liverpool in the 80s: Inside Bob Paisley's Liverpool John Williams, 2012-10-05 Many years have now passed since the greatest period of European dominance by any English football club came to an end. Between 1977 and 1984, Liverpool won the European Cup an unprecedented four times and established themselves as the number-one team in Europe. It was during the successful European Cup campaigns of 1981 and 1984 that the unlikely figure of Alan Kennedy came to dominate the headlines. Folk-hero left-back Alan Kennedy - nicknamed 'Barney Rubble' by fans after The Flintstones character due to his straightforward, no-frills approach to the game - scored the winning goal in the 1981 European Cup final against Real Madrid, as well as the nerve-twanging winning shoot-out penalty against AS Roma in 1984, a feat which secured his position in European football history. Kennedy's Way examines Kennedy's footballing career under manager Bob Paisley (and, later, under Joe Fagan) and provides a retrospective account of Liverpool's dominance during those years. Drawing on Kennedy's memories of the period, as well as those of other players and backroom staff involved with the Reds at that time, it is an irreverent, revealing account of the dressing-room culture at the club while it was at the height of its powers. The book concludes with reflections on Kennedy's post-playing life and on the trajectory of Liverpool since the Heysel and Hillsborough tragedies, in 1985 and 1989 respectively, right up to recent events at the club, including the exit of Gérard Houllier and the team's dramatic return to the pinnacle of European club football under new manager Rafael Benítez.

liverpool in the 80s: Metal on Merseyside Nedim Hassan, 2021-09-14 This is the first book to examine the partially hidden history of metal music scenes within the city of Liverpool and the surrounding region of Merseyside in the North-West of England. It reveals that while Liverpool has historically been portrayed as a certain kind of 'music city,' metal has been marginalized within its music heritage narratives. This marginality was not inevitable. The book illustrates how it is not merely the product of historical representation but the result of forces of urban change and regional shifts in the economy of live music. Nor is this marginality inconsequential. Drawing on

ethnographic research, Nedim Hassan demonstrates that it has influenced how the region's metal scenes are perceived and how people feel towards them. Metal on Merseyside reveals how various people involved with such scenes work within often challenging circumstances to sustain the production of metal music and events. It also reveals the tensions that arise as scene members' desires for an ideal metal community collide with forces of change. Metal on Merseyside is, therefore, a fascinating barometer for the contradictions apparent when people engage in creative labour to produce music that they love.
