

alien vs predator requiem

Alien vs Predator Requiem is a science fiction action film that continues the intense saga of the clash between two of the most iconic extraterrestrial species in cinematic history: the Xenomorphs (Aliens) and the Predators (Yautja). Released in 2007 as a direct sequel to "Alien vs. Predator" (2004), this film delves deeper into the chaos that ensues when these two deadly species encounter each other on Earth. Known for its darker tone, high-octane action sequences, and gritty visual style, "Alien vs Predator Requiem" has become a notable entry in the sci-fi horror genre, captivating fans and critics alike with its intense narrative and groundbreaking creature design.

Overview of "Alien vs Predator Requiem"

Plot Summary

"Alien vs Predator Requiem" follows a narrative set immediately after the events of the first "Alien vs Predator" film. The story centers around a Predator ship that crashes into the small town of Gunnison, Colorado, carrying a deadly cargo—a chestbuster that has hatched from a Predator and is now loose in the community. As the alien creature begins to reproduce and spread, it attracts a deadly alien hive, leading to chaos and destruction. The film also introduces a secret government operation that tries to contain the outbreak, leading to conflicts between humans, Predators, and Aliens.

Main Characters and Cast

- Dallas Howard as Kelly O'Brien, a brave and resourceful woman trying to protect her family.
- Steven Pasquale as Sheriff Garrett, leading law enforcement efforts.
- John Ortiz as Dr. Sebastian De Rosa, a scientist investigating the outbreak.
- The Predators and Aliens serve as the primary antagonists, with their actions driving the plot.

Key Features and Highlights of "Alien vs Predator Requiem"

Dark and Gritty Visual Style

"Alien vs Predator Requiem" is renowned for its gritty, almost documentary-like visual aesthetic. The filmmakers aimed to create a sense of realism and immediacy, employing handheld camera techniques and natural lighting to immerse viewers in the chaos of the outbreak.

Intense Action Sequences

The film is packed with visceral, brutal action scenes that showcase the ferocity of both alien and predator species. Key moments include:

- The brutal fight between Predators and Aliens.
- The survival struggles of humans caught in the crossfire.
- The iconic face-offs that highlight the lethal capabilities of each creature.

Creature Design and Special Effects

"Requiem" features some of the most detailed and terrifying creature designs in the franchise. The alien species, especially the chestburster and full-grown Xenomorph, are brought to life using a combination of practical effects and CGI, emphasizing their terrifying realism.

Themes Explored in "Alien vs Predator Requiem"

Survival and Humanity

The film explores the instinctual drive for survival in humans and creatures alike. The characters are faced with impossible choices, highlighting human resilience in the face of extraterrestrial threats.

Conflict and Chaos

The narrative emphasizes how chaos erupts when two deadly species collide, and how human attempts to contain the outbreak often lead to unintended consequences.

The Nature of Predators and Aliens

"Requiem" delves into the biology and behavior of these species, showcasing their predatory instincts and the evolutionary arms race that drives their existence.

Reception and Criticisms

Critical Response

"Alien vs Predator Requiem" received mixed reviews from critics. While praised for its action sequences and creature effects, it was criticized for:

- Its dark visual tone making it difficult to see action clearly.

- The perceived lack of character development.
- Its graphic violence and horror elements, which some viewers found excessive.

Fan Reception

Fans of the franchise appreciated the film's brutal depiction of the alien and predator species and its continuation of the franchise lore. Some fans consider it a darker, more intense installment compared to its predecessor.

Box Office Performance

The film had a modest box office run, earning around \$80 million worldwide. Despite mixed reviews, it gained a dedicated following for its intense action and creature design.

Impact and Legacy of "Alien vs Predator Requiem"

Influence on the Franchise

"Requiem" expanded the lore surrounding the Predator and Alien species, highlighting their biological diversity and territorial behaviors. It also influenced subsequent media, including comic books, video games, and future films.

Controversies and Challenges

The film faced challenges during production, including budget constraints and the difficulty of balancing horror and action elements. Its dark visual style also sparked discussions about visibility and cinematography choices.

