

goffman's presentation of self

Goffman's Presentation of Self

Erving Goffman's concept of the presentation of self is a foundational theory in sociology and social psychology that explores how individuals perform roles in everyday interactions to shape others' perceptions of them. Drawing from his seminal work *The Presentation of Self in Everyday Life*, Goffman posits that social life is akin to a theatrical performance, where individuals are actors on a stage, carefully managing their impressions to maintain social harmony and achieve desired outcomes. This theory underscores the importance of impression management, front-stage and back-stage behaviors, and the various strategies people employ in their daily encounters to construct and convey their identities.

Understanding Goffman's Presentation of Self

Goffman's presentation of self revolves around the idea that identity is not a static trait but a dynamic construct shaped through social interactions. Individuals actively curate their behavior, appearance, and speech to influence how others perceive them. This process involves conscious and subconscious efforts to present oneself in a favorable light, aligning with societal expectations and personal goals.

Key Concepts

The Dramaturgical Model

Goffman employs theatrical metaphors to describe social interaction:

- Front Stage: The public arena where individuals perform roles, following social scripts to shape impressions.
- Back Stage: The private area where individuals can relax, drop their masks, and prepare for their performances.
- Performers: The individuals engaging in impression management.
- Audience: Others present during interactions who interpret and respond to performances.

This model emphasizes that our social identities are performances tailored to different audiences and contexts.

Impression Management

Impression management is the process by which individuals attempt to control the perceptions others form about them. It involves:

- Conscious strategies: Choosing specific words, gestures, and appearances.
- Unconscious cues: Non-verbal signals like posture, facial expressions, and tone of voice.
- Consistency: Ensuring that all elements of the performance align to reinforce a particular image.

The goal is to present oneself in a manner that is socially acceptable, credible, or desirable.

Roles and Scripts

People adopt various roles in social settings, each with associated scripts or expected behaviors. These roles help individuals navigate complex social landscapes by providing guidelines for appropriate conduct.

Components of the Self in Goffman's Theory

Goffman distinguishes between different facets of the self as expressed through social performances:

The Authentic Self

While Goffman emphasizes performances, he acknowledges an underlying sense of self that influences these acts. However, he suggests that much of social life involves constructing identities that may differ from one's true self.

The Presented Self

This is the version of oneself that is actively displayed to others during social interactions. It is crafted through impression management to meet specific social objectives.

The Ideal Self

The ideal self represents the person one aspires to be, often reflected in the roles one wishes to embody or the qualities one hopes to project.

Strategies for Effective Self-Presentation

Individuals employ various tactics to manage impressions and perform roles effectively. Some of these include:

1. **Use of Personal Appearance:** Clothing, grooming, and physical features are carefully chosen to convey specific images, such as professionalism, approachability, or authority.
2. **Verbal Communication:** Words, tone of voice, and language style are tailored to suit the context and audience.
3. **Non-verbal Cues:** Gestures, facial expressions, eye contact, and posture reinforce the intended impression.
4. **Setting and Props:** Environment and objects (like uniforms, accessories, or decor) support the performance.
5. **Interactions and Responses:** Adjusting behavior based on feedback or the reactions of others to maintain the desired image.

Managing Front Stage and Back Stage

- Front Stage: Individuals actively perform roles, adhering to social norms and expectations.
- Back Stage: People relax, reflect, and sometimes prepare for upcoming performances, often revealing their true feelings or thoughts.

Managing Inconsistent Impressions

When faced with conflicting signals or potential errors in impression management, individuals may:

- Cover up mistakes through excuses or explanations.
- Adjust their performance to align better with audience expectations.
- Seek support from others to reinforce their desired image.

Implications of Goffman's Presentation of Self

Goffman's insights have broad implications across various domains:

In Social Interactions

- Understanding how people manipulate their behavior to fit social roles helps explain everyday social dynamics.
- Recognizes the performative nature of identity, highlighting that personal authenticity may be secondary to social acceptance.

