answers in genesis uk is a prominent organization dedicated to promoting a biblical worldview through education, resources, and outreach within the United Kingdom. Rooted in the foundational belief that the Bible is historically accurate and scientifically reliable, Answers in Genesis UK aims to equip individuals, families, churches, and schools with compelling evidence supporting a literal interpretation of Scripture. As a branch of the global Answers in Genesis organization, the UK division plays an integral role in fostering faith-based understanding of origins, challenging secular narratives, and providing engaging resources for all ages. Whether you're a parent seeking to teach your children biblical creation, a teacher looking for curriculum resources, or a believer interested in defending your faith, Answers in Genesis UK offers a wealth of tools and information to support your journey.

What is Answers in Genesis UK?

Answers in Genesis UK is part of the larger Answers in Genesis (AiG) network, which was founded in 1994 by Ken Ham. The UK branch emphasizes the importance of biblical authority and provides resources tailored to the cultural and educational context of the United Kingdom. Its mission revolves around three core objectives:

Core Objectives of Answers in Genesis UK

1. To proclaim the authority of the Bible from the very first verse.
2. To defend the biblical account of creation and global flood.
3. To equip Christians to confidently share and defend their faith.

Through these objectives, Answers in Genesis UK seeks to counteract secular ideologies and promote a biblical worldview across various sectors of society.

Key Resources and Offerings of Answers in Genesis UK

Answers in Genesis UK provides a broad range of resources designed to educate, inform, and inspire believers and skeptics alike. Some of the most prominent offerings include:

1. Creation Museum and Ark Encounter

While the original Creation Museum and Ark Encounter are located in the United States, Answers in Genesis UK promotes the importance of these attractions and advocates for their message. The UK branch often collaborates with similar initiatives or hosts traveling exhibits.

2. Educational Resources

Answers in Genesis UK offers comprehensive curricula, lesson plans, and teaching materials suitable for various educational levels, from primary schools to university settings. These include:

- Creation science lesson plans
- Children's activity books
- Teacher training seminars

3. Apologetics and Outreach Events

The organization hosts conferences, seminars, and debates focused on defending biblical creation and addressing contemporary scientific and philosophical challenges to faith.

4. Online Content and Publications

Their website features articles, videos, podcasts, and blog posts that explore questions about origins, science, and faith.

5. Local Church and Community Engagement

Answers in Genesis UK actively partners with churches and community groups to provide training, resources, and evangelistic outreach.

Why is Answers in Genesis UK Important?

In a culture increasingly influenced by secular views on origins and evolution, Answers in Genesis UK offers a vital voice advocating for biblical truth. Its importance can be summarized through several key points:

Addressing Common Challenges

Secular academia often promotes evolution as a fact, dismissing biblical accounts of creation. AiG UK counters this by presenting scientific research that supports a young earth and a literal interpretation of Genesis.

Providing Scientific Evidence for Creation

Many skeptics question the compatibility of faith and science. AiG UK presents evidence from various scientific disciplines—geology, genetics, physics—that support the biblical timeline.

Equipping Believers to Defend Their Faith

In a post-Christian culture, believers need to be prepared to answer questions about origins, dinosaurs, the flood, and other topics. AiG UK's resources empower Christians to confidently share their beliefs.

Promoting Biblical Literacy

Understanding the historical and theological context of Scripture helps believers interpret the Bible accurately and engage thoughtfully with secular perspectives.

How to Engage with Answers in Genesis UK

Whether you're a curious individual, a parent, a teacher, or a church leader, there are numerous ways to get involved with Answers in Genesis UK:

Visit Their Website

The official website is a treasure trove of articles, videos, and resources. It provides answers to common questions about creation, evolution, dinosaurs, and more.

Attend Events and Seminars

AiG UK regularly hosts conferences and events that feature expert speakers, workshops, and Q&A sessions designed to deepen understanding.