Follow-up and Future Projects

While no direct sequel has been announced, the "Alien" and "Predator" franchises continue to explore new stories across movies, comics, and other media, inspired by the groundwork laid in "Requiem."

Why "Alien vs Predator Requiem" Remains Popular Today

For Fans of Sci-Fi Horror

The film's intense atmosphere, terrifying creature designs, and relentless action make it a must-watch for fans of sci-fi horror and creature features.

For Creature Design Enthusiasts

The detailed and realistic designs of the Alien and Predator species showcase cutting-edge special effects work that continues to impress audiences.

Cultural Impact

"Requiem" contributed to the ongoing cultural fascination with extraterrestrial life and the mythos surrounding alien and predator species, inspiring countless fan theories and discussions.

Conclusion

"Alien vs Predator Requiem" stands out as a bold and brutal chapter in the crossover saga of two legendary extraterrestrial species. Its dark tone, visceral action, and innovative creature effects have cemented its place in sci-fi horror history. Whether you're a die-hard fan of the franchise or a newcomer interested in extraterrestrial battles, "Requiem" offers a compelling, adrenaline-fueled experience that continues to spark conversations and inspire new generations of sci-fi enthusiasts.

Frequently Asked Questions

What is 'Alien vs Predator: Requiem' about?

'Alien vs Predator: Requiem' is a sci-fi horror film that continues the story from the original 'Alien vs Predator' movie, focusing on a battle between aliens and predators on Earth after a Predator ship crashes in a small town.

How was 'Alien vs Predator: Requiem' received by fans and critics?

The film received mixed to negative reviews, with criticism directed at its visual effects, storytelling, and character development, though some fans appreciated its intense action and gore.

What are some notable differences between 'Alien vs Predator' and 'Requiem'?

Compared to the first film, 'Requiem' features a darker, more brutal tone, a new setting in a small town, and introduces a new hybrid creature called the Predalien, increasing the horror and chaos.

Who are the main characters in 'Alien vs Predator: Requiem'?

The film centers around a group of townspeople, including a young boy named Jesse, and military personnel who try to survive the alien and predator onslaught, with key characters like Dallas and the military squad involved in the conflict.

Is 'Alien vs Predator: Requiem' part of the original Alien or Predator franchises?

'Alien vs Predator: Requiem' is part of the crossover franchise that combines elements from both the 'Alien' and 'Predator' series, serving as a sequel to the 2004 film 'Alien vs Predator,' but it is not considered part of the main Alien or Predator film series.

Alien vs Predator Requiem: An In-Depth Examination of the Franchise's Controversial Sequel

Since its inception, the Alien and Predator franchises have captivated audiences with their blend of science fiction, horror, and action. The 2007 film Alien vs Predator: Requiem (commonly abbreviated as AVPR) stands as a polarizing entry in this universe, often debated for its storytelling, technical execution, and place within the larger mythos. This article aims to provide a comprehensive, investigative review of Alien vs Predator Requiem, exploring its production background, narrative themes, visual design, reception, and legacy within the franchise.

Background and Production Context

Origins of the Cross-Over Concept

The Alien and Predator franchises originated separately, with Alien debuting in 1979 under director

Ridley Scott, introducing audiences to the deadly Xenomorphs, and Predator arriving in 1987 with Arnold Schwarzenegger battling the titular extraterrestrial hunter. The idea of crossing these universes emerged in the early 2000s, driven by the commercial success of *Alien vs Predator* (2004), which served as a bridge to expand both brands through a shared narrative.

The 2004 film, directed by Paul W.S. Anderson, set the stage for a series of subsequent cross-overs, culminating in *Alien vs Predator: Requiem*, released in 2007. The film was produced by 20th Century Fox and directed by the brothers Colin and Greg Strause, who had previously gained recognition for their visual effects work and low-budget horror films.

Production Challenges and Budget

Alien vs Predator Requiem had a comparatively modest budget of around \$40 million, less than its predecessor, which influenced its production values and scope. The Strause brothers aimed for a darker, more visceral tone, emphasizing horror and chaos over the grander spectacle of the first film. Filming took place primarily in Vancouver, Canada, with a tight schedule that reportedly contributed to various technical and narrative shortcomings.