In Organizational Settings

- Employees craft professional identities through dress, language, and behavior.
- Organizations shape employee performances through codes of conduct and corporate culture.

In Media and Technology

- Social media amplifies impression management, as individuals curate online profiles to project desirable images.
- Digital performances often blur the lines between front stage and back stage.

In Psychology and Self-Concept

- Challenges notions of a fixed, authentic self.
- Encourages awareness of how social contexts influence self-perception and behavior.

Critiques and Limitations of Goffman's Theory

While influential, Goffman's presentation of self is not without criticism:

- Overemphasis on Performance: Critics argue that it underplays genuine aspects of identity and emotional authenticity.
- Neglect of Power Dynamics: The theory focuses on individual strategies without sufficiently addressing structural inequalities or coercion.
- Limited Consideration of Internal Self: The focus on external presentation may overlook internal psychological processes.

Despite these critiques, Goffman's work remains a vital lens for understanding social behavior.

Conclusion

Goffman's presentation of self offers a compelling framework for understanding how individuals navigate social worlds through performances and impression management. By conceptualizing social interactions as theatrical acts, it reveals the fluidity and constructed nature of identity. Recognizing these performances enables individuals to become more aware of how their behaviors influence others and how social roles shape personal identities. Whether in everyday conversations, professional settings, or online interactions, Goffman's insights continue to illuminate the intricate dance

of human social life.

Frequently Asked Questions

What is Erving Goffman's main concept in 'The Presentation of Self in Everyday Life'?

Goffman's main concept is that social interactions are like a theatrical performance, where individuals perform roles to shape how others perceive them.

How does Goffman describe 'front stage' and 'back stage' behaviors?

Goffman distinguishes 'front stage' as the public persona or performance presented to others, while 'back stage' is where individuals relax and prepare away from the audience.

What role do 'impression management' and 'masks' play in Goffman's theory?

Impression management involves controlling one's behavior to influence others' perceptions, often using 'masks' or personas to present a desired image.

How does Goffman explain the concept of 'face' in social interactions?

Goffman describes 'face' as the positive social value a person claims during interactions, which individuals work to preserve through their performances.

In what ways has Goffman's presentation of self influenced modern social media behavior?

Goffman's ideas underpin how people curate their online personas, engaging in impression management to present idealized selves on social media platforms.

What is the significance of 'performance teams' in Goffman's theory?

Performance teams are groups that collaborate to maintain a consistent presentation of self, especially in settings like workplaces or social gatherings.

How does Goffman's theory address authenticity in social interactions?

Goffman suggests that performances are often strategic and crafted, raising questions about genuine authenticity versus constructed images.

What criticisms have been made of Goffman's presentation of self?

Critics argue that Goffman's focus on performance may overlook the importance of genuine self-expression and internal motivations in social behavior.

How can understanding Goffman's presentation of self help in navigating social situations today?

It helps individuals become aware of how they present themselves and interpret others' performances, leading to more conscious and authentic interactions.

Additional Resources

Goffman's Presentation of Self is a foundational concept in sociology and social psychology that offers a nuanced understanding of human interaction and identity. Developed by Erving Goffman in his seminal work *The Presentation of Self in Everyday Life* (1959), this theory explores the ways individuals perform roles in social contexts, akin to actors on a stage. Goffman's insights have profoundly influenced how scholars interpret social behavior, impression management, and the construction of identity. This article provides an in-depth analysis of Goffman's presentation of self, breaking down its core ideas, features, strengths, and limitations to offer a comprehensive understanding of this influential sociological framework.

Introduction to Goffman's Presentation of Self

What is the Presentation of Self?

At its core, Goffman's presentation of self posits that individuals are not merely expressing their true selves but are instead actively engaged in

performing roles to shape how others perceive them. These performances are tailored to fit social contexts, norms, and expectations, enabling individuals to project desired images and manage impressions. The self, therefore, is seen as a socially constructed phenomenon rather than a fixed, innate essence.

