

enemy of the world doctor who

Enemy of the World Doctor Who is a phrase that resonates deeply within the expansive universe of the British science fiction series Doctor Who. Throughout its storied history, the show has introduced a multitude of villains and antagonists, but few have left as lasting an impression as the formidable enemy known as the Doctor's greatest adversary, the Master, and the various other enemies he has faced over the decades. This article delves into the most notorious enemies of the Doctor, with a particular focus on the enemies of the Doctor Who universe, exploring their origins, characteristics, and impact on the series.

Understanding the Enemies of Doctor Who

Doctor Who, since its debut in 1963, has been renowned for its imaginative storytelling and diverse array of villains. These enemies serve as the primary antagonists, challenging the Doctor's wisdom, morality, and resilience. They are integral to the series' narrative depth and have become cultural icons in their own right.

The Master: The Doctor's Nemesis

One of the most iconic enemies of the Doctor is the Master, a Time Lord like the Doctor himself, who turned to evil and became a recurring antagonist.

- **Origins:** The Master was introduced in the classic series in 1971, portrayed initially by Roger Delgado. His character is a reflection of the Doctor but embodies chaos and destruction.
- **Characteristics:** The Master is cunning, manipulative, and highly intelligent, often wielding advanced technology and possessing a mastery of psychic powers.
- **Motivations:** Unlike the Doctor, whose motivations are rooted in curiosity and compassion, the Master seeks power, chaos, and often, revenge.
- **Notable Storylines:** Highlights include The Deadly Assassin, The Keeper of Traken, and the more recent The End of Time, where his complex relationship with the Doctor is explored in depth.

The Daleks: The Series' Most Infamous Villains

Arguably the most recognizable enemies of Doctor Who are the Daleks, a race of mutants encased in tank-like mechanical armor.

- **Origins:** Created by writer Terry Nation, first appearing in 1963, Daleks quickly became the series' signature villains.
- **Characteristics:** Ruthless, xenophobic, and relentless, Daleks are driven by their desire to exterminate all non-Dalek life forms.
- **Philosophy:** Their famous catchphrase, "Exterminate!", encapsulates their genocidal mindset.
- **Impact on Series:** Daleks have appeared in almost every era of the series, symbolizing the ultimate evil and the dangers of unchecked technological advancement.

The Cybermen: The Cybernetic Menace

The Cybermen are another recurring enemy, representing the terrifying vision of forced technological evolution.

- **Origins:** Debuting in 1966, the Cybermen originated from the planet Mondas, a twin of Earth, and later evolved into a more advanced version in The Cybermen story arc.
- **Characteristics:** Cybermen are humanoids who have had their emotions and individuality stripped away, replaced with cybernetic parts.
- **Goals:** Their primary aim is to convert other species into Cybermen, spreading their cold, logical empire across the galaxy.
- **Themes:** The Cybermen symbolize fears surrounding loss of humanity and overreach of technology.

The Weeping Angels: The Creepiest Enemies

Diverging from the more mechanical enemies, the Weeping Angels are among the scariest and most psychologically disturbing villains.

- **Origins:** First appearing in the 2007 episode "Blink," these statues appear to be stone angels but become deadly when unobserved.
- **Characteristics:** They move incredibly fast when not observed and can send victims back in time by touching them.
- **Symbolism:** They represent the fear of being watched or judged and are a perfect example of horror within science fiction.

- **Impact:** Their unique method of attack and eerie silence make them memorable and terrifying foes.

Other Notable Enemies in the Doctor Who Universe

While the Master, Daleks, Cybermen, and Weeping Angels are some of the most prominent, the series has introduced many other villains and enemies that have played crucial roles in various story arcs.

Sontarans

- Clonally bred warriors with a strong sense of honor but a penchant for warfare.
- Their appearance is characterized by potato-like, robust bodies and helmets resembling a medieval knight's visor.

Silence

- A mysterious alien species that can make people forget them immediately after they look away.
- They play a pivotal role in the series' overarching storyline involving the Silence and the question "Doctor Who?"

The Macra

- Giant, crab-like creatures that control a colony beneath the sea, representing a threat of mind control and oppression.

