stephen king s riding the bullet: America's Dark Theologian Douglas E. Cowan, 2018-06-12 Illuminating the religious and existential themes in Stephen King's horror stories Who are we? Why are we here? Where do we go when we die? For answers to these questions, people often look to religion. But religion is not the only place seekers turn. Myths, legends, and other stories have given us alternative ways to address the fundamental quandaries of existence. Horror stories, in particular, with their focus on questions of violence and mortality, speak urgently to the primal fears embedded in such existential mysteries. With more than fifty novels to his name, and hundreds of millions of copies sold, few writers have spent more time contemplating those fears than Stephen King. Yet despite being one of the most widely read authors of all time, King is woefully understudied. America's Dark Theologian is the first in-depth investigation into how King treats religion in his horror fiction. Considering works such as Carrie, The Dead Zone, Misery, The Shining, and many more, Douglas Cowan explores the religious imagery, themes, characters, and, most importantly, questions that haunt Stephen King's horror stories. Religion and its trappings are found throughout King's fiction, but what Cowan reveals is a writer skeptical of the certainty of religious belief. Describing himself as a "fallen away" Methodist, King is less concerned with providing answers to our questions, than constantly challenging both those who claim to have answers and the answers they proclaim. Whether he is pondering the existence of other worlds, exploring the origins of religious belief and how it is passed on, probing the nature of the religious experience, or contemplating the existence of God, King invites us to question everything we think we know.

received the kind of critical attention that his books from the 1970s and 1980s enjoyed. Recent
novels like *Duma Key* and *1/22/63* have been marginalized and, arguably, cast aside as anomalies
within the author's extensive canon. In *Stephen King's Contemporary Classics: Reflections on the
Modern Master of Horror*, Philip L. Simpson and Patrick McAleer present a collection of essays that
analyze, assess, and critique King's post-1995 compositions. Purposefully side-stepping studies of
earlier work, these essays are arranged into three main parts: the first section examines five King
novels published between 2009 and 2013, offering genuinely fresh scholarship on King; the second
part looks at the development of King's distinct brand of horror; the third section departs from
probing the content of King's writing and instead focuses on King's process. By concentrating on
King's most recent writings, this collection offers provocative insights into the author's work,
featuring essays on *Dr. Sleep*, *Duma Key*, *The Girl Who Loved Tom Gordon*, *Joyland*, *Under the
Dome*, and others. As such, *Stephen King's Contemporary Classics* will appeal to general fans of the
author's work as well as scholars of Stephen King and modern literature.