The Stage Analogy

Goffman famously likens social interactions to theatrical performances. In this analogy:

- The stage is the social environment where interactions occur.
- Actors are individuals who perform roles.
- The script involves societal norms, expectations, and personal motives.
- Props are objects, clothing, or symbols used to reinforce the performance.
- The audience is other individuals observing and interpreting the performance.

This theatrical metaphor illustrates that much of human behavior is strategic and intentional, aimed at managing how others perceive us.

Core Concepts of Goffman's Theory

Impression Management

Impression management is central to Goffman's framework. It refers to the conscious or unconscious efforts individuals make to influence others' perceptions of themselves. People select specific "props," adopt certain "roles," and control their "performance" to create a favorable impression.

Features of impression management:

- Front Stage and Back Stage: People perform differently depending on the setting.
- Face-work: Strategies used to maintain one's dignity and avoid embarrassment.
- Setting and Personal Appearance: Elements used to support the desired image.
- Manner and Speech: Verbal and non-verbal cues that convey particular impressions.

Front Stage and Back Stage

Goffman distinguishes between:

- Front Stage: Public settings where individuals perform roles for an audience.
- Back Stage: Private settings where individuals relax and can be themselves without performing.

This distinction underscores that social roles are often performed differently depending on context, and individuals may have multiple "selves" depending on the audience.

Roles and Roles Performance

People adopt specific roles based on social expectations—such as being a student, teacher, or friend—and perform these roles through behaviors, language, and appearance. Role performance is strategic, aiming to present oneself in ways that align with societal norms and personal goals.

The Notion of "Face"

Goffman introduces the concept of "face" as the positive social value a person claims for themselves during interactions. Maintaining face involves strategies to uphold dignity and avoid social embarrassment. Losing face can damage one's social standing and requires corrective actions or "face-work."

Features and Components of the Presentation of Self

Self as a Performance

Goffman's view challenges the idea of a singular, authentic self. Instead, the self is a continuous performance shaped by social contexts and interactions. The self is fluid, adaptable, and composed of multiple performances.

Techniques of Impression Management

Individuals employ various techniques to craft their desired image:

- Selective presentation: Highlighting certain traits while hiding others.
- Conforming to norms: Demonstrating behaviors aligned with social expectations.
- Using props: Clothing, accessories, or symbols to reinforce identity.
- Controlling speech and mannerisms: Tone, gestures, and language choices.

Audience and Audience Effects

The behavior and performance are often tailored based on the audience present. For example, one may act more formally in a professional setting and more casually among friends. Audience effects influence the content and style of performances.

Role of Setting and Props

The physical environment and objects used in interactions serve as cues to support the desired image. For instance, a well-decorated office signals professionalism, while casual attire indicates informality.

Strengths of Goffman's Presentation of Self

- Holistic View of Social Interaction: Goffman's analogy captures the complexity of daily social performances and the strategic nature of human behavior.
- Emphasizes Agency: Individuals are seen as active agents managing impressions rather than passive recipients of social labels.
- Applicability Across Contexts: The framework applies to various settings, including workplaces, social media, and everyday encounters.
- Insight into Power Dynamics: The concept of face and face-work highlights how social power and status influence interactions.

Limitations and Critiques

While influential, Goffman's presentation of self also faces critiques:

- Overemphasis on Performance: Some argue it underestimates genuine self-expression and internal authenticity.
- Neglects Structural Factors: The theory focuses on individual agency but pays less attention to broader social structures and inequalities.
- Cultural Variability: The theatrical analogy may not fully capture cultural differences in self-presentation.
- Potential for Manipulation: Excessive focus on impression management might promote superficiality or deception.

Practical Applications

In Sociology and Psychology

Goffman's concepts help analyze social roles, stigma, and identity formation. They are useful in understanding phenomena like:

- Social media persona management
- Professional and personal boundary setting
- Dealing with stigma and social exclusion

In Business and Marketing

Brands and public figures craft their images through strategic presentation, echoing Goffman's ideas about impression management.

In Daily Life

Awareness of performance strategies enhances social skills and self-awareness, aiding individuals in navigating complex social environments.

