land of the dragons: *Lights of Dragomar* Marc Krautwedel, 2022-08-17 'We have to be prepared for everything, even for someone who destroys everything so that no one has it, not even him.' They stood side by side again in silence on the terrace, high up on the mountain, watching the play of colours in the night sky. They heard the wind and the occasional cracking of ice floes piled on top of each other in the ocean in front of them. The waves that thundered recurrently against the rocks were a low murmur up on the mountain, accompanied by the fresh smell of the sea. 'Will we win?' asked Galbohei, without taking his eyes off the sky glow. 'We have the advantage,' replied Eremides. 'We know the value of freedom and we don't want to lose it. We know friendship and will not give it up. We know love and want to be able to continue to love.' Antarctica, circa 1540. Two aging swashbucklers confer on how to defend or stand their ground against a hostile force they know. Things look tight. They live on an island, in a mountain rich in tradition and myths. It is called "The Mountain of Hope". Actually, it is Dragomar, supposedly the ancient home of dragons and their successful "cultural successors". A slightly pubescent youth is bored far away from Dragomar. Everything is trivial, transparent and repeats itself in a daily rhythm. He would like to travel the ocean but he is not allowed to yet. He dreams of adventures and battles that seem so real to him, as if he were having a déjà vu with a claim to historical truth. Fire seems to come out of his nose and he changes in other ways as well. He is drawn toward a distant island where there is a mountain with a crystal shining brightly and mysteriously at the top. He is told that he is a foster child and that his grandfather, his last relative, lives on the distant island. The budding hero sets out, meets various people, develops physical and mental abilities, is kidnapped. There is a sea battle for him, because he is supposed to be something like an heir to the throne. He learns about history, past forms of government and more about ancient myths. So much for the plot. That Italian emperor penguins completely deface and shred the "Band of Brothers" speech of Henry V; that a black dragon can spit black holes and is about to merge into the matrix; that really fascistic meanies are afraid of the crowd of penguins and are prone to vulgarity; that the topic of separation of powers is a real problem ... all this fills the pages in such a way that it is irrelevant whether there is a human, animal or dragon giving something to the best. A little excursion into humanity. A little unexplained philosophy; a little unexplained physics; a little unexplainable behaviour. Myths, legends, magic - and everyday life.

land of the dragons: Symbolism in Korean Ink Brush Painting Francis Mullany, 2022-09-12 With more than 200 colour plates, and for the first time available as a study in English, this volume explores the vast heritage of Korean ink brush painting, providing a rich panorama of information that stretches across the entire spectrum of Korean art – including painting, pottery, calligraphy and literature, which will have wide appeal, not least to art lovers and students of Korean Studies. Part I presents the material in essay form; Part II, which uses a dictionary format, summarizes the information in Part I and highlights the hidden messages and symbolism inherent in literati ink brush painting in Korea. When China and Japan opened up to outside influence in the nineteenth century, Korea maintained a closed-door policy, becoming known as the ‘hermit kingdom’, only to be swallowed up in the struggle for hegemony between the Great Powers. Annexation by Japan in 1910 threatened Korea’s language and culture with extinction. Liberation in 1945 was followed by the tragedy of the Korean War in 1950. In the period of reconstruction after the Korean War, artists and scholars faced the task of retrieving Korea’s endangered cultural tradition. Ink brush painting is a unique part of this tradition; its history stretches back through the Choson dynasty when Chinese influences were assimilated and absorbed and made into Korea’s distinctive tradition.

His greatest wish in life was to return home. If time and space are irrevocable, I will control the universe to defy the heavens and change fate. If heaven's will cannot be defied, I will use the sword in my hand to shatter the nine heavens. However, when he finally found a way to reverse time and space, he was already surrounded by his wives, looking down at the world from the left!

land of the dragons: Genius Wizard of Another World , Zhenyinfang, 2020-03-10 Chen Nan, born in a small village, was taken by Jack the magician to Zhongzhou to study magic when he was young. Chen Nan learned a lot from Jack. Once Jack asked him to go to Shenshan to look for secret silver, which was used to refine magic wands. Chen Nan went there according to his orders, but was caught by the Dragon Emperor accidentally. The Dragon Emperor put a blood curse on him to help them complete their rejuvenation mission. Chen Nan knew that the people of the Dragon nationality were cruel and unruly, and did not want to help tyranny. So I went to the forest of Warcraft with baba'an, the leader of dwarves, to find the queen of elves to help him touch the blood curse. Then they went to dwarven city in the West desert. The Dragon Emperor's people want to capture the dwarf city as a stronghold and gradually occupy the rest of Tianxing continent. There was a fierce fight here. In the end, Chen Nan beat back the Dragon warriors and killed the Dragon Emperor's shadow with powerful light magic pop fall. He also became a powerful God of Dharma.
