. With every year that passes it is more evident that *Injustice* is essential reading for anyone concerned with social justice and wants to do something about it.

rose from keeping up appearances: Keeping Up Appearances Rose Macaulay, 1928 Daisy and Daphne, half-sisters, are staying with a family of English 'intelligentsia' on holiday in the Mediterranean. Daisy - shy, insecure and working-class - conceals her 'shameful' work as an author of 'women's fiction' and a journalist with a popular newspaper. Daphne - attractive, confident and sophisticated - is approved of by all, and she and Raymond, the elder son, fall in love (as does Daisy with him). Back in London, the sisters resume normal life, Daisy visiting her 'common' but loving family and Daphne seeing Raymond, who proposes marriage, and is accepted - on condition the engagement is kept secret, to Raymond's consternation. As tension mounts, the author reveals that Daphne and Daisy are actually different facets of one person, and that Raymond, in accepting the sophisticated Daphne, will have to accept Daisy's lesser qualities as well. Daisy/Daphne feels she cannot afford to divulge her origins or let him and his cultured family meet her brash, 'common' mother, and agonises over this. But her determined mother decides to see her daughter's betrothed for herself, and the truth is out. Raymond rather likes mother, but his beloved's prevarications and duplicity have somewhat cooled his passion; will the engagement triumph, or, if not, who will end it?

rose from keeping up appearances: Modernism on Fleet Street Patrick Collier, 2016-12-05 British modernism came of age at a time of great cultural anxiety about the state of journalism. The new newspapers, with their brief, flashy articles, striking visuals, hyperbolic headlines, and sensational news, stood at the center of debates about reading in the period, seeming to threaten the viability of representative democracy, the health and vitality of the language, and the very future of literature itself. Patrick Collier's study brings an impressive array of archival research to his exploration of modernism's relationship to the newspaper press. People who sought to make their way as writers could neither remain neutral on this issue nor abandon journalism, which offered an irreplaceable source of income and self-advertisement. Collier discusses five modern writers-T. S. Eliot, James Joyce, Virginia Woolf, Rebecca West, and Rose Macaulay-showing how their work takes

part in contemporary debates about journalism and examining the role journalism played in establishing their careers. In doing so, he uncovers tensions and contradictions inherent in the identity of the 'serious artist' who relied on the ephemeral forms of journalism for money and reputation.

rose from keeping up appearances: The Journalist in British Fiction and Film Sarah Lonsdale, 2016-07-14 Why did Edwardian novelists portray journalists as swashbuckling, truth-seeking super-heroes whereas post-WW2 depictions present the journalist as alienated outsider? Why are contemporary fictional journalists often deranged, murderous or intensely vulnerable? As newspaper journalism faces the double crisis of a lack of trust post-Leveson, and a lack of influence in the fragmented internet age, how do cultural producers view journalists and their role in society today? In The Journalist in British Fiction and Film Sarah Lonsdale traces the ways in which journalists and newspapers have been depicted in fiction, theatre and film from the dawn of the mass popular press to the present day. The book asks first how journalists were represented in various distinct periods of the 20th century and then attempts to explain why these representations vary so widely. This is a history of the British press, told not by historians and sociologists, but by writers and directors as well as journalists themselves. In uncovering dozens of forgotten fictions, Sarah Lonsdale explores the bare-knuckled literary combat conducted by writers contesting the disputed boundaries between literature and journalism. Within these texts and films there is perhaps also a clue as to how the best aspects of 'Fourth estate' journalism can survive in the digital age. Authors covered in the volume include: Martin Amis, Graham Greene, George Orwell, Pat Barker, Evelyn Waugh, Elizabeth Bowen, Arnold Wesker and Rudyard Kipling. Television and films covered include *House of Cards* (US and UK versions), *Spotlight*, *Defence of the Realm*, *Secret State* and *State of Play*.