Conclusion

Goffman's presentation of self remains a powerful lens through which to understand human behavior in social contexts. By framing social interaction as performances on a stage, Goffman highlights the strategic, impression-driven nature of human conduct. While some critiques point to its limitations in accounting for authenticity and structural influences, the theory's insights into role-playing, impression management, and the fluidity of identity continue to resonate. Whether in personal relationships, professional environments, or digital spaces, Goffman's concepts provide valuable tools for analyzing how we present ourselves and interpret others in the ongoing social theater.

Key Takeaways:

- Human identities are performative and context-dependent.
- Impression management is a deliberate process used to influence perceptions.
- The distinction between front stage and back stage helps explain behavioral variations.
- The self is fluid, constructed through continuous social performances.
- Awareness of these dynamics can improve social interactions and self-presentation strategies.

Goffman's presentation of self offers a compelling framework that emphasizes the performative, strategic nature of social life, encouraging us to reflect on how much of our identity is shaped by the roles we choose to enact and the impressions we seek to leave behind.

Goffman's Presentation Of Self

goffman's presentation of self: Goffman's Legacy A. Javier Treviño, 2003 Erving Goffman (1922-82) was arguably one of the most influential American sociologists of the twentieth century. A keen observer of the interaction order of everyday life, Goffman's books, which have sold in the hundreds of thousands, continue to be widely read and his concepts have permanently entered the sociology lexicon. This volume consists of ten original essays, all written by prominent Goffman scholars, that critically assess Goffman's many contributions to various areas of study, including functionalism, social psychology, ethnomethodology, and feminist theory.

goffman's presentation of self: Handbook of Symbolic Interactionism Larry T. Reynolds, Nancy J. Herman-Kinney, 2003 Symbolic interactionism has a long history in sociology, social psychology, and related social sciences. In this volume, the editors and contributors explain its history, major theoretical tenets and concepts, methods of doing symbolic interactionist work, and its uses and findings in a host of substantive research areas.

goffman's presentation of self: Analysing Identities in Discourse Rosana Dolón, Júlia Todolí,

2008 The discursive construction of identity is often under the control of the dominant forces in society and frequently results in forms of manipulation and abuse. This awareness led to the celebration of the First International Conference on CDA (València 2004), where over three-hundred academics working in the field of Critical Discourse Analysis became actively engaged in this important issue. The seven studies included in this volume have been selected as representative of those areas of human experience that have been given most intellectual attention and considered to be in fact in need for critical unravelling. Ethnic categorization in multicultural classrooms, patriotic discourse construction in Chinese readers, the denial of Palestinian identity in schoolbooks, the diverse constructions of European identities, Arabs constructing themselves on the worldwide web, identity construction in sexual assault trials, the representations of a dangerous 'other' in cases of PLWHAs, are the contextual perspectives embraced in this book to account for forms of power abuse in the discursive construction of identities.

goffman s presentation of self: A Beginner's Guide to Social Theory Shaun Best, 2003-02-24 Offering a comprehensive overview of social theory from classical sociology to the present day, this text guides students through the work of Durkheim, Marx and Weber, feminism, postmodernism and contemporary thinkers like Foucault.

goffman s presentation of self: P.S. I'm Single Lily A. Arasaratnam, 2011 This book offers a welcome alternative to anyone who is looking for something different from the generic brand of books on singleness. Based on the personal and professional perspectives of five single persons ranging in age from late 20s to mid 50s, this book discusses the subject of singleness from Biblical, theological, pastoral, and socio-economical perspectives. With astute wit and lived realism, the authors explore the hard questions about being a single person in today's society and offer a refreshing new view on the single experience.

