fourth wing paperback uk: The Joy of Self-Publishing Mike Buchanan, 2013-02 Self-publishing can be more rewarding than being published - creatively, financially, and in other respects - if you go about it the right way. You could well be confused, as many self-publishers are, by the multiplicity of options available to you. The good news is that you can now make your books visible and available to book buyers around the world at minimal cost. An ebook (PDF) edition of this book was made

available worldwide at no cost, an edition for the Kindle, iPad, Nook, Sony eReader and other e-readers made available for GBP95.00, a paperback edition made available worldwide for GBP42.00. As a self-publisher, what are your options for new books? Should you choose an offset lithography print run, a digital print run, or maybe print-on-demand (POD)? Hardback or paperback, or other formats? Possibly an ebook too? And, crucially, how will you get your books distributed cost-effectively to buyers around the world? This book will take you through the options and explain their relative advantages and disadvantages. It provides guidance on selecting book topics with strong sales potential; writing distinctively; obtaining a professional critique of your work; writing content-rich non-fiction; writing in a number of genres; choosing between hardback and paperback and other formats; choosing the optimal printing method; book content formatting; book specifications; colour plate section options; distribution; print-on-demand ('POD'); order fulfilment; dealing with Amazon, Lightning Source, Nielsen, and Bowker; printers; copy-editors and proofreaders; typesetters; cover designers; photographers; pricing and marketing your books; and a whole lot more besides. The book includes a sample chapter from the author's international bestseller *Two Men in a Car* (a businessman, a chauffeur, and their holidays in France) along with the plate section from the book. Mike Buchanan, a British writer and former business consultant, is the author of eight books since 2008. He's been published internationally by a leading publisher (in English and Chinese editions), and he's self-published. He much prefers self-publishing for a variety of reasons. In January 2010, at the age of 52, he took early retirement and now writes and self-publishes full-time. He developed the model of 'commercial self-publishing' outlined in this book. The model has been designed to help self-publishers enjoy their writing more, increase their output of strong titles, and maximise their profits.
