ray fernandez and martha beck: The Lonely Hearts Killers Tobin T. Buhk, 2020-06-05 The shocking series of crimes committed by lovers Martha Beck and Raymond Fernandez dominated the front pages in 1949. Caught for the double homicide of a widow and her young daughter in Michigan, the first couple of crime became the focus of an intense debate over the death penalty and extradition. Their story climaxed in a sensational trial in New York City and concluded two years later inside Sing Sing's notorious Death House. Pulp fiction era reporters, who followed every step taken by the accused slayers, christened Beck and Fernandez the Lonely Hearts Killers--a nickname that stuck and has since been used to describe an entire category of criminal behavior. Despite the sensationalization of the killer couple's exploits, the story of the Michigan crime that ended their spree has until now remained largely untold. Drawing on rare archival material, this book presents, for the first time anywhere, a detailed account of this lost chapter in the saga of the Lonely Hearts Killers. Both biography and analysis, this book also attempts to deconstruct the myths and misconceptions and to provide answers to a few unanswered questions about the case.

ray fernandez and martha beck: **House of Psychotic Women** Kier-La Janisse, 2015-01-09 Cinema is full of neurotic personalities, but few things are more transfixing than a woman losing her mind onscreen. Horror as a genre provides the most welcoming platform for these histrionics: crippling paranoia, desperate loneliness, masochistic death-wishes, dangerous obsessiveness, apocalyptic hysteria. Unlike her male counterpart - 'the eccentric' - the female neurotic lives a shamed existence, making these films those rare places where her destructive emotions get to play. HOUSE OF PSYCHOTIC WOMEN is an examination of these characters through a daringly personal autobiographical lens. Anecdotes and memories interweave with film history, criticism, trivia and confrontational imagery to create a reflective personal history and a celebration of female madness, both onscreen and off. This critically-acclaimed publication is packed with rare images that combine with family photos and artifacts to form a titillating sensory overload, with a filmography that traverses the acclaimed and the obscure in equal measure. Films covered include The Entity, Paranormal Activity, Singapore Sling, 3 Women, Toys Are Not for Children, Repulsion, Let's Scare Jessica to Death, The Haunting of Julia, Secret Ceremony, Cutting Moments, Out of the Blue, Mademoiselle, The Piano Teacher, Possession, Antichrist and hundreds more. Prior to this ebook edition, Kier-La's highly acclaimed book has already been issued twice in hardcover and twice in paperback, garnering extensive press coverage. Endorsement including the following: "God, this woman can write, with a voice and intellect that's so new. The truth in the most deadly unique way I've ever read." - Ralph Bakshi, director of 'Fritz the Cat', 'Heavy Traffic', 'Lord of the Rings', etc. "Fascinating, engaging and lucidly written: an extraordinary blend of deeply researched academic analysis and revealing memoir." - Iain Banks, author of 'The Wasp Factory'

ray fernandez and martha beck: **Summary of Harold Schechter's Ripped from the Headlines!** Everest Media, 2022-07-25T22:59:00Z Please note: This is a companion version & not the original book. Sample Book Insights: #1 The book was made into a movie in 1958, and it was groundbreaking for its frankness on sexual matters at the time. It was seen as a testament to the unwritten law, which stated that a husband who found another man in bed with his wife was justified in killing him. But the law was a myth. #2 Anatomy of a Murder is a film noir, and it is largely because of its atmospheric, black-and-white cinematography. Laura, the vixen-like beauty in the habit of dolling herself up, is an archetypal femme fatale. #3 The book is a thinly disguised version of an actual, highly sensational case in Michigan. In July 1960, exactly one year after the movie's release, both Voelker's publisher and Preminger's studio were hit with a \$9 million libel suit filed by a Michigan nurse, Mrs. Hazel A. Wheeler, the widow of a man named Maurice Mike Chenoweth. #4 In 1952, a newly married couple, the Petersons, visited the Lumberjack Tavern in Big Bay. Coleman, a first lieutenant in the US Army, was napping in their trailer when his wife, Charlotte, was raped by the bar's owner, Mike Chenoweth.