Key challenges faced during production included:

- Special Effects and Creature Design: Achieving realistic creature movements and interactions required extensive CGI and animatronics, pushing the limits of the budget.
- Lighting and Cinematography: A desire for a gritty, dark aesthetic complicated visibility and shot composition.
- Rushed Schedule: Limited post-production time affected visual effects quality and narrative polish.

Despite these hurdles, the film aimed to deliver a visceral, fast-paced experience emphasizing the horror elements inherent in both franchises.

Narrative Overview and Thematic Elements

Plot Summary

Alien vs Predator Requiem picks up immediately after the events of the 2004 film, with a Predator ship crash-landing in a small Colorado town. The crash unleashes a Xenomorph embryo that quickly begins to spread and reproduce among the local population. The narrative centers on a small group of survivors—including police officers, civilians, and a special forces team—caught amidst the chaos as the two alien species escalate their conflict.

The film's key plot points include:

- The Predator's attempt to contain the Xenomorph outbreak and retrieve its lost prey.
- The rapid proliferation of the Xenomorphs, leading to a full-blown infestation.

- A subplot involving a young boy, Riley, who becomes a crucial figure in the narrative.
- The final confrontation between the surviving humans, Predators, and Xenomorphs.

The film features a more brutal, less stylized approach to storytelling, emphasizing survival horror and chaos.

Core Themes and Symbolism

Alien vs Predator Requiem explores several recurring themes:

- Human Vulnerability: The film underscores the fragility of human life against alien predators, emphasizing visceral gore and survival instincts.
- Ecological Collapse: The rapid spread of the Xenomorphs mirrors fears of uncontrollable biological outbreaks.
- Predator Conservation: The Predators' mission to contain and eradicate the Xenomorphs reflects their code of honor and hunting ethics.
- Corruption and Decay: The small town's descent into chaos symbolizes societal breakdown under external threats.

However, critics argue that the film's focus on violence and gore often overshadows thematic depth, reducing it to a creature-feature spectacle.

Visual and Technical Analysis

Creature Design and Special Effects

One of the most discussed aspects of Requiem is its creature design:

- Xenomorphs: The film features more aggressive and faster-moving Xenomorphs, with designs emphasizing agility and predatory instincts. The Queen Xenomorph is notably absent, with the focus on smaller, swarm-like creatures.
- Predators: The Predators retain their iconic appearance but are portrayed with less emphasis on their armor and ritualistic gear, highlighting a more brutal, utilitarian look.

The visual effects, primarily CGI, received mixed reviews. While the CGI was ambitious for its time, many critics felt it lacked realism, especially during complex creature interactions.

Filming Techniques and Cinematography

The film employs a gritty, handheld style to evoke immediacy and chaos. The dark lighting schemes reinforce the horror atmosphere but often hinder clarity, making it difficult for viewers to follow fast-

paced action sequences.

Key points include:

- Use of night shoots and limited lighting to conceal effects shortcomings.
- Dynamic camera work during action scenes, creating visceral intensity.
- A deliberate choice to focus on close-quarters combat rather than wide shots, intensifying the sense of claustrophobia.

Reception and Critical Response

Box Office Performance

Alien vs Predator Requiem grossed approximately \$80 million worldwide, modestly successful but considered underwhelming compared to expectations and its predecessor's performance. Its niche appeal and polarizing reception limited broader commercial success.

Critical Analysis

The critical response was predominantly negative, citing several issues:

- **Storytelling Weaknesses:** Critics argued that the plot was thin, predictable, and lacked character development.
- **Excessive Violence:** The film's graphic gore was seen as gratuitous, alienating viewers seeking a balanced horror-action experience.
- **Technical Flaws:** Poor CGI, lighting issues, and inconsistent creature movements detracted from immersion.
- **Tone and Pacing:** The film's relentless pace and focus on chaos left little room for tension-building or emotional engagement.

Despite this, some fans appreciated the film's raw intensity and commitment to horror elements, viewing it as a bold, if flawed, addition to the franchise.

