ben 10 kevin 11: Soundtracks of Asian America Grace Wang, 2015-02-15 In Soundtracks of Asian America, Grace Wang explores how Asian Americans use music to construct narratives of self, race, class, and belonging in national and transnational spaces. She highlights how they navigate racialization in different genres by considering the experiences of Asians and Asian Americans in Western classical music, U.S. popular music, and Mandopop (Mandarin-language popular music). Her study encompasses the perceptions and motivations of middle-class Chinese and Korean immigrant parents intensely involved in their children's classical music training, and of Asian and Asian American classical musicians whose prominence in their chosen profession is celebrated by some and undermined by others. Wang interviews young Asian American singer-songwriters who use YouTube to contest the limitations of a racialized U.S. media landscape, and she investigates the transnational modes of belonging forged by Asian American pop stars pursuing recording contracts and fame in East Asia. Foregrounding musical spaces where Asian Americans are particularly visible, Wang examines how race matters and operates in the practices and institutions of music making.

ben 10 kevin 11: *Exile and Restoration in Jewish Thought* Ralph Keen, 2009-09-24 Exile and

Restoration in Jewish Thought presents the history of an idea originating at the intersection of Judaic piety and the social history of the Jews: faith in a protective sovereign deity amid contrary conditions. Exiled primordially (Eden), during the Patriarchal era, in the sixth century bce, and from the first century to the twentieth, the Jewish experience of alienation has been the historical backdrop against which affirmations of divine benevolence have been constructed. While histories of Jewish thought have tended to accentuate the speculative creativity of medieval and modern Jewish philosophers, the intellectual tradition can come into focus only with attention to these thinkers' understanding of diaspora and persecution. Ralph Keen describes the distinguishing feature of Jewish thought as a religious hermeneutic in which the primitive promise made to Abraham is preserved not just as a pious memory but as a certain hope for eventual restoration. Intended for readers with some familiarity with the history of philosophy, this book offers the historical context necessary for understanding the distinctively Judaic character of this tradition of thought, and elucidates the role of religious experience in the long process of negotiating between adversity and expectation.

ben 10 kevin 11: *Bondi Beach* Douglas Booth, 2021-09-29 Bondi Beach is a history of an iconic place. It is a big history of geological origins, management by Aboriginal people, environmental despoliation by white Australians, and the formation of beach cultures. It is also a local history of the name Bondi, the origins of the Big Rock at Ben Buckler, the motives of early land holders, the tragedy known as Black Sunday, the hostilities between lifesavers and surfers, and the hullabaloo around the Pavilion. Pointing to a myriad of representations, author Douglas Booth shows that there is little agreement about the meaning of Bondi. Booth resolves these representations with a fresh narrative that presents the beach's perspective of a place under siege. Booth's creative narrative conveys important lessons about our engagement with the physical world.
