Straight away it provided a cure for that constant feeling of 'something wrong, something not quite right', a way of numbing anxiety and childhood trauma. He realised he was extraordinarily good at drinking and energetically threw himself into a life of pubs, parties and staying pissed, while also managing to become a comedian. But alcohol had the last laugh ... *A Portrait of the Piss Artist as a Young Man* shows us the often-hilarious lengths of self-deception an alcoholic will go to, the horrific consequences of addiction and the redemptive process of recovering from this deadly but ultimately treatable illness, and remaining sober. A deeply touching memoir and with a side of self-help, Tadhg's easy-going writing style belies his serious message - that each of us has the power to change our lives.

knock knock jokes for adults uk: *Essential Library of Congress Subject Headings* Vanda Broughton, 2011-11-20 Library of Congress Subject Headings (LCSH) are increasingly seen as 'the' English language controlled vocabulary, despite their lack of a theoretical foundation, and their evident US bias. In mapping exercises between national subject heading lists, and in exercises in digital resource organization and management, LCSH are often chosen because of the lack of any other widely accepted English language standard for subject cataloguing. It is therefore important that the basic nature of LCSH, their advantages, and their limitations, are well understood both by LIS practitioners and those in the wider information community. Information professionals who attended library school before 1995 - and many more recent library school graduates - are unlikely to have had a formal introduction to Library of Congress Subject Headings (LCSH).

Paraprofessionals who undertake cataloguing are similarly unlikely to have enjoyed an induction to the broad principles of LCSH. This is the first compact guide to LCSH written from a UK viewpoint. Key topics include: • background and history of LCSH • subject heading lists • structure and display in LCSH • form of entry • application of LCSH • document analysis • main headings • topical, geographical and free-floating sub-divisions • building compound headings • name headings • headings for literature, art, music, history and law • LCSH in the online environment. Readership: There is a strong emphasis throughout on worked examples and practical exercises in the application of the scheme, and a full glossary of terms is supplied. No prior knowledge or experience of subject cataloguing is assumed. This is an indispensable guide to LCSH for practitioners and students alike.