The Evolution of Doctor Who Enemies Over Time

Doctor Who's enemies have evolved significantly since the series' inception, reflecting changing themes and technological advancements.

Classic Series

During the classic era (1963–1989), enemies like the Daleks and Cybermen dominated the narrative, often representing fears of war, nuclear destruction, and technological dehumanization.

Revived Series

Since the revival in 2005, new enemies like the Weeping Angels, the Silence, and the Zygons have been introduced, emphasizing horror, psychological threats, and political allegories.

Modern Villains and New Threats

The series continues to innovate with enemies that reflect contemporary anxieties, including environmental disaster, surveillance, and artificial intelligence.

Significance of Doctor Who Enemies in Popular Culture

The enemies of Doctor Who have transcended the series, becoming symbols of various societal fears and ethical dilemmas.

Impact on Fan Culture

Many villains, especially the Daleks and Cybermen, have become cultural icons, inspiring merchandise, spin-offs, and fan fiction.

Influence on Science Fiction

Doctor Who's enemies have influenced countless other sci-fi works, emphasizing themes of technology, morality, and existential threats.

Memes and Parodies

Villains like the Daleks and the Weeping Angels have been featured in numerous parodies, highlighting their recognizability and cultural significance.

Conclusion: The Legacy of Doctor Who's Enemies

The enemies of Doctor Who are more than mere antagonists; they embody complex themes, societal fears, and philosophical questions. From the relentless Daleks to the terrifying Weeping Angels, each adversary challenges the Doctor in unique ways, driving compelling stories that have captivated audiences for decades. Their enduring presence in popular culture underscores the series' ability to blend science fiction, horror, and moral inquiry, making Doctor Who a timeless and influential franchise.

Whether as symbols of technological hubris, fears of loss of humanity, or existential dread, the enemies of Doctor Who continue to inspire and terrify, ensuring their place in the annals of science fiction history.

Frequently Asked Questions

Who is the 'Enemy of the World' in Doctor Who?

In Doctor Who, 'Enemy of the World' is a title used in various contexts, but it most notably refers to the episode 'The Enemy of the World,' a serial from the Second Doctor's era where the Doctor confronts international threats and a villain named Salamander, who poses a significant danger to the world.

What is the plot of the Doctor Who serial 'The Enemy of the World'?

In 'The Enemy of the World,' the Second Doctor encounters Salamander, a diplomat and scientist who has assumed power in a political coup. Salamander plans to manipulate global events for his own gain, threatening world stability. The Doctor works to expose Salamander and prevent his plans from succeeding.

Who played the villain Salamander in 'The Enemy of the World'?

Salamander was portrayed by actor Patrick Troughton, who also played the Second Doctor. In this serial, he played the antagonist, showcasing his versatility by portraying both the Doctor and the villain.

Is 'The Enemy of the World' available to watch today?

Yes, 'The Enemy of the World' is available in various formats, including DVD and digital download. Originally, some episodes were missing, but most have been recovered or reconstructed, allowing fans to view the serial today.

Why is 'The Enemy of the World' considered a significant serial in Doctor Who history?

It's considered significant because it features Patrick Troughton in a dual role, showcases political intrigue and espionage themes, and is one of the few serials where the Doctor faces a human antagonist who is also played by the Doctor himself, highlighting its unique storytelling and historical value.

Enemy of the World Doctor Who

Introduction

"Enemy of the World Doctor Who" is a phrase that, at first glance, seems to evoke the intriguing intersection of the infamous Doctor Who universe and the enigmatic characters who challenge it. However, upon closer examination, it becomes evident that this phrase encapsulates a fascinating, layered narrative that warrants a detailed investigation. The phrase conjures themes of villainy, identity, and the complex morality woven into the fabric of the long-standing British sci-fi series. In this article, we delve into the origins, character archetypes, narrative significance, and cultural impact of the "Enemy of the World" within the Doctor Who universe, while exploring how the concept of the "Doctor" as both hero and foil influences storytelling.