Utilize Educational Materials

Schools and homeschool groups can incorporate AiG's curricula into their teaching to provide a biblical perspective on science and history.

Follow on Social Media

Stay updated with the latest news, articles, and event announcements by following AiG UK's social media channels.

Partner with Local Churches

Many churches collaborate with AiG UK to organize outreach events, creation science courses, and evangelistic activities.

Challenges Faced by Answers in Genesis UK

Despite its efforts, Answers in Genesis UK faces several challenges:

Secular Influence in Education

Secular schools and universities often promote evolution as fact, making it difficult for creation-based perspectives to gain acceptance.

Public Misunderstanding of Science and Faith

Many people perceive science and faith as incompatible, requiring AiG UK to clarify misconceptions and demonstrate harmony.

Media Representation

Media outlets may portray creation science negatively or inaccurately, necessitating proactive communication and public relations efforts.

Legal and Cultural Barriers

Legal restrictions on religious expression and cultural shifts away from biblical values can hinder outreach efforts.

How to Support Answers in Genesis UK

Supporting AiG UK's mission can be achieved through various means:

1. Praying for their work and outreach efforts.
2. Donating financially to help develop resources and organize events.
3. Volunteering at events or in local outreach initiatives.
4. Sharing their content to inform others about creation science and biblical truth.
5. Partnering with local churches to integrate creation-based teachings.

Conclusion: The Future of Answers in Genesis UK

Answers in Genesis UK continues to be a vital voice for biblical creation in a culture that often dismisses

the authority of Scripture. By providing scientifically credible evidence, engaging educational resources, and fostering a community of believers committed to defending their faith, AiG UK aims to impact generations to come. As society grapples with questions about origins, purpose, and morality, organizations like AiG UK stand as a steadfast reminder of the truth found in the Bible. Whether through educational initiatives, public outreach, or personal evangelism, Answers in Genesis UK remains committed to equipping believers with the knowledge and confidence to stand firm on God's Word.

Answers in Genesis UK: An In-depth Review of the Faith-Based Educational Organization

Introduction

Answers in Genesis UK (AiG UK) has established itself as a prominent voice within the realm of creation apologetics and biblical education, particularly for audiences seeking to reconcile faith with scientific understanding. As a branch of the larger Answers in Genesis organization based in the United States, AiG UK aims to promote a biblical worldview, provide educational resources, and engage with communities through events, publications, and media. This article offers a comprehensive review of AiG UK's mission, resources, impact, and relevance in today's cultural and educational landscape, providing insights from an expert perspective.

Background and Mission of Answers in Genesis UK

Origins and Foundation

Answers in Genesis UK was launched as a strategic extension of the global organization, founded in 1997 by Ken Ham, with the primary goal of defending the literal interpretation of the Genesis account of creation. While the parent organization in the US has its flagship Creation Museum and Ark Encounter, AiG UK focuses on serving British and European audiences through tailored resources and outreach efforts.

Core Mission

At its core, AiG UK seeks to:

- Promote a biblical worldview as the foundation of all understanding of origins, history, and science.
- Provide educational resources that challenge secular perspectives on evolution and millions of years.
- Equip churches, schools, and families with tools to teach and defend biblical creation.
- Engage in public discourse to counteract secular humanism and promote faith-based explanations of the natural world.

This mission underscores a commitment to integrating faith and learning, emphasizing that science and Scripture are compatible when interpreted correctly.

Educational Resources and Publications

Printed Materials and Literature

AiG UK offers a broad spectrum of educational materials aimed at various age groups, from children to adults. Their publications include:

- Books and Booklets: Covering topics such as the age of the Earth, dinosaurs in the Bible, and the reliability of Genesis.
- Curriculum Resources: Designed for homeschooling, church groups, and Christian schools, emphasizing creation science.
- Tracts and Pamphlets: For evangelism and outreach.