Separate the facts from the many legends and revisions that have blossomed around these killers in this frightening look at the bloody real lives of movie's infamous antiheroes. You'll find a blood-curdling assortment of the "criminal elite" in American Murder: Criminals, Crime and the Media, a rogue's gallery of our most famous killings, killers and other scoundrels (and some that ought to be more famous than they are). A collection of high-profile murderers, gangsters, assassins, psychopaths, such as O.J., Amy Fisher, Robert Blake, Susan Smith, Claus Von Bulow, the Menendez

brothers, Jeffrey Dahmer, Ted Bundy, John Wayne Gacy, Richard Speck, Al Capone, Pretty Boy Floyd, Bugsy Siegel, Jesse James, John Dillinger, Charles Manson, Albert Fish, T. Cullen Davis, Ronald DeFeo, Jr., Edmund Kemper, Beulah Annan, Bonnie and Clyde, Billy the Kid, Charlie Starkweather, as well as an assortment of lesser known killers with some incredible tales! With numerous photos and illustrations, this tome is richly illustrated, and its helpful bibliography and extensive index add to its usefulness. *American Murder* explores the legends as depicted in movies, stories, and songs. Gibson, 2009-11-19 This is the first book to focus specifically on serial killers motivated by monetary gain. *Serial Killing for Profit: Multiple Murder for Money* addresses a gap in the existing literature by documenting one dozen of the most notorious perpetrators of commercial serial murder—murderers who kill to secure inheritances and pensions, to sell possessions or even the body itself, or as murderers-for-hire. In these pages, readers will encounter some of the nation's most infamous and disturbing criminals, including America's first serial killer, Herman Mudgett; Raymond Fernandez and Martha Beck, the Honeymoon Killers; Los Angeles's Night Stalker, Richard Ramirez; the black widow Blanche Taylor Moore; and Dana Sue Gray, who killed three women for shopping money. Author Dirk Gibson gets to the twisted heart of each case, meticulously detailing the crimes, the victims, the hunt for the killers, the distinctive variations on the motive of killing for money, and the lessons learned by investigators in each instance. Everyone from professional investigators to true crime aficionados will be riveted by these stunning accounts.

ray fernandez and martha beck: Women Serial and Mass Murderers Kerry Segrave, 2013-04-16 It is at 31.4 years of age that the average woman multiple murderer kills the first of her 17 victims, whom she usually knows or is related to. The preferred method is poison, usually arsenic. She is more likely to prey on the vulnerable—the very young or the very old—than is her male counterpart. Her killing spree lasts five years; when caught, she shows little remorse. This study of 85 women focuses on those who have killed at least three people, not including themselves in murder-suicide cases. Though the work is international, emphasis is on the United States during the late 19th and 20th centuries. Excluded are accomplices who, though legally guilty of multiple murders, were in fact passive participants. The life of each killer is examined, as well as descriptions of the murders, the methods, and the trial.

ray fernandez and martha beck: Jack the Ripper & the London Press L. Perry Curtis, 2020-08-11 Breaks new ground in its examination of the role of newspaper reporting during the police hunt for the first notorious serial killer.— Reviews in History Press coverage of the 1888 mutilation murders attributed to Jack the Ripper was of necessity filled with gaps and silences, for the killer remained unknown and Victorian journalists had little experience reporting serial murders and sex crimes. This engrossing book examines how fourteen London newspapers—dailies and weeklies, highbrow and lowbrow—presented the Ripper news, in the process revealing much about the social, political, and sexual anxieties of late Victorian Britain and the role of journalists in reinforcing social norms. L. Perry Curtis surveys the mass newspaper culture of the era, delving into the nature of sensationalism and the conventions of domestic murder news. Analyzing the fourteen newspapers—two of which emanated from the East End, where the murders took place—he shows how journalists played on the fears of readers about law and order by dwelling on lethal violence rather than sex, offering gruesome details about knife injuries but often withholding some of the more intimate details of the pelvic mutilations. He also considers how the Ripper news affected public perceptions of social conditions in Whitechapel. The apparently motiveless violence of the Whitechapel killings denied journalists a structure, and it is the resulting creativity in news reporting that L. Perry Curtis Jr describes. His impressive book makes a genuine contribution to 19th-century history in a way that books addressing the banal question of the identity of the Ripper do not.— *The Guardian*
