- T' – contraction of "the"
- Nae – no/not

song ilkley moor baht at: *Walking the Wharfe* Johnno Ellison, 2023-08-10 In a world of globetrotting explorers and record-breaking journeys – of which he has been part himself – Johnno Ellison decided to return to his roots and walk the entire length of the River Wharfe, the Yorkshire waterway beside which he grew up. In his new book for Bradt, *Walking the Wharfe*, Ellison retraces the steps of Victorian author Edmund Bogg to investigate how the riverscape and its communities have evolved during the intervening 120 years. While wild camping, meeting modern-day Vikings, wartime ghosts and the fearless 'Dales Dippers', and learning how not to deal with a herd of over-inquisitive cows, Ellison encounters a microcosm of English history and culture. Starting in the Vale of York, Ellison walks upstream to explore the region's Viking and Roman heritage, as well as more modern developments such as Tadcaster's disastrous bridge collapse in 2015. He examines a profusion of Victorian spa towns, considers the impact of the Industrial Revolution and enjoys rare wildlife such as red kites and an otter, creatures that have returned to the area following successful conservation initiatives. Traversing the Yorkshire Dales National Park, including along the Dales Way long-distance footpath, Ellison is first bewitched by local legends of giants, trolls and witches, then seduced into wild swimming in a chilly river – albeit not the Strid, a section of the Wharfe notorious worldwide for reportedly drowning everyone who has ever tumbled into it – before seeking refuge in a candlelit pub during a storm that caused a power blackout. During his ascent, Ellison learns from a family who have farmed the Yorkshire hills for five generations before reaching the Wharfe's trickling source amid a vast boggy moorland. This enchanting travelogue is a must-read for anyone interested in nature, 'the great outdoors', or English history and culture. Residents and fans of Yorkshire will love it, as will anyone who has hiked the Dales Way. Above all, by combining personal connections with journalistic curiosity and a nose for a story, *Walking the Wharfe* affirms that even lesser-known parts of the small island of Britain can hold their own against renowned tourist sites the world over.

song ilkley moor baht at: *Britain's First Black Headmaster of a Secondary School in Action* Carlton Duncan, 2024-07-19 This is the 'real life' story of Britain's first Black Headmaster of a large secondary school. In 1982 when the news first broke, all of Yorkshire where it happened, indeed, all the United Kingdom and beyond came alive with the media frenzy which attended the historical occasion. This was no fluke since that feat was repeated four years later by the same person, this time in the Midlands at one of Birmingham's largest comprehensive schools. Once the media frenzy, the seemingly glamour of his achievements, was over, Duncan, the Headmaster in question, had to face the reality of managing and leading the schools which he successively headed. These were not places of friendship but more like hostile gauntlets of racism and sabotage which Duncan must navigate daily whilst equally hostile external eyes watched his every move threateningly and, at times, abusively. Navigating these obstacles successfully soon became a prominent aspect of the job description of this Headteacher. Beyond school life, his journey was no less hazardous. It was littered or peppered throughout with difficulties such as police stops and searches, high speed police chase on the motorways, legal battles, romantic and marital discords leading to police lock-up, beatings by in-laws and hospitalization on his wedding day for daring to marrying a Sikh girl. With this Sikh girl, Duncan would make the headlines again in the same year as becoming Britain's first Headmaster of a secondary school. In the August of 1982, Duncan's Sikh wife gave birth to the world's first black test-tube twins which opened the way for a whole new dimension in Duncan's world.

song ilkley moor baht at: Understanding Scotland Musically Simon McKerrell, Gary West, 2018-02-15 Scottish traditional music has been through a successful revival in the mid-twentieth century and has now entered a professionalised and public space. Devolution in the UK and the surge of political debate surrounding the independence referendum in Scotland in 2014 led to a greater scrutiny of regional and national identities within the UK, set within the wider context of cultural globalisation. This volume brings together a range of authors that sets out to explore the increasingly plural and complex notions of Scotland, as performed in and through traditional music. Traditional music has played an increasingly prominent role in the public life of Scotland, mirrored in other Anglo-American traditions. This collection principally explores this movement from historically text-bound musical authenticity towards more transient sonic identities that are blurring established musical genres and the meaning of what constitutes 'traditional' music today. The volume therefore provides a cohesive set of perspectives on how traditional music performs Scottishness at this crucial moment in the public life of an increasingly (dis)United Kingdom.
