Also? The best sentences and, what do you call them, paragraphs. My previous books were great and sold extremely, unbelievably well--even the ones by dishonest, disgusting so-called journalists. But those writers didn't understand Trump, because quite frankly they were major losers. People say if you want it done right you have to do it yourself, even when 'it' is a 'memoir.' So every word of this book was written by me, using a special advanced word processing system during the many, many nights I've been forced to stay alone in the White House--only me, just me, trust me, nobody helped. And it's all 100% true, so true--people are already saying it may be the truest book ever published. Enjoy. how do you spell sarcastic: *What We Say and How We Say It Matter* Mike Anderson, 2019-02-26 We all want our students to feel safe, collaborate well with others, feel ownership for their learning, and be joyfully engaged in their work. Nevertheless, many teachers end up using language patterns that undermine these goals. Do any of these scenarios sound familiar? We want students to take responsibility for their learning, yet we use language that implies teacher ownership. We want to build positive relationships with students, yet we use sarcasm when we get frustrated. We want students to think learning is fun, yet we sometimes make comments that suggest the opposite. We want students to exhibit good behavior because it's the right thing to do, yet we rely on threats and bribes, which implies students don't naturally want to be good. What teachers say to students—when they praise or discipline, give directions or ask questions, and introduce concepts or share stories—affects student learning and behavior. A slight change in intonation can also dramatically change how language feels for students. In *What We Say and How We Say It Matter*, Mike Anderson digs into the nuances of language in the classroom. This book's many examples will help teachers examine their language habits and intentionally improve their classroom practice so their language matches and supports their goals.
