This detailed review explores the key concepts, practical tools, strengths, and potential limitations of

The Coaching Habit, providing a comprehensive understanding for those considering implementing its strategies.

Overview of the Book's Core Philosophy

The Coaching Habit emphasizes that effective coaching is less about formal sessions and more about integrating coaching principles into daily interactions. The central idea is that by asking the right questions, leaders can empower their teams, improve engagement, and foster a culture of continuous learning.

Michael Bungay Stanier advocates for a shift from giving advice to asking insightful questions—moving from a "know-it-all" mindset to a "learn-it-all" approach. The book underscores that most leaders already possess the skills necessary for coaching but often lack the structured approach or confidence to utilize them consistently.

Key Principles and Frameworks

The Seven Essential Questions

At the heart of the book lies a simple yet powerful framework: seven questions designed to facilitate coaching conversations that are focused, impactful, and easy to incorporate into daily routines.

1. The Kickstart Question: "What's on your mind?"
 - Opens the conversation and encourages openness without overloading the other person.
2. The AWE Question: "And what else?"
 - Promotes deeper reflection and prevents premature conclusions.
3. The Focus Question: "What's the real challenge for you here?"
 - Helps identify the core issue amidst surface-level concerns.
4. The Foundation Question: "What do you want?"
 - Clarifies goals and desired outcomes.
5. The Lazy Question: "How can I help?"
 - Offers support without overstepping boundaries or making assumptions.
6. The Strategic Question: "If you're saying yes to this, what are you saying no to?"
 - Encourages prioritization and mindful decision-making.
7. The Learning Question: "What was most useful for you?"
 - Reinforces learning and reflection after the conversation.

The Habit Formation

Bungay Stanier emphasizes that these questions should be practiced consistently to become natural. The goal is to develop a new habit where coaching conversations happen effortlessly, almost automatically, leading to sustained behavior change and improved leadership effectiveness.

Deep Dive into Each Question

1. The Kickstart Question: "What's on your mind?"

This question sets the tone for the conversation. Instead of jumping into problem-solving or giving advice, it invites the other person to share what's most pressing. It encourages openness and signals genuine interest.

Benefits:

- Quickly surfaces important issues.
- Builds trust and rapport.
- Avoids assumptions about what the other person needs.

2. The AWE Question: "And what else?"

This follow-up encourages continued reflection. Often, the first thing someone shares is just the tip of the iceberg. Asking "And what else?" helps uncover underlying concerns or additional issues that might be more critical.

Benefits:

- Prevents superficial conversations.
- Fosters deeper understanding.
- Shows curiosity and active listening.

3. The Focus Question: "What's the real challenge for you here?"

This question helps cut through distractions and surface-level problems to identify the core issue. It's especially useful when conversations veer into tangential topics.

Benefits:

- Clarifies priorities.
- Ensures that coaching efforts address the most impactful challenge.
- Saves time and energy in problem-solving.

4. The Foundation Question: "What do you want?"

By asking this, leaders help individuals articulate their goals or desired outcomes clearly. It shifts the conversation from problem analysis to solution-focused thinking.

Benefits:

- Empowers ownership over solutions.

- Clarifies expectations.
- Guides subsequent actions.

5. The Lazy Question: “How can I help?”

This question demonstrates support without dictating solutions. It invites the coachee to specify what kind of assistance they need, fostering independence.

Benefits:

- Avoids unnecessary advice.
- Encourages self-reliance.
- Builds trust through humility.

6. The Strategic Question: “If you’re saying yes to this, what are you saying no to?”

Decision-making often involves trade-offs. This question prompts reflection on commitments and priorities, helping prevent burnout or overextension.

Benefits:

- Promotes mindful commitments.
- Encourages strategic thinking.
- Ensures alignment with broader goals.

7. The Learning Question: “What was most useful for you?”

Post-conversation, this question consolidates learning and reinforces the coaching habit. It encourages reflection on what was gained, which promotes continuous improvement.

Benefits:

- Reinforces positive behaviors.
- Identifies effective coaching techniques.
- Fosters a growth mindset.

the coaching habit book: The Coaching Habit Michael Bungay Stanier, 2019-05-01 Se quer que os outros deem resposta, comece a fazer as perguntas certas. Ao longo de décadas a treinar gestores (e foram mais de dez mil), Michael Bungay Stanier percebeu que a maior parte deles tinha formação de coaching, mas poucos a aplicavam. Ou seja, os decisores falam muito, mas perguntam pouco. E desperdiçam assim o imenso potencial (e feedback) dos colaboradores. Sobrecarregam-se de trabalho e criam à sua volta um ambiente de hiperdependência em vez de levarem a equipa a pensar por si mesma e a dar resposta aos problemas. Ciente disso, Michael criou um sistema de sete perguntas e um modelo, baseado em pesquisas no campo da neurociência e da economia comportamental, que permite integrar o coaching no dia a dia: The Coaching Habit. São exercícios práticos para criar o hábito de fazer as perguntas essenciais, na hora certa. Assim que dominar a técnica, pode pô-la em prática com clientes, colaboradores ou até com os filhos lá em casa.

the coaching habit book: The Coaching Habit Martinez Thomas, 2021-12-10 I'm sure everyone wonders at a certain point in their life that what is the thing that is stopping them from reaching their goals. It is your bad and unhealthy habits that hold you down. If you want to succeed in life, you need to get rid of these habits and adopt healthy habits to help you in the long run. When did you get up today? What was your day like? What did you achieve today? Did any of that matter? Maybe it didn't because you don't have any dreams to work towards, or maybe that you've forgotten what they are altogether. To have a dream is to have a direction in life. To have a dream means you have something bigger than yourself that you want to achieve. Success comes to people who deserve it. I bet you have heard this statement quite a few times, right? So, what does it mean exactly? Does it mean that you are either born worthy or unworthy of success? Absolutely not. Everyone is born worthy, but the one thing that makes some people successful is their winning habits and their commitment to these habits.