Digital Content and Media

In addition to printed resources, AiG UK maintains a robust digital presence:

- Website: An extensive platform with articles, videos, and downloadable resources.
- YouTube Channel: Features debates, interviews, and teaching sessions addressing scientific and biblical questions.
- Podcasts and Webinars: Offering expert insights into creation science, apologetics, and biblical literacy.

Educational Programs and Events

AiG UK hosts a variety of events aimed at engaging the community:

- Creation Conferences: Bringing together scientists, theologians, and educators.
- School Visits and Workshops: Designed to introduce students to creation science.
- Family and Youth Events: Focused on engaging younger audiences with the biblical worldview.

The Creation Museum and Ark Encounter UK

While the flagship Creation Museum and Ark Encounter are located in the US, AiG UK has plans and collaborations aimed at introducing similar educational and experiential exhibits within the UK. These initiatives serve to:

- Provide immersive experiences that challenge secular narratives.
- Demonstrate the biblical account of Noah's Ark and early Earth history.
- Encourage visitors to explore faith-based perspectives on science.

Though these attractions are still in development or planning stages, their anticipated impact is significant in shaping public understanding of creation science.

Scientific and Theological Perspectives

Reconciliation of Science and Faith

A key aspect of AiG UK's approach is advocating for the compatibility of scientific inquiry and biblical faith. They promote the view that:

- The Bible provides a historical and scientific account of origins.
- The apparent age of the universe can be explained through a young-earth perspective.
- Dinosaur fossils and rock strata are consistent with a global flood rather than millions of years of geological processes.

Criticism and Controversy

AiG UK's stance has been met with criticism from the broader scientific community, which largely supports evolutionary theory and an old-earth perspective. Critics argue that:

- Their interpretation of scientific data is selective and often misrepresents mainstream science.
- Their insistence on a literal Genesis undermines scientific literacy.
- Their materials can be used to promote anti-scientific views in educational settings.

Despite this, AiG UK maintains that their work is rooted in biblical authority and aims to present a consistent worldview.

Impact on Education and Society

Influence on Schools and Churches

AiG UK actively collaborates with churches and homeschooling communities to promote creation-based curricula. Their resources are used in:

- Faith-based schools aiming to integrate science and Scripture.
- Homeschooling families seeking biblical explanations for origins.
- Church youth groups engaging in apologetics.

Public Discourse and Cultural Engagement

AiG UK participates in debates and public forums, advocating for the inclusion of creation science in educational policies. They aim to:

- Challenge secular narratives dominating science curricula.
- Promote the idea that faith-based perspectives deserve a place in scientific discussions.
- Encourage a worldview where biblical creation is central to understanding reality.

Criticism and Challenges

Their influence faces resistance from secular educators, scientific organizations, and policymakers who view their approach as scientifically untenable. This tension underscores ongoing debates about science education, religious freedom, and worldview diversity in the UK.

Relevance and Future Outlook

Growing Audience and Digital Reach

With increasing interest in alternative explanations to evolution, AiG UK's digital outreach continues to grow. Their online presence allows them to reach younger generations and skeptics, providing accessible resources to explore creationist perspectives.

Partnerships and Collaborations

AiG UK collaborates with various Christian organizations, educational institutions, and Christian media outlets. These partnerships aim to:

- Expand the reach of creation science.
- Develop new resources tailored for the UK context.
- Influence public opinion and policy debates.

Challenges Ahead

The future of AiG UK involves navigating cultural shifts towards secularism, scientific literacy, and educational reform. Maintaining credibility and relevance will depend on their ability to engage with scientific discourse respectfully while upholding their biblical convictions.

Conclusion

Answers in Genesis UK stands as a significant entity within the landscape of faith-based education and apologetics. Its comprehensive resources, strategic outreach, and unwavering commitment to promoting a biblical worldview make it a compelling organization for those seeking to explore the intersection of science and faith from a creationist perspective. While its views remain controversial within the broader scientific community, AiG UK's influence continues to shape discussions around biblical creation, education, and cultural engagement in the UK and beyond.