goffman s presentation of self: Advances in Experimental Social Psychology , 1991-09-25 Advances in Experimental Social Psychology

goffman s presentation of self: Making Sense of Everyday Life Susie Scott, 2013-08-27 This accessible, introductory text explains the importance of studying 'everyday life' in the social sciences. Susie Scott examines such varied topics as leisure, eating and drinking, the idea of home, and time and schedules in order to show how societies are created and reproduced by the apparently mundane 'micro' level practices of everyday life. Each chapter is organized around three main themes: 'rituals and routines', 'social order', and 'challenging the taken-for-granted', with intriguing examples and illustrations. Theoretical approaches from ethnomethodology, Symbolic Interactionism and social psychology are introduced and applied to real-life situations, and there is clear emphasis on empirical research findings throughout. Social order depends on individuals following norms and rules which are so familiar as to appear natural; yet, as Scott encourages the reader to discover, these are always open to question and investigation. This user-friendly book will appeal to undergraduate students across the social sciences, including the sociology of everyday life, the sociology of emotions, social psychology and cultural studies, and will reveal the fascinating significance our everyday habits hold.

goffman s presentation of self: Leisure and Feminist Theory Betsy Wearing, 1998-12-04 Wide-ranging and challenging, this book offers a host of new insights into how leisure theory has handled the question of gender difference and inequality. Providing a critical introduction to the leading positions in leisure theory, Betsy Wearing guides the reader through their strengths and weaknesses from a feminist perspective. This book draws attention to the various leisure experiences that women encounter and construct in their everyday lives and the meanings that these experiences have for them. Her perspective takes into account such poststructuralist ideas as multiple subjectivities of women and multiple femininities; the possibilities of resistance to male dominance in leisure; the potential through leisure of rewriting masculine and feminine scripts; and leisure as a site of struggle to challenge hegemonic masculinity.

goffman s presentation of self: Exploring Youth Studies in the Age of AI Zaremohzzabieh, Zeinab, Abdullah, Rusli, Ahrari, Seyedal, 2024-07-24 In an era defined by the relentless march of

technology, the seamless integration of Artificial Intelligence (AI) into our daily lives has ushered in a transformative landscape. At the forefront of this evolution are the Digital Natives of Generation AI, navigating the complexities of a digital world where algorithms are integral to their daily experiences. This juncture presents a dual influence, marked by the continuous progression of technological advancements and the dynamic ways the youngest members of our society engage with and adapt to the digital environment. As we stand at the crossroads of youth studies and AI, there arises a pressing need to comprehend the profound impact of this convergence on the future leaders of our world. Addressing this imperative, *Exploring Youth Studies in the Age of AI* emerges as a comprehensive solution to unravel the complexities and opportunities within this evolving landscape. This book, meticulously crafted for academics, researchers, educators, policymakers, and technology ethicists, serves as a guiding beacon in understanding how AI shapes the experiences of today's youth and, in turn, how youth culture influences the development and application of AI technologies. With a collection of enlightening chapters covering topics from Data-Driven Pedagogies to Ethical AI: Guiding Principles for Youth-Centric Development, the book delves deep into the diverse dimensions of this intersection, providing actionable insights and fostering a nuanced understanding for those invested in the ethical, social, and educational implications of AI within the context of youth.

goffman s presentation of self: *The Routledge Handbook of Pragmatics* Anne Barron, Yueguo Gu, Gerard Steen, 2017-01-20 The Routledge Handbook of Pragmatics provides a state-of-the-art overview of the wide breadth of research in pragmatics. An introductory section outlines a brief history, the main issues and key approaches and perspectives in the field, followed by a thought-provoking introductory chapter on interdisciplinarity by Jacob L. Mey. A further thirty-eight chapters cover both traditional and newer areas of pragmatic research, divided into four sections: Methods and modalities Established fields Pragmatics across disciplines Applications of pragmatic research in today's world. With accessible, refreshing descriptions and discussions, and with a look towards future directions, this Handbook is an essential resource for advanced undergraduates, postgraduates and researchers in pragmatics within English language and linguistics and communication studies.

