nothing out of ordinary: Mark's Gospel: An Actological Reading Malcolm Torry, 2022-05-19 This might look like an ordinary commentary on Mark's Gospel, but it isn't one. It understands reality as Action, actions, change, diversity, movement, and the dynamic, rather than as Being, beings, the unchanging, the unitary, rest, and the static, and it reads Mark's Gospel in the light of that distinctive understanding of reality. It is all about action, change, and diversity, and it understands God, Jesus, and ourselves as action, change, and diversity. The initial chapter

introduces the action-based understanding of reality as action in changing patterns—an actology, rather than an ontology. Then follows a section-by-section close study of the Gospel. The result is a unique and somewhat unexpected reading of the text and a distinctive theology to match.

These concepts would forever forge the character of young Lucius. Lucius, now an old soldier, still seeks truth but wonders if it exists. But then comes the fateful reassignment that would put him on a collision course with the one who is the truth.

nothing out of ordinary: The Shift Michael Harris, 2013-06 Sedona is well-known as a very spiritual place. It is also known as a congregation ground for crystal crunchers, self-proclaimed visionaries and mystics. There are a few true healers here, but they shun the media and the publicity that others come here to seek. Two of them feel a shift in balance one evening, and know something bad has come to this healing spot. A father and son serial killer team has stopped by in Sedona on the way north to Canada. With them, they bring all the hate that drives them to keep killing. They have a well-refined method of finding, keeping and finally killing their subjects, and are experts at leaving no trace. They have remained at large as they perform these acts while travelling through seven states. This story is about the healers, and how they, with the help of a USFS volunteer and his search/rescue dog, Sam find out what has happened and how to make it go away before more killings occur. Mike and Linda Harris are residents of Sedona, Arizona. They relocated to Sedona in 2003, leaving California for a less-structured and more healthful lifestyle in a peaceful, beautiful place. Both are graduates of SDSU, and Mike has authored several books under his name on technical subjects, including some which remain in the classified domain. He is from a Business Development background with emphasis on contract electronics for Defense Electronics companies. Linda has a Business degree, and was most recently a Director of Resident Programs at one of the largest multi-level senior care facilities in Southern California. She has been on television, and is credited for assisting in the establishment of the ethics committee under which many of the senior care facilities operate today. Both, with the assistance of Sam, co-wrote this book. Both Mike and Linda are active in the Sedona area, volunteering under USFS programs which are dedicated to preservation of the Sedona wildlife preserves and trail systems. These include the Adopt-a-Trail program, Mountain Bike Patrol and Friends of the Forest programs. Sam is included in these efforts, and routinely can be seen walking in the forest with patrollers, trail management personnel and volunteer search and rescue groups.

nothing out of ordinary: Malignant Sadness Lewis Wolpert, 1999 Part memoir, part scientific inquiry, this spellbinding, uniquely empathetic, international bestseller from a world-class biologist mines the core of society's most quietly pervasive, misunderstood illness.

nothing out of ordinary: MindRogue Connie Suttle, 2017-12-13 We are Or'myr; a secretive, dwindling race of wyrm dragons. For many years, we were without a queen and directionless, until my sister was born. She was loved. Protected. Until the one known as the Prophet stole her away. Our only hope to save our queen—and our race—lies in the hands of a blind man named Randl Gage. A man who is also one of the most wanted criminals in both Alliances...

nothing out of ordinary: The Collected Crime Novels Volume Two Clare Francis, 2018-06-26 Nail-biting thrillers from the international bestselling master of suspense, who writes “crime novels with action to keep you guessing until the very end” (Daily Mail). New York Times–bestselling British novelist Clare Francis has proven again and again that she “has serious crime writing talent” (The Mail on Sunday). This trio of thrillers involving mysterious and disturbing disappearances includes the #1 international bestseller, *Deceit*, which was adapted into a Lifetime Original Movie starring Marlo Thomas. *A Death Divided*: Jenna had always been Joe McGrath’s best friend and secret crush . . . until he introduced her to the enigmatic but charming Jamie Chetwood. After Jenna and Jamie married, Joe moved on and began a prominent legal career. But four years ago, the Chetwoods seemingly disappeared, and now Jenna’s parents want Joe to find their daughter. With the help of his rather complicated new girlfriend, Sarah, he starts to uncover things he wishes he’d left buried in the past. “A beautifully crafted and engrossing thriller.” —Daily Mail *A Dark Devotion*: Grace Dearden is a woman so beautiful and virtuous no one would ever question her integrity or standing in the community. When Grace disappears—seemingly evaporating into the eerie Norfolk marshes—and the local police investigation gets bogged down, her husband, Will, enlists the help of longtime friend and London criminal lawyer Alexandra O’Neill. But soon Alex discovers that Grace was not the person everyone thought . . . “[A] well-crafter thriller set in the bleak salt marshes of Norfolk, England.” —Publishers Weekly *Deceit*: In this “intense psychological thriller,” secrets swirl around a husband lost at sea (Publishers Weekly). After MP and successful businessman Harry Richmond disappears while out sailing his yacht, his wife, Ellen, slowly transforms from grieving widow to primary suspect. When Richard Moreland, Harry’s army colleague, uncovers clues pointing to the possibility of scandal, secrets, and even murder, Ellen insists her husband committed suicide. As she struggles to protect her children from the emotional—and political—impact of their father’s disappearance, another revelation awaits—and it could break the case wide open. “The plot has as many twists as a nautical knot.” —Daily Mail
