bora bora tahiti map: South of Paradise Douglas V. Maurer, 2009-01-13 On the verge of a break-up with his wife, and a break-down at the office, super salesman, Christopher Miles is invited on a corporate trip to Tahiti by his business partner. Almost immediately events begin spinning out of control, sliding, at if by some unseen fate, into the bazaar and the surreal. The novel opens with a near-fatal car accident, which occurs after a meeting with the private detective that has been investigating his wives infidelities. A few days later hes on route to the South Seas. Following a week of sleeplessness, tour mania, over-consumption of alcohol, jet-lag and the curse of a Voodoo tribesman hanging over his head, Christopher Miles disappears in the upper mountains of Moorea after becoming disoriented A post-modern love story turns into a psychedelic nightmare when he is abducted by a primitive cult of upper mountain tribesman, known as the Songmen, and is held by their chief as a captive. Back at the resort in Moorea. the tour guides and other members of the group, which totaled some sixty people, become hysterical Their trip to paradise is ruined when after days of searching, they cant locate him , their protocol demands they leave him behind. Months later, after being given up for dead by his business associates, and certain members of his family, Christopher Miles frees himself from captivity during a raging category five hurricane and begins his perilous descent back to reality, where on the verge of death he is transformed by a very unexpected ending.

bora bora tahiti map: *Early Mapping of the Pacific* Thomas Suarez, 2013-01-29 Take a journey back to the uncharted oceans with the most celebrated European explorers! Interest in Southeast Asian history and culture is higher than ever before. Ancient cartography of Oceania holds mysteries as old as time--were these early ocean maps molded as much by fantasy as fact? *Early Mapping of the Pacific* bravely delves into all the questions surrounding the history of maps. The Pacific Ocean remained a mystery to mapmakers until the latter part of the eighteenth century. This book traces the European exploration and charting of the vast ocean through a cornucopia of beautiful maps stretching from Japan on the northwest, through Juan Fernandez Island on the southeast, with the various islands of Oceania the primary focus. It follows the history of mapmaking from Classical times up to the turn of the twentieth century. The ancient seafarers who ventured eastward from Asia, and were the Pacific's true pioneers, left no maps. They still helped make cartography history, thanks to the navigational genius their descendants passed to European visitors. Thus, the Pacific as we now know it was formally born when the colonization of America partitioned the seas between Europe and Asia into two. This gorgeous edition presents nearly 300 rare Asia maps and early prints, compiled by expert Thomas Suarez. Topics addressed include: The Pacific Islands and Their People Mariners, Mapmakers and the Great Ocean The Pacific Evolves after Magellan In the Wake of the Solomon Islands Earliest Mapping of Australia and New Zealand The Age of Enlightenment The Three Voyages of James Cook The Discovery of Tahiti and Hawaii Micronesia, the Elusive Isles Surveyors, Whalers, and Missionaries You, too, can share in the wonder of these explorers' vast geographical and cultural discoveries, and the voyages that led to them, in this comprehensive cartography book.

bora bora tahiti map: *The World Muslim Population* Houssain Kettani, 2019-11-08 The birth of Islam over fourteen centuries ago was a monumental event in human history with an everlasting effect on humanity. For centuries, researchers have contemplated the growth and distribution of Muslims throughout the world. This book presents a reliable estimate of the world Muslim population since the inception of Islam at the start of the seventh century to the end of the twenty-first century. In this book, the world is divided into five continents, each of which is further divided into non-overlapping regions, and these in turn are divided into current countries. A centennial data estimate for each region and current country from 600 AD to 2100 AD (approximately 1 H to 1500 H) of the total population, and the corresponding Muslim population and its percentage are provided. Furthermore, the same data in decennial order from 1790 to 2100 (or 1210 H to 1520 H) are provided for each region and country. These data are summarized to be an accurate reference for other studies and discussions related to the Muslim population. Written for demographers, researchers, historians, as well as general readers, this book is an essential reference to all aspects of the world Muslim population.