Fan and Franchise Impact

Requiem remains a divisive film among fans. Its reputation has improved somewhat in retrospect, with some viewing it as a bold, uncompromising creature-feature that pushed boundaries, albeit at the expense of narrative coherence.

It also influenced subsequent franchise entries by emphasizing horror and chaos over spectacle, with later media exploring darker, more mature themes.

Legacy and Franchise Significance

Influence on Future Media

While *Requiem* did not spawn direct sequels, its approach to blending horror and sci-fi elements influenced later franchise adaptations, including comic books, video games, and potential reboot ideas.

The film's emphasis on visceral horror and survival themes helped shape the tone of future *Alien* and *Predator* projects, encouraging the exploration of darker narratives.

Controversies and Criticisms

The film's reception sparked debates about franchise fatigue, creative direction, and the balance between horror and spectacle. Many fans and critics feel that *Requiem* sacrificed storytelling for shock value, leading to its mixed reputation.

Some criticisms include:

- The perceived decline in quality compared to earlier entries.
- The film's limited character development, making it difficult to invest emotionally.
- The controversial decision to prioritize gore over storytelling nuances.

However, its boldness and willingness to embrace chaos have earned it a niche following.

Potential for Reboot or Revival

As of 2023, discussions about rebooting or reimagining *Alien vs Predator* have persisted, with some industry insiders citing *Requiem*'s bold approach as an influence. The franchise continues to explore new avenues, balancing horror, action, and mythology.

Conclusion: A Controversial but Significant Entry

Alien vs Predator Requiem stands as a testament to the risks inherent in franchise filmmaking. Its raw, unflinching approach to horror and chaos has garnered both admiration and criticism. While it may not have achieved critical acclaim or box office dominance, its impact on the *Alien* and *Predator* mythos is undeniable, pushing the boundaries of gore, tone, and storytelling within the franchise.

For fans of intense creature horror and those interested in the franchise's evolution, *Requiem* offers a gritty, unpolished glimpse into what happens when these iconic species collide in a universe unrestrained by traditional storytelling constraints. Its legacy endures as a reminder of both the potential and pitfalls of franchise experimentation.

In summary, *Alien vs Predator Requiem* is a deeply polarizing but noteworthy entry that pushes the franchise into darker, more visceral territory. Its production challenges, visual effects, and narrative choices continue to be topics of discussion among fans, critics, and scholars alike, cementing its place as a significant, if flawed, chapter in sci-fi horror history.

Sears - Jonathan Maberry and Louis Ozawa. Inspired by the events of the original *Aliens vs. Predators* movies, graphic novels, and novels, these are the ultimate life-and-death struggles. Including a new story written by Jonathan Maberry and Louis Ozawa (Hanzo from the movie *Predators*) as Hanzo's brother faces the eternal threats of both the Yautja and the Xenomorphs.

alien vs predator requiem: Aliens vs. Predators: Rift War Weston Ochse, Yvonne Navarro, 2022-09-06
When the Predators choose LV-363 for a hunt and seed it with Xenomorph eggs, the result is bizarre alien hybrids and humans trapped between the Predators and their prey. The planet LV-363 teems with exotic life, including a plant growing in the shadows of its deep rifts. The plant's flower yields a valuable narcotic, and people are forced by the cartels to harvest it. When a Yautja (Predator) ship arrives for a hunting ritual, the Predators seed the rifts with Xenomorph eggs. The aliens emerge and the result is bizarre and deadly hybrids, with humans trapped between the Predators and their prey. These deadly Xenomorph hybrids—some of which possess the ability to fly—swarm out of control and may prove more than either the Yautja or the humans can defeat. © 2021 20TH CENTURY STUDIOS

alien vs predator requiem: The Worst Movie Sequels Of All Time Scott Dylan, 2023-07-17
Sequels are not always a bad thing. They don't have to be terrible. We can all think of great sequels.