Background: The "Enemy of the World" in Doctor Who Lore

Origins and Context

The phrase "Enemy of the World" is most prominently associated with the classic Doctor Who serial titled "The Enemy of the World," which originally aired in 1968 as part of the show's fifth season. This serial is notable for featuring the Second Doctor, played by Patrick Troughton, and introduces a compelling antagonist—Salamander, a rogue scientist and dictator.

Key elements of the serial include:

- Salamander's Character: Portrayed as a charismatic and manipulative figure, Salamander is a master of disguise and political intrigue, posing as a benevolent leader while secretly orchestrating a coup.
- Plot Summary: The Second Doctor and his companions find themselves embroiled in Salamander's schemes, which involve clandestine operations on the South Atlantic island of Dulkis and a plan to influence global politics.
- Themes: Power, deception, identity, and the nature of heroism versus villainy.

Significance in the Series

The serial is often regarded as a standout for its political commentary and complex antagonist. Salamander embodies the archetype of the “enemy of the world,” a figure who claims to serve the greater good but ultimately seeks personal power at the expense of others.

The Archetype of the Enemy in Doctor Who

The Villain as a Reflection of Society

Doctor Who has a long tradition of crafting villains who are not merely evil for evil's sake but serve as reflections or critiques of societal issues.

- Salamander: Represents unchecked ambition and the danger of authoritarianism.
- The Master: An recurring arch-nemesis embodying chaos, manipulation, and the corrupting influence of power.
- Daleks and Cybermen: Dehumanization and the loss of individuality.

The Duality of the Doctor and the Enemy

The dynamic between the Doctor and his enemies often explores themes of morality, identity, and the blurred line between hero and villain. The Doctor, typically portrayed as a benevolent and resourceful figure, confronts enemies who are often mirror images of what he could become under different circumstances.

Key questions include:

- What makes someone an enemy of the world?
- Can enemies be redeemed or understood?
- How do the Doctor's actions influence the perception of villainy?

The “Doctor” as an Enigmatic Hero and Its Cultural Significance

The Character of the Doctor

The Doctor is a complex character—an alien Time Lord who travels through time and space, striving to protect innocent life and uphold moral integrity. However, the Doctor’s methods and decisions sometimes challenge traditional notions of heroism.

Attributes of the Doctor:

- Compassionate yet occasionally morally ambiguous.
- Inventive and resourceful.

- A symbol of hope and resilience.

The Doctor as an “Enemy” or “Friend”

In certain story arcs, the Doctor is perceived as an enemy—either by rivals, by his enemies, or even by society at large. This dual perception underscores the series’ exploration of the moral ambiguity inherent in heroism.

Deep Dive: Notable “Enemies of the World” in Doctor Who

Salamander (The Enemy of the World, 1968)

Character Analysis

Salamander is a quintessential “enemy of the world,” manipulating political systems from the shadows. His charismatic facade masks his ruthless pursuit of power.

Traits include:

- Master of disguise.
- Ruthless strategist.
- Charismatic leader.

Impact and Legacy

Salamander’s storyline is notable for its political allegory and the exploration of totalitarian regimes. His character prompted discussions about the nature of authority and deception.

The Master

Overview

A recurring villain and the Doctor’s longtime rival, The Master embodies chaos and moral ambiguity.

Key Characteristics:

- Charismatic and manipulative.
- Possesses a similar moral compass to the Doctor, highlighting the duality.
- Often seeks dominance or destruction.

Daleks and Cybermen

Though not “enemies of the world” in the political sense, these extraterrestrial threats symbolize existential dangers and loss of humanity.

Narrative and Thematic Significance

Political Allegory and Social Commentary

The serial “The Enemy of the World” and similar storylines use alien and human villains to critique political regimes, societal complacency, and the abuse of power.

Identity and Disguise

Characters like Salamander and The Master often employ disguise and deception, raising questions about authenticity, trust, and perception.

Morality and Redemption

Doctor Who often explores whether enemies are inherently evil or products of circumstance, emphasizing themes of redemption and understanding.

Critical Reception and Cultural Impact

Reception of “The Enemy of the World”

The serial received praise for its complex villain and political themes, standing out among the classic series.

