sally of home and away: Home and Away David Owen, Lesley Peterson, 2016-02-08 Home and Away: The Place of the Child Writer is an important contribution to the fast-growing and rapidly evolving field of literary juvenilia studies. This collection of essays by fifteen scholars is the first in this area to be published in the past decade. To reflect recent developments, Home and Away both theorises the current state of this richly interdisciplinary academic field and exemplifies juvenilia studies in action. An authoritative review of the origins and future of literary juvenilia studies is followed by a collection of essays on individual authors. Wide-ranging in literary periods covered, geographical regions represented, and methodological approaches employed, the collection is organized around the basic tenet that the familiar world of home and the as-yet-untravalled territory of adulthood are both important to the imaginations of juvenile authors. The relationships and values of the parental home, the topography of the home place, the literature and lives that first fired their imaginations as children, find expression in young writers' works. So too do the unfamiliar or extra-familiar connections, lifestyles, landscapes, and literature that the child writer anticipates, imagines, or invents, whether as a means of temporary escape while still at home, or as a process of preparing for adulthood and artistic maturity.

Riggs, Clare Bartholomaeus, 2021-01-12 In Home and Away: Mothers and Babies in Institutional Spaces, the authors examine how health design in a psychiatric mother-baby unit can serve the needs of mothers and babies, their families, and the staff. Arguing that while mothers in institutional care are away from their own homes, they need not be away from their babies, the authors show that any examination of built space must consider how the mothers respond to the space and how the space responds to their needs for privacy, rest, routine, and wellness. Home and Away provides a comprehensive account of critical design for mental health, focusing on how health facilities can intentionally promote positive psychological outcomes through the design and use of space.

Up to her eyeballs in her friends' dramas, Harriet Grey has no time for her own, let alone getting entangled with John Mackenzie. And though it's been ages since she's met one of the most gorgeous men London has to offer, it seems John's entangled with someone else. Or is he? Though they say all's fair in love, Harriet isn't about to complicate her life -- or risk her heart. But the persistent John seems to pop up everywhere she turns, and soon she's agreeing to meet him for a cocktail to repay a favor. After all, what harm can come out of one innocent little drink? Maybe a few breathtaking kisses, some suspiciously lingering embraces, and a wonderful weak-kneed dizziness that most definitely is not the flu. And that's before she finds herself all alone with John at Christmas. .