But for every good sequel there are a host of truly terrible sequels. Sequels to films that didn't even need a sequel, sequels that were rushed into production with no script, sequels so preposterously belated no one could even remember the original film. If there is one constant in the world of film it is unnecessary and terrible sequels. So, let's lift the veil over the most misguided and inept sequels ever produced and explore the worst sequels of all time!

alien vs predator requiem: The Most Dangerous Cinema Bryan Senn, 2013-11-01 People hunting people for sport--an idea both shocking and fascinating. In 1924 Richard Connell published a short story that introduced this concept to the world, where it has remained ever since--as evidenced by the many big- and small-screen adaptations and inspirations. Since its publication, Connell's award-winning *The Most Dangerous Game* has been continuously anthologized and studied in classrooms throughout America. Raising questions about the nature of violence and cruelty, and the ethics of hunting for sport, the thrilling story spawned a new cinematic subgenre, beginning with RKO's 1932 production of *The Most Dangerous Game*, and continuing right up to today. This book examines in-depth all the cinematic adaptations of the iconic short story. Each film chapter has a synopsis, a *How Dangerous Is It?* critique, an overall analysis, a production history, and credits. Five additional chapters address direct to video, television, game shows, and almost dangerous productions. Photographs, extensive notes, bibliography and index are included.

alien vs predator requiem: Predator - The Unofficial Guide to the Movie Franchise Nick Naughton, 2023-10-20 *Predator* is a product of the last great era of Hollywood action films - the eighties. A decade of bone crunching blood splattered foul mouthed blockbuster epics (*Robocop*, *The Terminator*, *Die Hard*, *Commando*) that wouldn't know what a PG-13 rating was if it skewered them with a spear and ripped their spinal column out to keep as a trophy (as the *Predator* is apt to do on occasion). In this book we'll take a deep dive into the original *Predator* and all the sequels it spawned. We'll discuss all of these films in this book and we shall also - of course - discuss the two *AvP* pictures too. We'll look at the background of each film, the development of them, and discuss worked and what didn't in the actual movie.

alien vs predator requiem: Adaptation in the Age of Media Convergence Johannes Fehrle, Werner Schäfke-Zell, 2025-10-01 This collection considers new phenomena emerging in a convergence environment from the perspective of adaptation studies. The contributions take the most prominent methods within the field to offer reconsiderations of theoretical concepts and practices in participatory culture, transmedia franchises, and new media adaptations. The authors discuss phenomena ranging from mash-ups of novels and YouTube cover songs to negotiations of authorial control and interpretative authority between media producers and fan communities to perspectives on the fictional and legal framework of brands and franchises. In this fashion, the collection expands the horizons of both adaptation and transmedia studies and provides reassessments of frequently discussed (BBC's *Sherlock* or the *LEGO* franchise) and previously largely ignored phenomena (self-censorship in transnational franchises, mash-up novels, or YouTube

cover videos).

alien vs predator requiem: *Industrial Society and the Science Fiction Blockbuster* Mark T. Decker, 2016-03-01 Can blockbuster films be socially relevant or are they just escapist diversions to entertain the masses and enrich the studios? Not every successful film contains thoughtful commentary, but some that are marketed as pure entertainment do seriously engage social issues. Popular science fiction films of the late 1970s and early 1980s--such as George Lucas' Star Wars trilogy, Ridley Scott's *Alien* and *Aliens*, and James Cameron's *Terminator* films--present a critique of our engagement with technology in a way that resonates with 1960s counterculture. As challengers of the status quo's technological underpinnings, Luke Skywalker, Ellen Ripley and Sarah Connor echo the once-popular social criticism of philosopher Herbert Marcuse and speak directly to the concerns of people living in a technologically complex society. The films of Lucas, Scott and Cameron made money but also made us think about the world we live in.

alien vs predator requiem: *Cross-Examined Films* Matthew King, 2017-12-06 After spending nearly a quarter of a lifetime watching popular and independent films, Matthew King, RN, makes a point to criticize the Christian church for its lack of engagement with films. He believes that the lack of engagement and the strong denunciation of films only because of their sexual or violent content has lost an entire generation because of the inability to speak the millennial language of popular Hollywood films. With searing prose and biting confrontation, King attempts to engage films through the lens of theology, philosophy, and political analysis to assist the church in identifying positive as well as negative examples of the topics within to better engage an entire generation. Through this investigation, Christians and non-Christians alike will be both enlightened and surprised at what popular films have unconsciously taught them from a young age.

