astrology zodiac signs leo: Jung and Twentieth Century Psychological Astrology Laura Andrikopoulos, 2024-10-11 Using the works and theories of Carl Gustav Jung and the astrologers Alan Leo, Dane Rudhyar and Liz Greene, this volume provides a cultural history of psychological astrology in the twentieth century, demonstrating the prevalence of 'magic' in modern culture through its presence in astrology. Astrology's links to psychology are akin to those in wider culture, such as the exploration of the unconscious by writers and artists. The dominant form of astrology in the twentieth century was psychological astrology, a form principally influenced by the work of the psychologist Carl Gustav Jung. Through in-depth exploration of the three major astrologers of the period (Alan Leo, Dane Rudhyar and Liz Greene) and their psychological innovations, this volume considers whether psychology was used by astrology as a survival strategy to legitimise magic in the modern world and whether the result was 'an astrology that has lost its magic'. Chapters consider the survival of magic in the modern world, the history of astrology as a psychological subject and astrology's relationship to modernity, as well as a fundamental exploration of the nature of astrology. Ultimately arguing that the existence of psychological astrology represents a form of living magic, this book will be of interest to researchers, scholars and postgraduate students studying Jung and analytical psychology, magic, astrology and alchemy, and culture in the twentieth century more broadly.

astrology zodiac signs leo: The New Medical Astrology Mario Kertscher, 2025-02-25 The teaching of a New Medical-Astrology is an attempt to bring medicine and astrology closer together

again. While medicine has continued to develop and gain new insights into the organs, classical medical astrology has hardly developed at all in the last 2000 years, since the doctrine that Aries begins with the head and Pisces ends with the feet. After 40 years of thorough research, the New Medical Astrology is now based on 12 vital organ systems within the head and torso, which correspond to the 12 signs of the zodiac. Unlike in Hippocrates time more than 2000 years ago, the arms and legs do not play a major role in the new classification, as they do not represent vital organs. This work is a new connection between the psychological astrology, human anatomy, psychosomatics and eye diagnosis. This textbook forms the basis for learning astrology, New Medical Astrology, and at the same time forms a bridge to the psychosomatic explanations of illnesses in relation to the individual zodiac signs. The intention was to write a textbook in an easily understandable way and to avoid confusing foreign or technical terms that too difficult to understand. This makes it equally suitable for learning, teaching or just exploring for both young and old explorers of astrology.

astrology zodiac signs leo: Life Events Prediction Astrology Ram Babu Sao, 2025-06-10 "Money is Prosperity". Vedic Astrology (Jyotish) is a powerful tool for gaining profound knowledge about every aspect of life. Each person is born with a unique set of psychological tendencies and life potentials. The book, "Life Events Prediction Astrology", is a unique book, which is very informative and also easy to understand. The horoscope shows us what we are presently working with, based on our past actions and thoughts. Besides providing deep insight into the past and present, the horoscope can also show future trends and events. This knowledge can help the individual make use of latent potentials and approach life's challenges with greater care and purpose. By understanding the karmic patterns reflected in the horoscope, it is possible to work with these tendencies and potentials to promote greater peace, prosperity, and happiness in life. The light that is shed on a dire personal situation by Vedic Astrology is priceless. The ancient Vedic system provides a predictive

system that can accurately predict life events and different “chapters” of life, called “Dasha”. In Vedic Astrology, the palm is used as a support and cross-reference to the astrological chart. From the palm the relative strength of the planets in the birth chart can be determined. It also helps in rectifying the horoscope if there is some doubt about the birth time. And it provides the astrologer with additional information about personality, life potentials, future trends, and events. The timing of life events is calculated with a detailed system of planetary time cycles, called “Dasha.” There is no equivalent system in Western astrology. Vedic astrology provides a greater scope, depth and accuracy for predicting the future. Given an accurate birth time, the Dasha system can precisely show when a period of fortune or misfortune will begin and end, and provide actual dates. Of two people with wonderful careers, great relationship potential and wealth indicated in their charts, one may find his niche early in life, while the other must experience difficult times to finally achieve prosperity later in life. The Vedic system can indicate the timing of such events as well as their extent. It uses the Moon’s position as the starting point against the background of a Nakshatra in calculations of the planetary periods within the 120 year potential lifespan. The principles governing Vedic astrology have remained unaltered for thousands of years. Vedic astrology acknowledges only nine planets, such as, Sun, Moon, Mercury, Venus, Mars, Jupiter, Saturn and the two nodes of the Moon called Rahu and Ketu.