Influence on Popular Culture

The concept of the “enemy of the world” has permeated various media, inspiring characters who challenge authority and moral boundaries.

Modern Reinterpretations

Recent series and audio dramas continue to explore these themes, with villains embodying societal fears and moral dilemmas.

Conclusion

“Enemy of the world Doctor Who” encapsulates a rich tapestry of storytelling that combines political allegory, complex character archetypes, and moral ambiguity. The serial “The Enemy of the World” remains a seminal work that exemplifies how Doctor Who uses its villains not merely as obstacles but as mirrors reflecting societal fears, personal moral struggles, and the enduring question of what it means to be a hero or an enemy. The Doctor himself embodies this duality—simultaneously protector and challenger—making the series a profound exploration of morality, identity, and the enduring battle between good and evil.

As Doctor Who continues to evolve, the themes embedded within “enemy of the world” narratives

remain relevant, inviting viewers and critics alike to consider the nature of power, deception, and the true meaning of heroism in an ever-changing universe.

Enemy Of The World Doctor Who

Doctor Who tries to stop Salamander, a ruthless despot who is trying to gain control of the entire planet

enemy of the world doctor who: *Doctor Who and the Enemy of the World* Ian Marter, 1981

enemy of the world doctor who: *A Critical History of Doctor Who on Television* John Kenneth Muir, 2015-09-15 Since its inception in November 1963, the British science fiction television series Doctor Who has exerted an enormous impact on the world of science fiction (over 1,500 books have been written about the show). The series follows the adventures of a mysterious Time Lord from the distant planet Gallifrey who travels through time and space to fight evil and injustice. Along the way, he has visited Rome under the rule of Nero, played backgammon with Kublai Khan, and participated in the mythic gunfight at the O.K. Corral. Predating the Star Trek phenomenon by three years, Doctor Who seriously dealt with continuing characters, adult genre principles and futuristic philosophies. Critical and historical examinations of the ideas, philosophies, conceits and morals put forth in the Doctor Who series, which ran for 26 seasons and 159 episodes, are provided here. Also analyzed are thematic concepts, genre antecedents, the overall cinematography and the special effects of the long-running cult favorite. The various incarnations of Doctor Who, including television, stage, film, radio, and spin-offs are discussed. In addition, the book provides an extensive listing of print, Internet, and fan club resources for Doctor Who.

enemy of the world doctor who: *The Doctors Who's Who - The Story Behind Every Face of the Iconic Time Lord: Celebrating its 50th Year* Craig Cabell, 2013-11-04 Doctor Who is the world's longest-running science fiction television series, and has had children hiding behind sofa's since it was first broadcast in 1963. Eleven actors have played the famous Time Lord, starting with William Hartnell, and it has been a career landmark for all of them. Indeed, no other role in television history is as iconic, demanding, or as anticipated by its legions of fans as that of the famous time traveller with two hearts. Find out: * Who was a bouncer for The Rolling Stones before taking control of the Tardis. * Who was nearly blown up in the Second World War aboard HMS Hood. * Who had a fondness for woolly hats and had a grandson who would become Harry Potter's nemesis. * Who played a transvestite barmaid before becoming a Doctor Who heart-throb. Go back in time and read the human story behind a TV legend.

enemy of the world doctor who: *The Doctor Who Programme Guide* Jean-Marc Lofficier, Jean-Marc, Randy Lofficier, 2003-05 The Doctor Who Programme Guide is the complete guide to every Doctor Who story shown on television. The stories are listed in order of broadcasting, starting with the first episode broadcast in 1963. Each entry includes the storyline, the cast list, and the names of the producer, script editor, writer and director, and the details of novelizations, video and audio cassette releases. This indispensable guide first appeared over twenty years ago, and immediately established itself as the single, most important reference work about Doctor Who. THE bible to an entire generation of [Doctor Who] fans on both sides of the Atlantic. --Andrew Pixley, Celestial Toyroom A real treat for Doctor Who buffs. --David McDonnell, Starlog It sits invaluablely upon every fan's bookshelf and is a constant source of reference. --Gary Russell, Doctor Who Monthly A remarkable work of...dedicated scholarship. --Barry Letts, Producer, Doctor Who

enemy of the world doctor who: *Doctor Who: 365 Days of Memorable Moments and Impossible Things* Justin Richards, 2016-03-29 23 November 1963: The first-ever episode of Doctor Who—"An Unearthly Child"—is broadcast. 21 July 1969: Silence will fall. 23 August 2014: "Deep