alien vs predator requiem: *Alien Legacies* Nathan Abrams, Gregory Frame, 2023 The 1979 film *Alien* has left an indelible mark on popular culture. Directed by Ridley Scott, at the time known primarily for making advertisements, and starring then-unknown actor Sigourney Weaver in the lead role, it transcended its humble origins to shock and disturb audiences upon its initial release. Its success has led to three direct sequels, two prequels, one mashup franchise, a series of comic books, graphic novels, novelizations, games, and an enormous and devoted fanbase. For forty years, *Alien* and its progeny have animated debate and discussion among critics and academics from a wide variety of fields and methodological perspectives. This book brings together scholars from diverse disciplinary backgrounds to explore *Alien* through a contemporary lens. The chapters here demonstrate the extent to which its effects and reception are deeply multifaceted, with the *Alien* franchise straddling the lines between high and low culture, playing with generic categories, crossing media boundaries, and animating theoretical, critical, and political debates. Chapters touch on female agency and motherhood, the influence of H.R. Giger, the viscosity of *Alien*'s body horror, the narrative tradition of the Female Gothic, the patriarchal gaze in the *Alien* video games, and the rise of in-universe online marketing campaigns. In so doing, the volume aims to debate *Alien*'s legacy, consider its current position within visual culture, and establish what the series means--and why it still matters--forty years since its birth.

alien vs predator requiem: *Film Reboots* Herbert Daniel Herbert, 2020-08-18 Bringing together the latest developments in the study of serial formatting practices - remakes, sequels, series - *Film Reboots* is the first edited collection to specifically focus on the new millennial phenomenon of rebooting. Through a set of vibrant case studies, this collection investigates rebooting as a practice that seeks to remake an entire film series or franchise, with ambitions that are at once respectful and revisionary. Examining such notable examples as *Batman*, *Ghostbusters*, and *Star Trek*, among others, this collection contends with some of the most important features of contemporary film and media culture today.

alien vs predator requiem: *The Ashgate Encyclopedia of Literary and Cinematic Monsters* Jeffrey Andrew Weinstock, 2016-04-01 From vampires and demons to ghosts and zombies, interest in monsters in literature, film, and popular culture has never been stronger. This concise Encyclopedia provides scholars and students with a comprehensive and authoritative A-Z of monsters throughout

the ages. It is the first major reference book on monsters for the scholarly market. Over 200 entries written by experts in the field are accompanied by an overview introduction by the editor. Generic entries such as 'ghost' and 'vampire' are cross-listed with important specific manifestations of that monster. In addition to monsters appearing in English-language literature and film, the Encyclopedia also includes significant monsters in Spanish, French, Italian, German, Russian, Indian, Chinese, Japanese, African and Middle Eastern traditions. Alphabetically organized, the entries each feature suggestions for further reading. The Ashgate Encyclopedia of Literary and Cinematic Monsters is an invaluable resource for all students and scholars and an essential addition to library reference shelves.

alien vs predator requiem: The cultural politics of contemporary Hollywood film Chris Beasley, Heather Brook, 2019-01-21 Adopting and developing a 'cultural politics' approach, this comprehensive study explores how Hollywood movies generate and reflect political myths about social and personal life that profoundly influence how we understand power relations. Instead of looking at genre, it employs three broad categories of film. 'Security' films present ideas concerning public order and disorder, citizen-state relations and the politics of fear. 'Relationalities' films highlight personal and intimate politics, bringing norms about identities, gender and sexuality into focus. In 'socially critical' films, particular issues and ideas are endowed with more overtly political significance. The book considers these categories as global political technologies implicated in hegemonic and 'soft power' relations whose reach is both deep and broad.

