Each year, young men and women from Oration's ruling Libraries compete in the Acktus Trials, a journey that takes them through the wilds of Oration to the ruined city of Tome. Once Oration's capital, it is now abandoned, though the Great Library at its center still holds a wealth of Spoken Books. Surrounded by enemies and friends he doesn't trust, can Baz survive and help the slaves of Fortune to freedom? Part III: Disclaimer's Flight *Potential Spoilers Below* Baz and his friends are on the run, allies at a premium, as they search for the savior who will lead the slaves of Oration to freedom. When no one believes that Baz knows who that savior is, he finds his closest supporter is

none other than his one-time master, a member of the ruling class against whom the rebels are fighting. When Baz returns to where his adventure—or is it a nightmare?—began, his path finally becomes clear. But even then, there are forces working to betray him, both external and in Baz's own head. Once more, he must face the dark terror beneath the ruined city of Tome, while simultaneously battling the trauma he suffered in the dungeons of Leamina Library. And that's all before the dragons show up. Will Baz persevere and find Oration's savior?

game of thrones books box set: *A Clash of Kings: The Graphic Novel: Volume Two* George R. R. Martin, 2019-10-01 The second volume in a four-part full-color graphic novel adaptation of the second book in George R. R. Martin's landmark *A Song of Ice and Fire* series, the inspiration for HBO's *Game of Thrones*. As chaos grips Westeros, a flaming red comet continues to burn a crimson path across the sky. Some see this fiery herald as a sign of their impending victory. Others see it as a mark of the blood and terror that will soon engulf this divided kingdom. But one thing is certain: None of the six contenders who seek either the Iron Throne, or the lands their ancestors once held as kings, are willing to back down. And as factions scatter or come together, there are many witnesses to the unrest that is to come. Arya Stark finds herself in the heart of enemy territory at Harrenhal, while her mother is trapped between two brothers battling each other for their dead brother's throne. In the heart of King's Landing, Tyrion is busy ferreting out traitors as the Hand of the King, while Jon is beginning to comprehend the lawlessness of life beyond the Wall. New friends arrive in Winterfell for Bran, a forgotten son finds life in the Iron Islands quite different than he remembered, and the Mother of Dragons at last arrives in the fabled city of Qarth. But even as these would-be kings draw their lines of battle, it is the people of Westeros who will most suffer for their ambitions. For when kings clash, it is the commoners who bear the greatest cost.

Beyond the Wall, Qhorin Halfhand's band of scouts—Jon Snow included—prepares to face Mance Rayder's army, while in King's Landing one of the most iconic battles ever is about to unfold, pitting Tyrion's wit against Stannis's determination. game of thrones books box set: *Islands and Captivity in Popular Culture* Laura J. Getty, 2021-07-14 The choices that individuals make in moments of crisis can transform them. By focusing on fictional characters trapped on fictional islands, the book examines how individuals react when forced to make hard choices within the liminal space of a prison island. At stake is the perception of choice: do characters believe that they have the power to choose, or do they think that they are at the mercy of fate? The results reveal certain patterns—psychological, historical, social, and political—that exist across a variety of popular/public cultures and time periods. This book focuses on how the interplay between liminality and the Locus of Control theory creates dynamic sites of negotiated meaning. This psychological concept has never before been used for literary analysis. Offered here as an alternative to the defects of Freudian psychology, the Locus of Control theory has been proven reliable in thousands of studies, and the results have been found, with few exceptions, to be consistent in both women and men. That consistency is explored through close readings of islands found in popular culture books, films, and television shows, with suggestions for future research.

game of thrones books box set: *A Clash of Kings: The Graphic Novel: Volume One* George R. R. Martin, 2018-10-02 The first volume of a four-part graphic novel adaptation of the second book in George R. R. Martin's landmark *Song of Ice and Fire* series, the inspiration for HBO's *Game of Thrones*. The four-part graphic novel adaptation of *A Game of Thrones* proved that George R. R.

Martin's *A Song of Ice and Fire* has the power to enchant in any medium. Now the story continues as New York Times bestselling author Landry Q. Walker and illustrator Mel Rubi introduce a thrilling new series based on the second book in the landmark saga. Time is out of joint. The summer of peace and plenty, ten years long, is drawing to a close, and the harsh, chill winter approaches like an angry beast. Two great leaders—Lord Eddard Stark and King Robert Baratheon—who held sway over an age of enforced peace are dead, victims of royal treachery. Now, from the ancient citadel of Dragonstone to the forbidding walls of Winterfell, chaos reigns as pretenders to the Iron Throne of the Seven Kingdoms prepare to stake their claims through tempest, turmoil, and war. As a prophecy of doom cuts across the sky—a comet the color of blood and flame—six factions struggle for control of a divided land. Eddard's son Robb has declared himself King in the North. In the south, Joffrey, the heir apparent, rules in name only, victim of the scheming courtiers who teem over King's Landing. Robert Baratheon's two brothers each seek his own dominion, while a disfavored house turns once more to conquest. And a continent away, an exiled queen, the Mother of Dragons, risks everything to lead her precious brood across a hard, hot desert to win back the crown that is rightfully hers. Against a backdrop of incest and fratricide, alchemy and murder, the price of glory may be measured in blood. And the spoils of victory may just go to the men and women possessed of the coldest steel . . . and the coldest hearts. For when rulers clash, all the land feels the tremors.

game of thrones books box set: Science Fiction, Fantasy, and Politics Dan Hassler-Forest, 2016-07-21 From Tolkien to Star Trek, from Game of Thrones to Battlestar Galactica, and from The Walking Dead to Janelle Monáe's Afrofuturist concept albums, transmedia world-building offers us complex and immersive environments beyond capitalism. This book examines the ways in which these popular storyworlds offer tools for anticapitalist theory and practice. Building on Hardt and Negri's theory of global capitalism, *Science Fiction, Fantasy, and Politics* shows how transmedia world-building has the potential of offering more than a momentary escape from capitalist realism in the age of media convergence and participatory culture. The book features eight fantastic storyworlds that offer vivid illustrations of global capitalism's contradictory logic. Approaching transmedia world-building both as a cultural form and as a political economy, it demonstrates the limitations inherent in fandom and fan culture, which is increasingly absorbed as a form of immaterial labor. But at the same time, the book also explores the productive ways in which fantastic storyworlds contain a radical energy that can give us new ways of thinking about politics, popular culture, and anticapitalism.