goffman s presentation of self: *A Critical Introduction to Contemporary Social Theory* Piotr Sztompka, 2025-02-24 Examining the core sociological theories that have emerged in the first two decades of the current century, *A Critical Introduction to Contemporary Social Theory* outlines their attempts to answer the most fundamental questions of the discipline, from the nature of social order to the mechanisms of social change. Through a careful exploration of the history of modern social theory, Piotr Sztompka lays the critical groundwork for investigating the development of contemporary social theory from its founding fathers in the 19th century, through the rich contributions of the 20th century, known as the golden age of theory, up to the most recent developments and illuminates how it is both anchored in and a critique of previous attempts to theorize foundational questions to social being and action. Contemporary theory, the book argues, is now moving toward analysis of action, interpersonal relations, social and epistemological realism, and multivalent mechanisms at the root of social phenomenon. Major social theoretical thinkers like Anthony Giddens, Pierre Bourdieu, Jeffrey Alexander, Randall Collins, Jonathan Turner, Hans Joas, Ulrich Beck, Erving Goffman, and others are presented and evaluated as significant contributors to contemporary social theory, while pointing toward future possibilities for social theory in the current century. This will be a key resource for undergraduate and graduate students in sociology, social theory, and contemporary cultural studies.

goffman s presentation of self: *Key Sociological Thinkers* Rob Stones, 2017-09-16 The third edition of this popular and established core textbook provides an invaluable guide to 24 of the most influential thinkers in Sociology. Written by leading academics in the field, *Key Sociological Thinkers* provides a clear and contextualised introduction to classical and contemporary theory. Each chapter offers an insightful assessment of a different theorist, exploring their lives, works and legacies, and in a much-valued 'Seeing Things Differently' section authors demonstrate how each

thinker's ideas can be used to illuminate aspects of social life in new ways. With frameworks for deep learning around group discussion, this continues to be an essential text for undergraduate and postgraduate modules on sociological and social theory. New to this Edition: - Four new chapters, on Mead, Du Bois, Latour and Alexander - Five chapters by new authors on existing key thinkers: Durkheim, Merton, Goffman, Bourdieu, and Giddens - A major new introduction - An updated, structured and annotated 'Further Reading' section for each thinker - Extended accounts of 13 additional thinkers who have influenced, or been influenced by, the key thinkers

goffman s presentation of self: Constructing Clienthood in Social Work and Human Services Christopher Hall, 2003 This volume explores social work as a series of encounters - between clients and social workers, their colleagues and other professionals, and more widely between citizens and the state.

goffman s presentation of self: The Contemporary Goffman Michael Hviid Jacobsen, 2010-01-26 The Contemporary Goffman highlights the continued relevance of Goffman to sociology and related disciplines - to theoretical discussions as well as to substantive empirical research - through contributions dealing with a variety of topics and themes.

goffman s presentation of self: Disruption of Habits During the Pandemic AA: VV:, 2022-09-23T00:00:00+02:00 In the year 2020, what we used to think that our habits have been profoundly disrupted. Lockdown still represents an unprecedented experience for all of those who went through it since it radically affected our freedom of movement and social interaction, that used to make up our everyday lives. Some people believe that once the pandemic ends, nothing will be the same. Others think that once the virus becomes weaker or a vaccine is at our disposal and the fear is diminished, everything will go back to normal because the mechanism of habit is in many ways similar to the mechanisms of nature, reiterating the uniformity of its functioning. Who is right then? Both positions, perhaps. When philosophers addressed the issue of customs, namely collective habits, generally emphasized the caution required when it comes to changing them and if we look back on history... Could pandemics affect shared habits in specific territories as ultimately generated in reaction to other natural risks and/or to their threats?

goffman s presentation of self: Age of Contradiction Howard Brick, 2000 In Age of Contradiction, Howard Brick provides a rich context for understanding historical events, cultural tensions, political figures, artistic works, and trends of intellectual life. His lucid and comprehensive book combines the best methods of historical analysis and assessment with fascinating subject matter to create a three-dimensional portrait of a complicated time. In one of the only books on the 1960s to put ideas at the center of the period's history, Brick carefully explores the dilemmas, the promise, and the legacy of American thought in that time.