Breath" is Peter Capaldi's first full episode as the Twelfth Doctor. 3 March 2472 The Master tracks down the Doomsday Weapon. For over half a century, Doctor Who has entertained and enthralled fans with the adventures of the Doctor. From the first glimpse of a police telephone box in a junkyard to the fall of Gallifrey, Doctor Who has provided a near-inexhaustible list of indelible memories. Doctor Who: 365 Days is a unique and captivating chronicle of drama or humor, terror or joy, for each and every day of the year. Revisiting classic battles, iconic characters, game-changing plot twists, and more, it's a fascinating portrait of the Whoniverse and an essential addition to any fan's collection.

enemy of the world doctor who: Unofficial Doctor Who Cameron K. McEwan, 2015-04-06 Unofficial Doctor Who covers the past fifty years of Doctor Who, including doppelgangers, regenerations, Gallifrey adventures, highest-rated episodes, behind-the-scenes info, and loads more.

enemy of the world doctor who: 100 Objects of Doctor Who Philip Bates, 2025-01-17 100 Objects of Dr Who is a celebration of everyone's favourite sci-fi show. Perfect for fans, no matter your mileage. It is ingeniously structured as a choose your own adventure-style tour around a Doctor Who museum floating in outer space. Irreverent yet exhaustive, this is a reference book with a twist!

enemy of the world doctor who: The Humanism of Doctor Who David Layton, 2014-01-10 From 1963 to 1989, the BBC television program Doctor Who followed a time-traveling human-like alien called The Doctor as he sought to help people, save civilizations and right wrongs. Since its 2005 revival, Doctor Who has become a pop culture phenomenon surpassing its classic period popularity and reaching a larger, more diverse audience. Though created as a family program, the series has dramatized serious themes in philosophy, science, religion, and politics. Doctor Who's thoughtful presentation of a secular humanist view of the universe stands in stark contrast to the flashy special effects central to most science fiction on television. This examination of Doctor Who from the perspective of philosophical humanism assesses the show's careful exploration of such topics as justice, ethics, good and evil, mythology and knowledge.

enemy of the world doctor who: *The Doctor Who Error Finder* R.H. Langley, 2024-10-14 In its long television run, the low-budget but beloved science fiction serial Dr. Who featured numerous bloopers that producers could not afford to reshoot. Today, spotting and discussing those bloopers has become a favorite pastime for fans seeking answers to penetrating questions: When was the First Doctor on a slight exploitation? What does the Second Doctor call the sectional supply unit? When does the Third Doctor mistake a silicate rod for a silicon rod? What is hanging from the Fourth Doctor's nose when is in a cell on Traken? How does the Fifth Doctor accomplish his disappearing hat trick? Where does the Sixth Doctor believe Peri's heart and liver are located? What does the Seventh Doctor do when Ray asks what he is doing? Why does the Eighth Doctor not know the difference between Twelve and Thirteen? This work is the largest existing collection of errors appearing in Doctor Who, from every episode of the original television series, the movies, and the spin-offs. Presenting over 4000 errors and about 1500 other items of interest to fans, it includes transmitted bloopers such as microphones or equipment visible in a shot, obvious strings, anachronisms, unsteady sets, and actors having trouble walking. This book not only presents previously unrecorded bloopers, but also corrects errors in others lists and even refutes well-established blooper claims. The work guides the reader through the stories of each Doctor (first to eighth). Information on each story begins with the official BBC code and title, alternate titles, writers and directors, media examined in creating this list, running times, highlights, questions to keep in mind, and then information on the individual episodes. For each episode, the work provides information on the date of first transmission and a list of errors and trivia, each with its approximate time within the episode. The book also lists errors from the untransmitted parts of the pilot episode and Shada, and concludes with the Forgotten Doctor and related programs such as K-9 and Company, Dimensions in Time, and The Curse of the Fatal Death.