For individuals and institutions aligned with its mission, AiG UK offers a wealth of resources and a platform for advocating a worldview grounded in biblical authority. As debates around science, religion, and education persist, AiG UK is poised to remain a pivotal voice in shaping the dialogue for years to come.

answers in genesis uk: *The Seven Church Ages* Kenneth Allan Clark , 2021-06-25 The Seven Church Ages brings us to examine the characteristics of seven real churches that existed around 1,900 years ago. Thyatira is the fourth-Church age. This Church age began with the reign of Pope Gregory the Great in 594 A.D. (he was the first Pope to exercise authority over both the state and the Church) and this age ended in 1517 (on the day Martin Luther nailed his document of The 95 theses to the church door in Wittenberg). During this Church age, most of the Church in the West and most of the Western European kings, were under the rule of the Pope in Rome. This age is also known as the dark ages, because the common people of this age were not allowed to have any personal copies of the Bible, and those Bibles that were available in Western Europe were all in Latin, a language which most commoners could neither read nor understand. Author Kenneth Allan Clark. The findings in this book will expand your knowledge and understanding of the letters to the seven churches found in Revelations, and give witness and testimony from Jesus Christ's earlier teachings, in kingdom parables. The Seven Church Ages is one of Kenneth Allan Clark's most popular manuscripts, totaling over 24,000 website hits within 5 years. Published by Just Restoration Online © Copyright 2021.

answers in genesis uk: *Don't Miss the Boat* Paul F. Taylor, 2013-06-24 Here is your comprehensive guide to creationist thinking on the Flood in an easy-to-understand style! Get your facts and misunderstandings about the Flood straightened out! Study the history of the immediate post-Flood world, as well as modern considerations of the histories of earth sciences Read four fictional short stories that place the reader back in time just before the Flood-showing a world filled with non-belief and the few who reached out to save other with God's truth. Don't Miss the Boat provides various perspectives on the biblical account of the Great Flood that speak to both the technical and scientific evidence we see around the world today. This book contains information for the layman who wants to know the basics, as well as the solid evidence that can be shared with anyone. Theological considerations, historical essays, and scientific implications are included, as well as fictional representations that convey the emotional power of God's judgement on a wicked pre-Flood world, rounding out this unique resource.

answers in genesis uk: Adam: First and the Last Simon Turpin, 2023-07-28 Are you prepared to defend the biblical account of Adam as a living man formed by God? Many theologians, pastors, and philosophers now teach that the Adam we find in Genesis was a myth, story, or parable. In Adam: First and the Last, Simon Turpin – Ex. Director of Answers in Genesis, UK/ Europe, reveals why understanding Adam to have been the first man created is critical for a consistent theological understanding of the biblical message of creation, the fall, and redemption. “If you deny the ‘First Adam,’ not only do you deny the sufficiency of Scripture and undermine its authority, but you ultimately attack the life, teaching, and person of the ‘Last Adam,’ our Lord Jesus Christ.” Ken Ham, CEO of The Ark Encounter, Creation Museum, & Answers in Genesis The very teachings of Jesus regarding creation and the flood are being attacked on the basis that, because of His human nature, there was error in some of His teaching. The theory of biological evolution, though lacking evidence, is why many reject Adam as a historical individual or see him as anything other than the originating

head of the human race. The church is facing a crisis because too few of her people and leaders understand the consequences of combining the Bible and evolution. Sadly today, more and more evangelical Christian scholars are having to redefine passages of Scripture because they have adopted the idea of evolution and millions of years into their thinking. These questions may be the biggest doctrinal issues facing our generation, and the church's attitude toward them could be a defining moment in Christianity. Adam: First and the Last will prepare you, your family, and your church to stand against today's false teachers and strengthen your faith in the infallible Word of God. Turpin offers a true biblical apologetic that will be used for decades and even centuries to help the Body of Christ hold fast to their confession of faith without wavering (Hebrews 10:23).

