mail on sunday magazine: The Prime Ministerial Court R. A. W. Rhodes, 2024-10-25 Court

politics is about who in British government did what to whom, when, how, why, and with what consequences. In *The Prime Ministerial Court* Rod Rhodes provides a thorough depiction of the court politics of the Conservative governments of the twenty-first century, namely the courts of David Cameron, Theresa May, and Boris Johnson. Exploring specific topics, including the courtiers, the prime minister's craft, reshuffles, resignations, and leadership challenges, and the political games and feuds in the court between ministers, advisers, and civil servants, Rhodes concludes that the British government has a new Establishment in which the skills of 'knavery' abound. He finds evidence of betrayal, revenge, lying, scandals, and bullying with such machinations oiled by gossip, humour, and alcohol. Analysing the everyday practice of the 'dark arts' by the British political and administrative elite, each chapter includes a short case study of the court in action, covering the

education wars, the 2018 election, and the Covid-19 crisis. Each case illustrates the personal, electoral, and governmental consequences of court politics. Rhodes warns that there are more and more knaves, decency is in decline, and British government needs 'rules for rulers'. Above all, he cautions citizens - 'beware, here be dragons'.

mail on sunday magazine: *How to Write for Magazines - in One Weekend* Diana Cambridge, 2007-10

mail on sunday magazine: *In Plain Sight* Dan Davies, 2014-07-17 A major source for the BBC drama *The Reckoning* Winner of the 2015 Gordon Burn Prize and the 2015 CWA Non-Fiction Dagger Shortlisted for the Orwell Prize and the James Tait Black Prize Dan Davies has spent more than a decade on a quest to find the real Jimmy Savile, and interviewed him extensively over a period of seven years before his death. In the course of his quest, he spent days and nights at a time quizzing Savile at his homes in Leeds and Scarborough, lunched with him at venues ranging from humble transport cafes to the Athenaeum club in London and, most memorably, joined him for a short cruise aboard the QE2. Dan thought his quest had come to an end in October 2011 when Savile's golden coffin was lowered into a grave dug at a 45-degree angle in a Scarborough cemetery. He was wrong. In the last two and a half years, Dan has been interviewing scores of people, many of them unobtainable while Jimmy was alive. What he has discovered was that his instincts were right all along and behind the mask lay a hideous truth. Jimmy Savile was not only complex, damaged and controlling, but cynical, calculating and predatory. He revelled in his status as a Pied Piper of youth and used his power to abuse the vulnerable and underage, all the while covering his tracks by moving into the innermost circles of the establishment.

mail on sunday magazine: *The SAGE Handbook of Feminist Theory* Mary Evans, Clare Hemmings, Marsha Henry, Hazel Johnstone, Sumi Madhok, Ania Plomien, Sadie Wearing, 2014-08-12 At no point in recorded history has there been an absence of intense, and heated, discussion about the subject of how to conduct relations between women and men. This Handbook provides a comprehensive guide to these omnipresent issues and debates, mapping the present and future of thinking about feminist theory. The chapters gathered here present the state of the art in scholarship in the field, covering: Epistemology and marginality Literary, visual and cultural representations Sexuality Macro and microeconomics of gender Conflict and peace. The most important consensus in this volume is that a central organizing tenet of feminism is its willingness to examine the ways in which gender and relations between women and men have been (and are) organized. The authors bring a shared commitment to the critical appraisal of gender relations, as well as a recognition that to think ‘theoretically’ is not to detach concerns from lived experience but to extend the possibilities of understanding. With this focus on theory and theorizing about the world in which we live, this Handbook asks us, across all disciplines and situations, to abandon our taken-for-granted assumptions about the world and interrogate both the origin and the implications of our ideas about gender relations and feminism. It is an essential reference work for advanced students and academics not only of feminist theory, but of gender and sexuality across the humanities and social sciences.

mail on sunday magazine: Unauthorised tapping into or hacking of mobile communications Great Britain: Parliament: House of Commons: Home Affairs Committee, 2011-10-28 The Commons Home Affairs Committee deplores News International's attempt to deliberately thwart the original investigation into phone hacking in 2005-06 but also states that the police set aside a huge amount of material that could have identified other perpetrators and victims. The committee agrees with John Yates's own assessment that his 2009 review of this investigation was very poor, that he did not ask the right questions and that he was guilty of a serious misjudgement. The committee criticises Andy Hayman's cavalier attitude towards his contacts with those in News International who were under investigation which, even if entirely above board, risked seriously undermining confidence in the impartiality of the police, and accuses him of deliberate prevarication in order to mislead the committee. It urges the swift and thorough investigation of allegations that payments were made to police officers by the media, which will help to establish whether or not such payments may have influenced police inquiries into phone hacking. The committee welcomes DAC Sue Akers's decision to contact all potential victims of phone hacking by the News of the World as part of the current investigation, but is alarmed that only 170 have as yet been informed. At this rate it would take years to inform all of the several thousands of people potentially affected. The committee therefore recommends that extra resources are allocated to her investigation, by the Government directly if necessary. The committee also expresses concern about both the scope and understanding of current laws on phone hacking, with prosecutors and police still arguing over the meaning of relevant sections of the Regulation of Investigatory Powers Act 2000. However, this was no reason for the Metropolitan Police to limit their investigation of these matters. Finally, potential victims of phone hacking should be given a means of seeking formal advice from the Information Commissioner and easier access to redress. The Information Commissioner should be given additional powers to deal with breaches of data protection, including phone hacking and blagging. Mobile phone companies should give greater prominence to security advice in the information provided to their customers. The report sets out 24 conclusions and recommendations.
