**creedence clearwater revival the best of creedence clearwater revival: Creedence Clearwater Revival** Tony Thompson, 2025-08-08 Creedence Clearwater Revival were a San Francisco band of the 1960s that had nothing to do with Human Be Ins, Timothy Leary, or the Summer of Love. They were, for a time, the most popular band in the US but never scored a number one hit. They were headliners at Woodstock but didn't appear in the film or on the soundtrack LP. They shared a radical 'back to basics' sensibility with The Band but were not embraced by the emerging rock press with anywhere near the same enthusiasm. While the punks were hunting dinosaur bands to extinction in 1977, Richard Hell covered one of their songs on his debut album. In the 1980s, as their songs became staples of 'classic rock' radio, they were revered by underground bands like The Gun Club, The Minutemen and The Scientists. As Butch said to Sundance, 'Who are those guys?' In this book, a track-by-track analysis of all the band's recorded output, Tony Thompson rolls up the sleeves on his plaid shirt and prepares to answer the big questions. Who's Jody? What is chooglin'? Where is Green River? Why can't the singer leave Lodi? Who was the fortunate son? Is the bathroom on the right? Tony Thompson is a Canadian writer based in Melbourne, Australia. He is the author of The Doors on track (Sonicbond 2021), Summer of Monsters (Walker Books 2014), and Shakespeare: The Most Famous Man in London (Black Dog Books 2009). His articles on books, music and education have appeared in The Age, The Australian, The Daily Review Australia, toppermost.co.uk and Eureka Street. He is a well-regarded speaker and has been a regular guest at the Melbourne Writers Festival and other literary events throughout Australia. He plays blues harmonica with great enthusiasm.

**creedence clearwater revival the best of creedence clearwater revival: Songs of the Vietnam Conflict** James E. Perone, 2001-08-30 Offering the widest scope of any study of one of popular music's most important eras, Songs of the Vietnam Conflict treats both anti-war and

pro-government songs of the 1960s and early 1970s, from widely known selections such as Give Peace a Chance and Blowin' in the Wind to a variety of more obscure works. These are songs that permeated the culture, through both recordings and performances at political gatherings and concerts alike, and James Perone explores the complex relationship between music and the society in which it is written. This music is not merely an indicator of the development of the American popular song; it both reflected and shaped the attitudes of all who were exposed to it. Whereas in previous wars, musicians rallied behind the government in the way of Aaron Copland and Samuel Barber, the Vietnam conflict provoked anger, frustration, and rage, all of which comes through in the songs of the time. This reference work provides indispensable coverage of this phenomenon, in chapters devoted to Anti-War Songs, Pro-Government Songs, and what might be called Plight-of-the-Soldier (or Veteran) songs. A selected discography guides the reader to the most notable recordings, all of which, together, provide a unique and important perspective on perhaps the 20th century's most contentious time.