alien vs predator requiem: The Aliens Are Here Fraser A. Sherman, 2022-10-10 Aliens: They have taken the form of immigrants, invaders, lovers, heroes, cute creatures that want our candy or monsters that want our flesh. For more than a century, movies and television shows have speculated about the form and motives of alien life forms. Movies first dipped their toe into the genre in the 1940s with Superman cartoons and the big screen's first story of alien invasion (1945's *The Purple Monster Strikes*). More aliens landed in the 1950s science fiction movie boom, followed by more television appearances (*The Invaders*, *My Favorite Martian*) in the 1960s. Extraterrestrials have been on-screen mainstays ever since. This book examines various types of the on-screen alien visitor story, featuring a liberal array of alien types, designs and motives. Each chapter spotlights a specific film or TV series, offering comparative analyses and detailing the tropes, themes and clichés and how they have evolved over time. Highlighted subjects include *Eternals*, *War of the Worlds*, *The X-Files*, John Carpenter's *The Thing* and *Attack of the 50-Foot Woman*.

alien vs predator requiem: The Oxford Handbook of Adaptation Studies Thomas Leitch, 2017-03-17 This collection of forty new essays, written by the leading scholars in adaptation studies and distinguished contributors from outside the field, is the most comprehensive volume on adaptation ever published. Written to appeal alike to specialists in adaptation, scholars in allied fields, and general readers, it harkens back to the foundations of adaptation studies a century and more ago, surveys its ferment of activity over the past twenty years, and looks forward to the future. It considers the very different problems in adapting the classics, from the Bible to *Frankenstein* to Philip Roth, and the commons, from online mashups and remixes to adult movies. It surveys a dizzying range of adaptations around the world, from Latin American telenovelas to Czech cinema, from Hong Kong comics to *Classics Illustrated*, from Bollywood to zombies, and explores the ways media as different as radio, opera, popular song, and videogames have handled adaptation. Going still further, it examines the relations between adaptation and such intertextual practices as translation, illustration, prequels, sequels, remakes, intermediality, and transmediality. The volume's contributors consider the similarities and differences between adaptation and history, adaptation and performance, adaptation and revision, and textual and biological adaptation, casting an appreciative but critical eye on the theory and practice of adaptation scholars--and, occasionally, each other. The *Oxford Handbook of Adaptation Studies* offers specific suggestions for how to read, teach, create, and write about adaptations in order to prepare for a world in which adaptation, already ubiquitous, is likely to become ever more important.

alien vs predator requiem: Alien Roger Luckhurst, 2019-07-25 A legendary fusion of science

fiction and horror, Ridley Scott's *Alien* (1979) is one of the most enduring films of modern cinema - its famously visceral scenes acting like a traumatic wound we seem compelled to revisit. Tracing the constellation of talents that came together to produce the film, Roger Luckhurst examines its origins as a monster movie script called *Star Beast*, dismissed by many in Hollywood as B-movie trash, through to its afterlife in numerous sequels, prequels and elaborations. Exploring the ways in which *Alien* compels us to think about otherness, Luckhurst demonstrates how and why this interstellar slasher movie, this old dark house in space, came to coil itself around our darkest imaginings about the fragility of humanity. This special edition features original cover artwork by Marta Lech.

alien vs predator requiem: *Practice Extended* Robert A. Ferguson, 2016-03-01 Written by a renowned literary critic and legal historian, *Practice Extended* illuminates the intricacies of legal language and thought and the law's relationship to society, literature, and culture. Robert A. Ferguson details how judicial opinions are written, how legal thought and philosophy inform ideas, and how best to appreciate a courtroom novel. With chapters touching on a wide range of subjects, including immigration, eloquence, the U.S. Constitution, and the Supreme Court case over James Joyce's *Ulysses*, *Practice Extended* provides an ambitious argument for the importance of language in law and a much-needed analysis of the often vexed relationship between law and literature. Ferguson challenges the notion of law as a hermetic enterprise only accessible to experts. He reveals the discipline's relationships to history, religion, philosophy, psychology, anthropology, and the visual arts, offering a rich account of how the law has shaped and has been shaped by communal thought. He also recognizes the critical role of literature and other outside views in showcasing the social problems that law takes up. *Practice Extended* reflects Ferguson's crucial role as a pioneer in developing the field of law and literature. His writing reminds us of the need for a critical approach to the law that draws on the insights of literature to better understand political and legal history and the documents, laws, and arguments that shape our present. At the same time, this volume also showcases the ways in which the law has been integrated into works of literature, from *Billy Budd* to contemporary courtroom thrillers.
