Among them is David Hicks, who was detained for five years until the March 2007 hearing where he pleaded guilty to the charge of providing material support for terrorism. *Detainee 002* reveals in unprecedented detail how an Australian citizen wound up in the War on Terror. Based on more than five years of reporting and dozens of interviews with insiders, Leigh Sales explains the intricacies of Hicks's case, from his capture in Afghanistan, to life in Guantanamo Bay, to the behind-the-scene establishment and workings of the military commissions. Sales' impeccable research takes us from top-secret negotiations at the White House and Pentagon to the domestic fallout Hicks's incarceration has had on his family, to the campaign that Major Michael Mori, the marine who becomes his greatest advocate, waged on his behalf. soldier of fortune magazine: *The First Amendment and Civil Liability* Robert M. O'Neil, 2001-11-22 The First Amendment and Civil Liability Robert M. O'Neil A well-known First Amendment advocate explains the new threats to free expression posed by damage suits. This book explores a highly contentious set of issues involving freedom of speech and press. Until very recently, publishers and producers have assumed that, with a few exceptions like libel, freedom of expression was absolute and safe from civil liability in the form of damage awards. In the late 1990s, these complacent assumptions were sharply challenged. The case of the Hit-Man Manual signaled the shift. After a hired assassin had been convicted of a brutal murder in a Washington, D.C. suburb, it turned out he had used a book that contained graphic, detailed instructions on how to carry out an execution. When the family of the victims sued the publisher for wrongful death, a federal appeals court ruled that the book was not protected speech since its apparent purpose was to facilitate murder. The publisher was thus, for the first time, potentially liable for criminal acts committed by a reader of one of its books. Later cases, especially a suit against *Natural Born Killers'* producer Oliver Stone, have invoked this ruling in seeking to impose liability on those who create and distribute material that causes others to inflict injury or death. Noted First Amendment scholar Robert M.

O'Neil looks at seven areas where free expression is now at risk of incurring civil liability -- libel and slander (including a separate analysis of libel on the Internet), privacy (paparazzi and others who intrude), defective or dangerous products, incitement (the claim of a link between speech and criminal acts, as in the Natural Born Killers case), advertising, news-gathering (for example, the Food Lion/ABC Primetime Live case,) and threats and incitement on the Internet (as in the anti-abortion Nuremberg website case.) O'Neil's clear exposition and analysis illuminate the issues for a broad range of readers concerned about a host of new threats to, and the limits of, free expression.

soldier of fortune magazine: Violence against Women Stanley G. French, Wanda Teays, Laura M. Purdy, 2018-10-18 This is the first anthology to take a theoretical look at violence against women. Each essay shows how philosophy provides a powerful tool for examining a difficult and deep-rooted social problem. Stanley G. French, Wanda Teays, and Laura M. Purdy, all philosophers, present a familiar phenomenon in a new and striking fashion. The editors employ a two-tiered approach to this vital issue. Contributors consider both interpersonal violence, such as rape and battering; and also systemic violence, such as sexual harassment, pornography, prostitution, and violence in a medical context. The editors have further broadened the discussion to include such cross-cultural issues as rape in war, dowry deaths, female genital mutilation, and international policies on violence against women. Against this wide range of topics, which integrate personal perspectives with the philosophical, the contributors offer powerful analyses of the causes and effects of violence against women, as well as potential policies for effecting change.

soldier of fortune magazine: Advertising and the World Wide Web David W. Schumann, Esther Thorson, 1999-04-01 The chapters provide a wide-ranging view of issues addressing how advertisers can proceed on the Internet and World Wide Web. An initial chapter traces the development of Web advertising from its very beginnings as it was represented and discussed in the pages of Advertising Age. Although there is a noticeable trend to define Web advertising by comparing it to traditional media, it is clear that Web advertising just won't fit the old mold. Keith Reinhard of DDB Needham actually articulates this linkage between the old and new in his invited chapter. What the reader will encounter in Advertising and the World Wide Web is a solid conception of how Web advertising is different from anything that has come before. There are numerous discussions on consumer and advertiser interactivity, the role of Web advertising within larger campaigns, audience segmentation, and alternative Web-based promotion formats. The five sections cover definition and theory, structure, specific applications, legal issues, and the voice of the practitioner. Although there remain a few nay-sayers concerning the future of Web advertising, the reader will be able to see just how incredibly high-impact this new medium has become and the

vast potential that it holds for future promotional endeavors.

soldier of fortune magazine: Legal and Ethical Considerations for Public Relations Karla K. Gower, 2007-07-20 Since the law reflects a society's values, norms, and beliefs, public relations professionals need an understanding of both law and ethics. Legal and Ethical Considerations for Public Relations melds ethics and the law with other integral aspects of the field to address inaccuracies, liability, and moral questions of right and wrong. The second edition continues to address the classical approaches to ethics, business ethics, theories of public relations ethics, ethics codes, and personal ethics. To help professionals shield their organizations from liability or harm, First Amendment theory and its relevance for public relations speech, corporate and commercial speech, and specific areas of the law, such as government regulations, torts, and intellectual property, are discussed. Gower includes influential cases to illustrate specific legal concepts and the reasoning behind each one. She prepares readers with practical knowledge and insights that will benefit them throughout every phase of their career.

soldier of fortune magazine: Millennium, Messiahs, and Mayhem Thomas Robbins, Susan J. Palmer, 2013-10-28 As we approach the Millennium, apocalyptic expectations are rising in North America and throughout the world. Beyond the symbolic aura of the millennium, this excitation is fed by currents of unsettling social and cultural change. The millennial myth ingrained in American culture is continually generating new movements, which draw upon the myth and also reshape and reconstruct it. Millennium, Messiahs, and Mayhem examines many types of apocalypticism such as economic, racist, environmental, feminist, as well as those erupting from established churches. Many of these movements are volatile and potentially explosive. Millennium, Messiahs, and Mayhem brings together scholars of apocalyptic and millennial groups to explore aspects of the contemporary apocalyptic fervor in all original contributions. Opening with a discussion of various theories of apocalypticism, the editors then analyze how millennialist movements have gained ground in largely secular societal circles. Section three discusses the links between apocalypticism and established churches, while the final part of the book looks at examples of violence and confrontation, from Waco to Solar Temple to the Aum Shinri Kyo subway disaster in Japan. Contributors: James Aho, Dick Anthony, Robert Balch, Michael Barkun, John Bozeman, David Bromley, Michael Cuneo, John Dimitrovich, John Hall, Massimo Introvigne, Philip Lamy, Ronald Lawson, Martha Lee, Barbara Lynn Mahnke, Vanessa Morrison, Mark Mullins, Ansun Shupe, Susan Palmer, Thomas Robbins, Philip Schuyler and Catherine Wessinger.