Kevin Logan has written a readable, intelligent and entertaining guide to the debate, and to the issues behind it. Are the creationists out of their depth? Or is Darwin about to join Marx and Freud in the heap of fallen pillars of modernity? This book sets out the implications of the latest research, to help readers form their own opinions.

The lecturers have produced articles on a variety of topics relating to biblical doctrine, practical theology, church history and biblical language. In this volume a piece has also been included from 19th century Free Church Professor, George Smeaton (1814-1889).

answers in genesis uk: *God's Agents* Matthew Engelke, 2013-10-05 A study of how religion goes public in today's world. Based on over three years of anthropological research, Matthew Engelke traces how a small group of socially committed Christians tackles the challenge of publicity within what it understands to be a largely secular culture.

answers in genesis uk: *American Creationism, Creation Science, and Intelligent Design in the Evangelical Market* Benjamin L. Huskinson, 2020-08-19 'In this compelling and thoroughly researched book, Benjamin Huskinson demonstrates that just as there is broad diversity within evangelicalism, so too there is broad diversity among "creationists." His work on the Intelligent Design movement is superb, and he prompts me to rethink my long held conviction that Intelligent Design is merely the most recent evolutionary form of creationism. This is a very fine book.'

—Randall Balmer, Author of *Evangelicalism in America* and writer-host of "In the Beginning": The Creationist Controversy 'Benjamin Huskinson's study of American creationism will be an eye-opener for those who sit on the opposite side of the evolution debate. He shows that far from being a unified assault on Darwinism, the campaign was actually a sequence of separate movements launched by rival evangelical groups competing for influence within their own community.'

—Peter Bowler, Author of *Monkey Trials and Gorilla Sermons: Evolution and Christianity from Darwin to Intelligent Design* 'A thoughtful and careful analysis that throws as much light on the diversity of American evangelicalism as it does on Christian attitudes to evolutionary theory. Huskinson offers a smart analysis of religious anti-evolution movements which neither demonises nor ridicules but seeks to understand the tenets and beliefs of a movement far more complex and multivalent than most of us appreciate. A must-read for science communicators.'

—Philippa Levine, Walter Prescott Webb Chair in History and Ideas, University of Texas at Austin, USA This book explores the cultural history of anti-evolution efforts in the United States from 1960 to the present, refuting several popular narratives about creation science in evangelical America. Separating theological terms like "creationism" from cultural movements such as "creation science" and "intelligent design" in an evangelical marketplace of ideas, it contests assumptions that evangelical movements against evolution are homogeneous, and it argues that intelligent design is not an off-shoot of the creation-science movement. It demonstrates that the rationale of creationist groups is relational as well as ideological, showing that the social function of American creationism, which is to establish

the boundaries of 'orthodox' religion, is key to understanding the competing strategies of creation-science organisations.

answers in genesis uk: In the Beginning Michael Lienesch, 2007-04-23 The current controversy over teaching evolution in the public schools has grabbed front-page headlines and topped news broadcasts all across the United States. In the Beginning investigates the movement that has ignited debate in state legislatures and at school board meetings. Reaching back to the

origins of antievolutionism in the 1920s, and continuing to the promotion of intelligent design today, Michael Lienesch skillfully analyzes one of the most formidable political movements of the twentieth century. Applying extensive original sources and social movement theory, Lienesch begins with fundamentalism, describing how early twentieth-century fundamentalists worked to form a collective identity, to develop their own institutions, and to turn evolution from an idea into an issue. He traces the emerging antievolution movement through the 1920s, examining debates over Darwinism that took place on college campuses and in state legislatures throughout the country. With fresh insights and analysis, Lienesch retells the story of the 1925 Scopes monkey trial and reinterprets its meaning. In tracking the movement from that time to today, he explores the rise of creation science in the 1960s, the alliance with the New Christian Right in the 1980s, and the development of the theory of intelligent design in our own time. He concludes by speculating on its place in the politics of the twenty-first century. *In the Beginning* is essential for understanding the past, present, and future debates over the teaching of evolution.