goffman s presentation of self: Reimagining Communication in a Post-pandemic World: The Intersection of Information, Media Technology, and Psychology Runxi Zeng, Hichang Cho, Richard David Evans, Anfan Chen, 2023-04-05 The COVID-19 pandemic has dramatically changed social interactions. Social distancing policies, lockdowns, and mandatory quarantines have accelerated the technological mediation of communication (e.g. AI-mediated communication, computer-mediated communication) on an unprecedented scale, willingly or otherwise. Many physical activities such as office work, education, and conferences have had to be performed in the online space through social media apps, the metaverse or specialized programs on mobile phones or laptops as part of pandemic control efforts. As a result, digitally mediated channels have become critical for information acquisition and communication across a wide spectrum of human activities such as education, social interaction, entertainment, and commercial activities. Human beings are increasingly reliant on non-human agents, including social media, Artificial Intelligence (AI) powered tools, or smartphone mobile devices for most routine activities, professional communication, and social interactions. As scientific understanding of COVID-19 improves, pandemic restrictions are gradually loosening. However, it remains to be seen whether the pandemic communication paradigm characterized by heavy technological mediation and reliance on non-human agents will also gradually decline, or will the paradigm shift become deeply entrenched with further acceleration of dependency on

technological mediation and non-human agents.

goffman s presentation of self: The ^AOxford Handbook of Moral Development Lene Arnett Jensen, 2020-01-24 Drawing together the work of over 90 authors, hailing from diverse disciplines such as anthropology, education, human development, psychology and sociology, this handbook reflects the dynamic and interdisciplinary nature of the field of moral development. Across more than 40 chapters, this handbook opens the door to a broad view of moral motives and behaviors, ontogeny and developmental pathways, and contexts that children, adolescents, and adults experience with respect to morality. It offers a comprehensive and timely tour of the field.

goffman s presentation of self: Framing Social Interaction Anders Persson, 2018-07-20 The Open Access version of this book, available at <http://www.taylorfrancis.com/books/e/9781315582931>, has been made available under a Creative Commons Attribution-NonCommercial-No Derivatives 4.0 license. This book is about Erving Goffman's frame analysis as it, on the one hand, was presented in his 1974 book *Frame Analysis* and, on the other, was actually conducted in a number of preceding substantial analyses of different aspects of social interaction such as face-work, impression management, fun in games, behavior in public places and stigmatization. There was, in other words, a frame analytic continuity in Goffman's work. In an article published after his death in 1982, Goffman also maintained that he throughout his career had been studying the same object: the interaction order. In this book, the author states that Goffman also applied an overarching perspective on social interaction: the dynamic relation between ritualization, vulnerability and working consensus. However, there were also cracks in Goffman's work and one is shown here with reference to the leading question in *Frame Analysis* – what is it that's going on here? While framed on a microsocial level, that question ties in with the interaction order and frame analysis as a method. If, however, it is framed on a societal level, it mirrors metareflective and metasocial manifestations of changes and unrest in the interaction order that, in some ways, herald the emphasis on contingency, uncertainty and risk in later sociology. Through analyses of social media as a possible new interaction order – where frame disputes are frequent – and of interactional power, the applicability of Goffman's frame analysis is illustrated. As such, this book will appeal to scholars and students of social theory, classical sociology and social interaction.

goffman s presentation of self: Proceedings of the 2nd International Conference on Humanities, Wisdom Education and Service Management (HWESM 2023) Intakhab Alam Khan, Ganesan Ramaswamy, Zaharah Binti Hussin, 2023-07-18 This is an open access book. The 2nd International Conference on Humanities, Wisdom Education and Service Management (HWESM 2023) will be held in Shanghai, China from March 10 to 12, 2023. The purpose of the conference is to provide an international platform for experts, scholars, engineers and technicians, and technical R&D personnel engaged in related fields such as humanities, wisdom education and service management, to share scientific research results, broaden research ideas, collide with new ideas, and strengthen academic research, and to explore the key challenges and research directions faced by the development of this field, and promote the industrialization cooperation of academic achievements. Experts, scholars, business people and other relevant personnel from universities and research institutions at home and abroad are cordially invited to attend and exchange.
