All too often, UK musicals reinforce national identity clichés and caricatures, conflate 'England' with 'Britain' and depict a mono-cultural nation viewed through a nostalgic lens. Through case studies and analysis of British musicals such as *Blood Brothers*, *Six*, *Half a Sixpence* and *Billy Elliot*, this book examines the place of the British musical within a text-based theatrical heritage and asks what, or whose, Britain is being represented by home grown musicals. The sheer number of people engaging with shows bestows enormous power upon the genre and yet critics display a reluctance to analyse the cultural meanings produced by new work, or to hold work to account for production teams and narratives which continue to shun diversity and inclusive practices. The question this book poses is: what kind of industry do we want to see in Britain in the next ten years? And what kind of show do we want representing the nation in the future?

It brings together distinguished scholars, theatre professionals, critics and reviewers to share their experiences of studying and in some cases producing the most significant landmarks of Scottish stage history, discussing pivotal plays and productions (Lyndsay's Ane Satyre of the Thrie Estaitis, Ramsay's The Gentle Shepherd, Home's Douglas, adaptations of Rob Roy and the 'National Drama', Lamont Stewart's Men Should Weep, Lochhead's Mary Queen of Scots Got Her Head Cut Off), writers (including Joanna Baillie, J.M Barrie, James Bridie, John McGrath, and the writers of the radical post-Millennium generation), and companies (including The Scottish National Players, The Glasgow Citizens, 7:84, Wildcat, Communicado, and the National Theatre of Scotland) alongside incisive accounts of the cultural contexts (from the Reformation to the Thatcher government and beyond) that produced and challenged them. Separate chapters explore Scots language and Gaelic drama; the popular theatrical forms of the travelling 'geggies', music hall, variety, and pantomime; theatre for young audiences; radio and television drama; the significant roles of the director and the theatre critic and reviewer in shaping Scottish theatre; and the Scottish stage's long history of dialogue with performance traditions in England, Ireland, and Continental Europe. Contributors describe the often-fierce struggles that led to the opening up of the Scottish stage to working-class voices and audiences, women writers and performers, writers of colour, LGBTQ+ voices, innovators in dramatic form, and the long process leading towards the foundation of the NTS, and its early work alongside other key developments in the twenty-first century.

In 1970, he moved to Nottingham Forest, partly as a result of receiving a 12-match ban for two consecutive red cards, and realizing it was finally time to move on. After Forest were relegated, Peter Cormack was signed for Liverpool by the legendary Bill Shankly and joined Reds heroes Kevin Keegan, Tommy Smith and Emlyn Hughes in a team that would later go on to conquer the footballing world. In Cormack's time, however, Liverpool were warming up for European Cup glory with a League Championship, a UEFA Cup double and an FA Cup victory. After

a serious injury, Ray Kennedy took over his role in the team and Cormack's time at Liverpool came to an abrupt end. Following a stint at Bristol City and a short time playing alongside George Best back at Hibs, Cormack went into football management, with mixed fortunes, but his lasting achievements in the game both north and south of the border are told with honesty and humour along with some rare insights into some of the greats of the game.

sunshine over leith proclaimers: Smart Money Alex Duff, 2024-03-21 In 1978, when Alex Duff first went to watch Brentford, players would go on midweek pub crawls near the Griffin Park stadium. Sometimes, in no fit state to go home, they would crash out in a terraced home where one of them lived opposite the stadium gates. The next morning, they clambered into a white van which one of them would drive to training, stopping on the way for a bacon sandwich and cup of tea at a greasy spoon café. Brentford had once played in the top-flight but now, idling in the third division, were a second home for players and supporters, but there was neither the ambition nor money to revive their best days. They bumbled along until in 2005, fed up with trying to make a profit from a club with an ageing stadium in an unfashionable west London suburb, owner Ron Noades agreed to hand over the business to supporters on the condition they take over responsibility for their £5.5 million overdraft. One of the fans, an Oxford University physics graduate called Matthew Benham, was making millions of pounds from professional gambling and threw in a £500,000 lifeline to help keep the club afloat. Initially, as a sort of academic challenge, he began figuring out if he could employ the mathematics which he used in beating the bookmakers to improve the club's performance on the pitch. Smart Money is the story of how a scientist with an inquiring mind was set loose in a backwater of professional football, and how he turned a modest, little-known team into a competitor in one of the world's most-watched sports leagues.

A Companion to British and Irish Cinema addresses arguments

surrounding film historiography, methods of textual analysis, critical judgments, and the social and economic contexts that are central to the study of these cinemas. Twenty-nine essays from many of the most prominent writers in the field examine how British and Irish cinema have been discussed, the concepts and methods used to interpret and understand British and Irish films, and the defining issues and debates at the heart of British and Irish cinema studies. Offering a broad scope of commentary, the Companion explores historical, cultural and aesthetic questions that encompass over a century of British and Irish film studies—from the early years of the silent era to the present-day. Divided into five sections, the Companion discusses the social and cultural forces shaping British and Irish cinema during different periods, the contexts in which films are produced, distributed and exhibited, the genres and styles that have been adopted by British and Irish films, issues of representation and identity, and debates on concepts of national cinema at a time when ideas of what constitutes both 'British' and 'Irish' cinema are under question. A Companion to British and Irish Cinema is a valuable and timely resource for undergraduate and postgraduate students of film, media, and cultural studies, and for those seeking contemporary commentary on the cinemas of Britain and Ireland.