enemy of the world doctor who: Doctor Who in Time and Space Gillian I. Leitch, Donald E. Palumbo, C.W. Sullivan III, 2013-03-20 This collection of fresh essays addresses a broad range of topics in the BBC science fiction television series Doctor Who, both old (1963-1989) and new

(2005-present). The book begins with the fan: There are essays on how the show is viewed and identified with, fan interactions with each other, reactions to changes, the wilderness years when it wasn't in production. Essays then look at the ways in which the stories are told (e.g., their timeliness, their use of time travel as a device, etc.). After discussing the stories and devices and themes, the essays turn to looking at the Doctor's female companions and how they evolve, are used, and changed by their journey with the Doctor.

enemy of the world doctor who: Women in Doctor Who Valerie Estelle Frankel, 2018-03-13 Over the past half-century Doctor Who has defined science fiction television. The women in the series--from orphans and heroic mothers to seductresses and clever teachers--flourish in their roles yet rarely surmount them. Some companions rescue the Doctor and charm viewers with their technical brilliance, while others only scream for rescue. The villainesses dazzle with their cruelty, from the Rani to Cassandra and Missy. Covering all of the series--classic and new--along with Class, K9, Torchwood, The Sarah Jane Adventures, novels, comics and Big Finish Audio adventures, this book examines the women archetypes in Doctor Who.

enemy of the world doctor who: Doctor Who ,

enemy of the world doctor who: The Doctors Are In Graeme Burk, Robert Smith, 2015-09-01 Get to know the eccentric alien known as the Doctor in this "out-of-this-world read for both Classic and New Who fans" (Library Journal). From his beginnings as a crotchety, anti-heroic scientist in 1963 to his current place in pop culture as the mad and dangerous monster-fighting savior of the universe, the character of Doctor Who has metamorphosed in his many years on television. And yet the questions about him remain the same: Who is he? Why does he act the way he does? What motivates him to fight evil across space and time? The Doctors Are In is a guide to television's most beloved time traveler from the authors of Who Is the Doctor and Who's 50. This is a guide to the Doctor himself—who he is in his myriad forms, how he came to be, how he has changed (within the program itself and behind the scenes) . . . and why he's a hero to millions.

enemy of the world doctor who: Doctor Who and Philosophy Courtland Lewis, Paula J. Smithka, 2010 Philosophers look at the deeper issues raised by the adventures of Doctor Who, the main character in the long-running science fiction TV series of the same name.

enemy of the world doctor who: Doctor Who and Science Marcus K. Harmes, Lindy A. Orthia, 2021-01-14 Science has always been part of Doctor Who. The first episode featured scenes in a science laboratory and a science teacher, and the 2020 season's finale highlighted a scientist's key role in Time Lord history. Hundreds of scientific characters, settings, inventions, and ethical dilemmas populated the years in between. Behind the scenes, Doctor Who's original remit was to teach children about science, and in the 1960s it even had a scientific advisor. This is the first book to explore this scientific landscape from a broad spectrum of research fields: from astronomy, genetics, linguistics, computing, history, sociology and science communication through gender, media and literature studies. Contributors ask: What sort of scientist is the Doctor? How might the TARDIS translation circuit and regeneration work? Did the Doctor change sex or gender when regenerating into Jodie Whittaker? How do Doctor Who's depictions of the Moon and other planets compare to the real universe? Why was the program obsessed with energy in the 1960s and 1970s, Victorian scientists and sciences then and now, or with dinosaurs at any time? Do characters like Missy and the Rani make good scientist role models? How do Doctor Who technical manuals and public lectures shape public ideas about science?

