softly softly catchy monkey: Sex, Lies and Handlebar Tape Paul Howard, 2011-04-01 Sex, Lies and Handlebar Tape is the astonishing biography of French cycling star Jacques Anquetil. For the first time since his death in 1987, it reveals the extraordinary truth behind the legend, the man and the cyclist. His list of 'firsts' alone makes him worthy of a place in the cycling pantheon: the first man to win the Tour de France five times; the first man to win all three grand tours - the Tour de France, Giro d'Italia and Vuelta a España; and the first man to win both the Tour and Vuelta in the same year. However, the extraordinary life of Anquetil does not stop at his achievements on a bike. He candidly admitted to using drugs, offended legions of fans by confessing that his only motivation for riding was financial and infamously indulged his enthusiasm for the high life. He also seduced and married his doctor's wife, had a child with her daughter and then sustained a ménage à trois with both wife and stepdaughter under the same roof for 12 years. When this 'family' eventually imploded, he attempted to inspire jealousy in his former lovers by having a child with his stepson's ex-wife. Containing exclusive contributions from Anquetil's family, friends, teammates and rivals, Sex, Lies and Handlebar Tape untangles myth from reality and confirms that fact is definitely stranger than fiction.

softly softly catchy monkey: **REDFISH ONE TRANSCRIPT: The 22nd Special Air Service Regiment** J. J. James, 2022-09-30 Background about Transcript: My uncle died some 10 years ago now. His son (my cousin) found this transcript in his father's attic, it was amongst all sorts of letters and paper cuttings and a lot of old bills apparently. I don't think my cousin even read it. However, sometime last year, at a funeral no less, we got talking and he knew I had always been a bit of a scribbler, so the long and the short of it was that he posted me this transcript and said do with it

what I liked. I have taken him at his word, typed it up (mistakes and all) and posted it on the web as an e-book. Originally there was a lot of swear word, but these have been removed to allow it to be published on the web. I would say, it does detract from the original, but unfortunately this is the way it has to be. Having said that there was a lot of bad language and mostly of a gratuitous nature. I will probably put the original on the internet sometime in the future, over 21's only or whatever. I only fairly recently ended up with this transcript, which was found in my uncle's possessions after his death some 10 years ago now. With my cousin's permission (who gave me these fifty or so pages) I have retyped them and kept it as near to the original as possible. Unfortunately, I had to remove the swear words to get it published. Was this a real S.A.S. operation? It is unclear to my cousin, why my uncle should have a transcript of a military operation in Northern Ireland from March 1984. The only clue is that my uncle was actually in the SAS, it was long before 1984 it's true. Infact he was a member of the S.A.S. during the Second World War. It just seems very strange document for my uncle to have and not tell anyone, because he wasn't a quiet man, not in his later years at any rate. The bottom line is that no one knows if this is true or not and mainly because of this, I have deliberately not put my name to this, or indeed mentioned my uncle or cousin by name. The fact is that we may well be asked questions which we simply don't, and never will, have the answers to.

softly softly catchy monkey: The Improbable Victoria Woodhull Eden Collinsworth, 2025-09-02 From the acclaimed author of *What the Ermine Saw* and *Behaving Badly*, a portrait of Victoria Woodhull, a celebrated and maligned 19th-century businesswoman and activist, and a leader in the fight for women's suffrage and labor reforms. In 1894, a remarkably self-possessed American woman, with no formal education to speak of, stood before a British court seeking damages for libel from the trustees of the British Museum. It was yet another stop along the unpredictable route that was Victoria Woodhull's life. Born dirt-poor in an obscure Ohio settlement, Woodhull was the daughter of an illiterate mother entranced by the fad of Mesmerism—a therapeutic pseudoscience—and a swindler father whose cons exploited his two daughters. It was through her mother, though, that Woodhull familiarized herself with the supernatural realm, earning a degree of fame as a clairvoyant and her first taste of financial success. Woodhull's life would continue to turn on its axis and then turn again. Despite a deeply troubled first marriage at the age of fourteen, countless attempts by the press to discredit her, and a wrongful jail sentence, Woodhull thrived through sheer determination and the strength of her bond with her sister Tennie. She co-founded a successful stock brokerage on Wall Street, launched a newspaper, and became the first woman to run for president. Hers was a rags-to-riches story that saw her cross paths with Karl Marx,

Henry Ward Beecher, and Frederick Douglass. In an era when women's rights were circumscribed, and the idea of leaving a marriage was taboo, she broke the rules to carve out a path of her own. Vividly written and exhaustively researched, Collinsworth tells the story of a woman truly ahead of her time—a radical visionary who made defying mores a habit and brought to the fore societal and political issues still being addressed today. Neither a saint nor a villain, Woodhull emerges as an iconic, complex woman: an entrepreneur; lover of freedom; and a fiercely loyal family member whose political activism and suffragist legacy will cement her in history.

softly softly catchy monkey: *Dead in the Water* Chris McDonald, 2021-03-27 Stonebridge is a small town on the north coast of Northern Ireland. Most of its inhabitants are friendly, happy people. Most of them... Because bad things happen even in the happiest of places. It's a good job, then, that Adam Whyte and Colin McLaughlin call Stonebridge home. Armed with an encyclopedic knowledge of detective shows, a misplaced sense of confidence and a keen desire to see justice done, these two are the closest thing the town has to saviours. Which isn't that reassuring... DEAD IN THE WATER The Stonebridge Regatta is looming. The town's annual face-off against neighbouring Meadowfield is usually a weekend filled with sunshine, laughter and camaraderie. This year is different. A week before the race, the body of Stonebridge team captain Matthew Henderson is found dead in the water. The police file his passing as a tragic accident however, his grieving widow disagrees and suspects foul play is involved. She enlists the help of Adam and Colin, the town's amateur (self-proclaimed) private detectives to unearth the truth. Did Matthew simply slip and fall into the water, or is there more to his death below the surface?
