all black dan carter: Globalization, Sport and Corporate Nationalism Jay Scherer, Steve Jackson, 2010 Although New Zealand exists as a small (pop. 4.3 million), peripheral nation in the global economy, it offers a unique site through which to examine the complex, but uneven, interplay between global forces and long-standing national traditions and cultural identities. This book examines the profound impact of globalization on the national sport of rugby and New Zealand's iconic team, the All Blacks. Since 1995, the national sport of rugby has undergone significant change, most notably due to the New Zealand Rugby Union's lucrative and ongoing corporate partnerships with Rupert Murdoch's News Corporation and global sportswear giant Adidas. The authors explore these significant developments and pressures alongside the resulting tensions and contradictions that have emerged as the All Blacks, and other aspects of national heritage and indigenous identity, have been steadily incorporated into a global promotional culture. Following recent research in cultural studies, they highlight the intensive, but contested, commodification of the All Blacks to illuminate the ongoing transformation of rugby in New Zealand by corporate imperatives and the imaginations of marketers, most notably through the production of a complex discourse of corporate nationalism within Adidas's evolving local and global advertising campaigns.

all black dan carter: Looking Flash Bronwyn Labrum, Fiona McKergow, Stephanie Gibson, 2007 Offering a fresh look at the role of clothes in New Zealand history, this reference examines what New Zealanders wear and what they have worn--from the shrinking bathing suit to the black singlet--over the past three centuries, proving that clothing reveals as much as it conceals. The authors show that, despite a reputation for being wary of looking flashy, New Zealand has not always been a dowdy country. Essays span the clothing of pre-colonial Maori society, marching girls and castaways, and include 18th century heirloom dresses, hand-me-downs, wartime garb, and kilts. There are also extraordinary stories about the fate of a Maori cloak and an Otago farmer's

remarkable collection of 1970s high-fashion garments.

A one-of-a-kind account of New Zealand rugby, *Legends in Black* draws on unprecedented access to some of the biggest names in the game – revealing the secrets to why we win. 'The winning ethos was so fundamental to the culture and had been ingrained for years, and it just keeps going. The wonderful thing about the All Blacks is the tradition of its history, the belief by players in what happened before. Winning was something that was an absolute focus.' —John Hart 'Leadership is within the team. I had a role as a fixer, if there was trouble going on – not a dirty role, but as the one able to talk to the opposition and tell them, 'I wouldn't do that again, if I were you.''' —Colin Meads 'Winning becomes a habit, because success is fantastic, but when you take those platitudes you've also got to learn how to lose, lose well and graciously, and learn from your losses.' —Wayne 'Buck' Shelford 'It was about working out who you played the game for . . . it's not the name of the team or the colour of the jersey, but the people around you.' —Andy Haden Also available as an eBook

all black dan carter: *Heroics and Heartbreak* Jamie Wall, 2019-12-03 What happened to the All Blacks at the 2019 Rugby World Cup? They were aiming for their third title in a row. A win would have capped a decade of dominance for the team and provided a fitting end to the careers of Steve Hansen and Kieran Read. But it turned out to be a much tougher challenge, and ended in crushing failure. *Heroics & Heartbreak* is Jamie Wall's story of the campaign, from someone who was there every step of the way. The campaign for the cup started with the end-of-year tour in October 2018. It was a hard slog, with the team clearly feeling the effects of a long season. Notably, Hansen and Read came under considerable scrutiny throughout. The signs were there that most of the other test-playing nations had gained some serious ground on the All Blacks in the past couple of seasons, seen in the results against England and Ireland on that tour. Jamie analyses the campaign and the All Blacks' games, trainings, press conferences and dramas throughout the World Cup as he follows the team in Japan. The climax was not the one that the All Blacks wanted, and signals a new era in world rugby. It may prove to be a defining moment for the game in New Zealand as well.

platforms to fight for activist causes, *Sport and Apartheid South Africa: Histories of Politics, Power, and Protest* examines a set of longer histories of sport, ‘race’, and activism. The book seeks to uncover and understand new historical aspects of apartheid and sport, challenge myths, and rethink dominant narratives. It examines the subject of racially segregated sport in South Africa from national and transnational perspectives, asking questions about how athletes and administrators, transnational anti-apartheid groups and activists, and politicians around the world interpreted and internalized racial segregation in South Africa. By connecting the local to the global, this book illuminates the ways in which apartheid sport animated national and international debates, ranging from racism and human rights to Cold War politics and post-colonialism. *Sport and Apartheid South Africa* is a significant new contribution to the study of race and politics in sport and will be a great resource for academics, researchers, and advanced students of History, Politics, International Relations, Sociology, and Political Geography. The chapters in this book were originally published in *The International Journal of the History of Sport*.
