daisy styles books in order: *Literature in the Age of Lingua Franca English* Justin Quinn, 2024-12-30 The English language is now a lingua franca spoken by about two billion people. This insightful study considers how a bridge language affects world literature by analyzing what it is, how it works, what are its themes, what it means for canons, and how it is mediated. Cultural criticism often employs perspectives of race, citizenship, and colonialism, as well as considerations of scale (archipelagic, planetary), form (analogies between the literary and the social), and technologies (as they inflect artifacts). These approaches help rethink the new dynamics of anglophone literature, but they have often overlooked one of the basic elements of literature – the language itself. Literatures in English vernaculars have flourished, and Justin Quinn shows that writers are also creating a new idiom in English that is not fixed to a particular locale or community. While sentences may become simpler, the vocabulary range narrower, and rich cultural references lost, Quinn reveals how much this new form of writing gains. He explores the work of a wide range of authors, including Daisy Hildyard, Kim Stanley Robinson, Bryan Washington, Yiyun Li, and Terrance Hayes. *Literature in the Age of Lingua Franca English: The Zero Style* is an innovative and illuminating resource for students and scholars of global anglophone literature, comparative literature, and cultural studies.
