**sunday express crossword puzzle: The Newsmongers** Terry Kirby, 2024-09-12 Vivid and racy, a deep-dive into tabloids from their sixteenth-century beginnings to the National Inquirer and beyond. The Newsmongers unfolds the seedy history of tabloid journalism, from the first printed "Strange Newes" sheets of the sixteenth century to the sensationalism of today's digital age. The narrative weaves from Regency gossip writers through New York's "yellow journalism" battles to the "sex and sleaze" Sun of the 1970s; and from the Brexit-backing populism of the Daily Mail to the celebrity-obsessed Mail Online of the 2000s. Colorful figures such as Daniel Defoe, Lord Northcliffe, Joseph Pulitzer, William Randolph Hearst, Hugh Cudlipp, Rupert Murdoch, and Robert Maxwell are brought to vivid life. From scandalous confessions to the Leveson Inquiry into the behavior of the British press, the book explores journalists' unscrupulous methods, taking in phone hacking, privacy breaches, and bribery. And now, in the digital era, The Newsmongers shows how popular journalism has succumbed to so-called churnalism while a certain royal is seeking revenge on the tabloids today.

'Radio One' did not have adverts but we still listened to London's radio station because we could pick it up even west of Reading and, for us, London was the centre of the universe. Seventy-seven was a cause of great celebration, it was the Queen's Silver Jubilee and you can still see plaques and go on a Jubilee walk to commemorate her twenty fifth year on the throne. Nineteen fifty-two saw the first commercial passenger jet airliner entering service and the completion of the first atomic bomb, nineteen seventy-seven was a street party to celebrate the achievements of Elizabeth's reign, full stop.

**sunday express crossword puzzle:** *Graham Greene* Richard Greene, 2011-04-20 There have been a number of Graham Greene biographies, but none has captured his voice, his loves, hates, family and friends-intimate and writerly-or his deep understanding of the world, like this astonishing collection of letters. Graham Greene is one of the few modern novelists who can be called great. In the course of his long and eventful life (1904—1991), he wrote tens of thousands of letters to family, friends, writers, publishers and others involved in his various interests and causes. *A Life in Letters* presents a fresh and engrossing account of his life, career and mind in his own words. Meticulously chosen and engagingly annotated, this selection of letters-many of them seen here for the first time-gives an entirely new perspective on a life that combined literary achievement, political action, espionage, exotic travel and romantic entanglement. In several letters, the individuals, events or places described provide the inspiration for characters, episodes or locations found in his later fiction. The correspondence describes his travels in Mexico, Africa, Malaya, Vietnam, Haiti, Cuba, Sierra Leone, Liberia and other trouble spots, where he observed the struggles of victims and victors with a compassionate and truthful eye. The volume includes a vast number of unpublished letters to authors Evelyn Waugh, Auberon Waugh, Anthony Powell, Edith Sitwell, R.K. Narayan and Muriel Spark, and to other more notorious individuals such as the double-agent Kim Philby. Some of these letters dispute previous assessments of his character, such as his alleged anti-Semitism or obscenity, and he emerges as a man of deep integrity, decency and courage. Others reveal the agonies of his romantic life, especially his relations with his wife, Vivien Greene, and with one of his mistresses, Catherine Walston. The letters can be poignant, despairing, amorous, furious or amusing, but the sheer range of experience contained in them will astound everyone who reads this book.