answers in genesis uk: *In Six Days* John Ashton, 2001-01-01 Why would any educated scientist with a PhD advocate a literal interpretation of the six days of creation? Why, indeed, when only one in three Americans believes the Bible is the actual word of God and is to be taken literally, word for word according to a recent Gallup poll. Science can neither prove nor disprove evolution any more than it can creation. Certainly there are no human eyewitness accounts of either. However, certain factors are present today which are capable of swaying one's beliefs one way or the other. In this book are the testimonies of fifty men and women holding doctorates in a wide range of scientific fields who have been convicted by the evidence to believe in a literal six-day creation. For example, meet: The geneticist who concludes that there must have been 150 billion forerunners of modern man in order for the natural selection required by evolution to have taken place in the development of man. The evidence for such vast numbers of prehistoric man is in dire shortage. The orthodontist who discovered that European museum fossils of ancient man have been tampered with to adhere to evolution theories. The geologist who studied under the late Stephen Jay Gould and literally cut the Bible to pieces before totally rejecting evolution. All fifty of these scientists, through faith and scientific fact, have come to the conclusion that God's Word is true and everything had its origin not so very long ago, in the beginning, *In Six Days*.

answers in genesis uk: *The Ethics of Courage* Jacques M. Chevalier, 2023-11-20 This two-volume work examines far-reaching debates on the concept of courage from Greek antiquity to the Christian and mediaeval periods, as well as the modern era. Volume 1 begins with Homeric poetry and the politics of fearless demi-gods thriving on war. The tales of lion-hearted Heracles, Achilles, and Ulysses, and their tragic fall at the hands of fate, eventually give way to classical views of courage based on competing theories of rational wisdom and truth. Fears of the enemy and anxieties about suffering and death are addressed through the lenses and teachings of medicine, geography, military history, moral philosophy, and metaphysics. For early Christian thinkers, the ethics of fear, fate, and fealty to the Almighty supplant the voice of reason and the wisdom of virtue. Much of Christian doctrine's history is a long journey towards bridging the gap between Greek philosophy and devotion to God and spirits in heaven. Some Church Fathers attempt to dispel the fear of suffering through a joyful craving for martyrdom and the eternal blessings that follow. Others show openness to one or more of the following principles: the abstractions of moral philosophy, the metaphysics of Gnostic enlightenment, the gift of free will and intentionality, the growth of church authority and hegemony, and the intrinsic worth of life on Earth. Augustine, Ambrose, Cassian, and Chrysostom play a central role in revisiting the foundations of Christian fortitude along some or all of these lines. They lay the groundwork for the scholastic adaptations of faith-based rationalism proposed by Peter Lombard, Philip the Chancellor, Albert the Great, and Thomas of Aquinas. The mediaeval period ends with church dissidents and Protestant Reform leaders condemning Rome's corruption and calling for a return to early Christian faith and the courage of godly fear, submission, suffering, and fate.

answers in genesis uk: *Why God?* David True, 2018-07-26 For more than 150 years, a cold war

has engulfed the world. Two feuding factions contend, not for military dominance, but for cultural sovereignty. Those caught in the middle are forced to choose sides. It is only a matter of time until this cold war escalates into a violent conflict. The victorious will have supreme rule over the world. The defeated will be utterly eradicated. Whose side will you choose? Do you think this is just some fictitious war story? Think again. This is real life. On one side is religion. On the other is conventional science and logic. These two sides fight for the right to define what is true. Many people are forced every day to decide which one is right. Who, if any, is correct? What is the true beginning of the universe? How did life really begin? How have we as a people gotten to the current state that we are in? What is in our future? These questions, and more, are at the forefront of the conflict. If the truth is ignored, the consequences could be dire. We cannot afford to just simply look the other way. The line has been drawn, and a side must be chosen. The evidence is available for those that are willing to listen and understand. Inside, you will find what the real truth is; a truth that can truly set you free.