enemy of the world doctor who: More Doctor Who and Philosophy Courtland Lewis, Paula Smithka, 2015-10-15 More Doctor Who and Philosophy is a completely new collection of chapters, additional to Doctor Who and Philosophy (2010) by the same editors. Since that first Doctor Who and Philosophy, much has happened in the Whoniverse: a new and controversial regeneration of the Doctor, multiple new companions, a few creepy new enemies of both the Doctor and planet Earth. And the show's fiftieth anniversary! We've learned some astounding new things from the ever-developing story: that the Doctor's number one rule is to lie, that he claims to have forgotten his role in the mass extermination of the Time Lords and the Daleks, that the Daleks do have a

concept of divine beauty (divine hatred, of course), and that Daleks may become insane (didn't we assume they already were?) Oh, and the cult of the Doctor keeps growing worldwide, with more cultish fans in the US, more and bigger Who conventions, more viewers of all ages, and more serious treatment by scholars from many disciplines. New questions have been raised and new questioners have come along, so there are plenty of new topics for philosophical scrutiny. Is the "impossible" girl really impossible? Is there anything wrong with an inter-species lesbian relationship (the kids weren't quite ready for that in 1963, but no one blinks an eye in 2015)? Can it really be right for the Doctor to lie and to selectively forget? We even have two authors who have figured out how to build a TARDIS—instructions included! (Wait, there's a catch, no . . . ?) And then there's that old question that just won't go away: why does the Doctor always regenerate as a male, and is that ever going to change? An added feature of this awesome new volume is that the editors have reached out to insiders of Who fandom, people who run hugely successful Who conventions, play in Who-inspired bands, and run wildly popular podcasts and websites, to share their privileged insights into why the Doctor is so philosophically deep. No more spoilers. It's time for the truly thoughtful travelers in both time and space to rev up the TARDIS once more. . . . Allons-y, Alonzo!

enemy of the world doctor who: Who is Who? Kevin S. Decker, 2013-09-03 When you have been wandering the cosmos from one end of eternity to another for nearly a thousand years, what's your philosophy of life, the universe, and everything? Doctor Who is 50 years' old in 2013. Through its long life on television and beyond it has inspired much debate due to the richness and complexity of the metaphysical and moral issues that it poses. This is the first in-depth philosophical investigation of Doctor Who in popular culture. From 1963's *An Unearthly Child* through the latest series, it considers continuity and change in the pictures that the programme paints of the nature of truth and knowledge, science and religion, space and time, good and evil, including the uncanny, the problem of evil, the Doctor's complex ethical motivations, questions of persisting personal identity in the Time Lord processes of regeneration, the nature of time travel through 'wibbly-wobbly, timey-wimey' stuff, how quantum theory affects our understanding of time; and the nature of the mysterious and irrational in the Doctor's universe.

enemy of the world doctor who: Complexity / simplicity Sarah Cardwell, Jonathan Bignell, Lucy Fife Donaldson, 2022-04-26 An exciting new strand in The Television Series, the 'Moments in Television' collections celebrate the power and artistry of television, whilst interrogating key critical concepts in television scholarship. Each 'Moments' book is organised around a provocative binary theme. Complexity / simplicity addresses the idea of complex TV, examining its potential, limitations and impact upon creative and interpretative practices. It also reassesses simplicity as an alternative criterion for evaluation. Complexity and simplicity persuasively illuminate the book's chosen programmes in new ways. The book explores an eclectic range of TV fictions, dramatic and comedic. Contributors from diverse perspectives come together to expand and enrich the kind of close analysis most commonly found in television aesthetics. Sustained, detailed programme analyses are sensitively framed within historical, technological, institutional, cultural, creative and art-historical contexts.

enemy of the world doctor who: Doctor Who and the Enemy of the World Ian Marter, 2019-07-04 David Troughton reads this exciting novelization of a classic TV adventure for the Second Doctor, as played by Patrick Troughton. In the year 2030, when the world is hit by a series of terrible natural disasters, only one man seems to know what action to take. Salamander's success in handling these monumental problems has brought him enormous power. But what more lies behind his public persona? From the moment the Doctor, Jamie, and Victoria land on an Australian beach, they are caught up in a struggle for world domination--a struggle in which the Doctor's startling resemblance to Salamander plays a vital role. David Troughton, who has played several roles in the TV series, reads Ian Marter's novelisation of the 1967 TV serial by David Whitaker.