answers in genesis uk: Traced Nathaniel Jeanson, 2022-03-01 What happened to the ancient Egyptians? The Persians? The Romans? The Mayans? ARE WE THEIR DESCENDANTS? Recent genetic discoveries are uncovering surprising links between us and the peoples of old—links that rewrite race, ethnicity, and human history. Today's Native Americans descend from Central Asians who arrived in the early A.D. era. Abraham, Isaac, and Jacob still have clearly identifiable descendants, albeit rare ones. Every people group on earth can genetically trace their origins to Noah and his three sons.

answers in genesis uk: Gareth Wilson, 2010-07 Religion is a duplicitous invention of primitive humans, diametrically opposed to our moral intuition, and driven by belief in gods whose existence is neither evident nor probable. These are just some of the damning conclusions reached by Gareth Wilson within his pulsating assessment of organised faith. Sweeping aside the punditry of religious apologists and their critique of previous atheist works, *The Plain Truths of Religion* is the most extensive and full-blooded summation of both the nature and purpose of humankind's greatest belief systems. As such, this piece is as raw as it is incisive, and certainly not a read for the faint-hearted.

answers in genesis uk: The Sphere of Influence Edward Hendrie, 2019-07-07 This book is a sequel to *The Greatest Lie on Earth* (Expanded Edition): Proof That Our World Is Not a Moving Globe. It will primarily focus on the infiltration into the church of the superstitious myth of heliocentrism and how that infiltration has served to undermine the gospel. The gospel is the entire Holy Bible, not just some of it. Matthew 4:4. Christian belief is an all or nothing proposition. "All scripture is given by inspiration of God, and is profitable for doctrine, for reproof, for correction, for instruction in righteousness." 2 Timothy 3:16. God's account of his creation is part and parcel of the gospel. A person with genuine faith believes what Jesus said about both heavenly and earthly things. "If I have told you earthly things, and ye believe not, how shall ye believe, if I tell you of heavenly things?" John 3:12. Jesus is God. Jesus created all things in heaven and on earth. See Colossians 1:16-18. God has revealed himself through his creation. [T]hat which may be known of God is manifest in them; for God hath shewed it unto them. For the invisible things of him from the creation of the world are clearly seen, being understood by the things that are made, even his eternal power and Godhead; so that they are without excuse. Romans 1:19-20. If men have a misunderstanding of God's creation, they will also have a misunderstanding of who God is. If people believe in a creation that does not exist, they consequently also believe in a creator that does not exist. It is essential, therefore, to have an accurate understanding of God's creation. God did not make a movable, spherical earth. If men believe in a heliocentric creation, they will necessarily believe in a heliocentric creator. A heliocentric creation does not exist. So also, a heliocentric creator does not exist. A heliocentric creator is a false god. We have been warned to avoid the preaching of a false gospel, which presents a false Jesus. For if he that cometh preacheth another Jesus, whom we have not preached, or if ye receive another spirit, which ye have not received, or another gospel, which ye have not accepted, ye might well bear with him. 2 Corinthians 11:4.

answers in genesis uk: When Christians Roamed the Earth Jack Cuzzo, 2002-01-01

Bringing to light the harmful effects of evolutionary thought on the Church, and society in general, this team of veteran creationists shows readers in shocking detail how Darwin started us down the slippery slope. With insightful commentary on a variety of topics - the Bible as "myth"; UFO's and paranormal interest; New Age spirituality; studies in man's origin; and evolution and pop culture; this book will raise issues rarely thought about in Christian circles. "All flesh is not the same flesh: but there is one kind of flesh of men, another flesh of beasts, another of fishes, and another of birds." - Paul of Tarsus
