foxy brown film 1974: *Luke, Widows, Judges, and Stereotypes*, Febbie C. Dickerson, 2019-08-01 Biblical narratives are not simply sacred stories for religious communities: They are stories that provide transformative insight into cultural biases. By putting historical criticism and reception history into dialogue with womanist biblical hermeneutics, *Luke, Widows, Judges, and Stereotypes* offers a provocative reading of Jesus' parable about a widow who confronts a judge and obtains what she seeks by means of physical threat. Rather than simply reading the widow as the model for "one who prays always and does not lose heart" (Luke 18:1), Dickerson shows that read in the context of Luke's wider narrative, the widow, domesticated and robbed both of her agency and moral ambiguity, is more likely demanding vengeance instead of justice. Likewise, rather than simply reading the judge as one who neither feared God nor had respect for people (Luke 18:2), Dickerson argues that the judge is both an ideal man and one who compromises standards of ancient masculinity. Then, reading both the widow and judge through African American stereotypes (Mammy, Jezebel, Sapphire, Cool Black Male, Master-Pastor, and Foolish Judge) that are used to degrade, debase, and control, and reading them into and in light of the parable, Dickerson demonstrates how the parable calls into question these stereotypes thereby producing new liberative readings.

foxy brown film 1974: *The ABC Movie of the Week* Michael McKenna, 2013-08-22 On September 23, 1969, five years after the first made-for-television movie premiered, the ABC network broadcast *Seven in Darkness*. This was the first television film for an anthology show called the Tuesday Night Movie of the Week. Dedicating ninety minutes of weekly airtime to a still-emerging genre was a financial risk for the third-place network—a risk that paid off. The films were so successful that in 1972 the network debuted *The Wednesday Movie of the Week*. Although most of the movies are no longer remembered, a handful are still fondly recalled by viewers today, including *Duel*, *Brian’s Song*, and *The Night Stalker*. The series also showcased pilot films for many eventual series, such as *Alias Smith and Jones*, *The Six Million Dollar Man*, and *Starsky and Hutch*. By the end of both shows’ regular runs in the spring of 1975, the network had broadcast more than 200 made-for-television films. In *The ABC Movie of the Week: Big Movies for the Small Screen*, Michael McKenna examines this programming experiment that transformed the television landscape and became a staple of broadcast programming for several years. The author looks at how the revolving films showcased the right mixture of romantic comedy, action, horror, and social relevance to keep viewers interested week after week. McKenna also chronicles how the ratings success led to imitations from the other networks, resulting in a saturation of television movies. As a cultural touchstone for millions who experienced the first run and syndicated versions of these films, *The ABC Movie of the Week* is a worthy subject of study. Featuring a complete filmography of all 240 movies with credit information and plot summaries, a chronology, and a list of pilots—both failed and successful—this volume will be valuable to television historians and scholars, as well as to anyone interested in one of the great triumphs of network programming.

foxy brown film 1974: *Rape-Revenge Films* Alexandra Heller-Nicholas, 2014-11-21 Often considered the lowest depth to which the cinema can plummet, the rape-revenge film has been dismissed as exploitative and sensational, catering to a demented demographic. Only on such rare occasions as Ingmar Bergman's *The Virgin Spring*, John Boorman's *Deliverance* and Quentin Tarantino's *Death Proof* has the rape-revenge movie transcended what is commonly assumed to be its intrinsically exploitative nature and moved into the mainstream. This critical overview reassesses that viewpoint by exploring a variety of themes, as well as the elements that this type of film has in common. The author discusses an array of films directed by noteworthy directors from several countries, demonstrating that diverse and often contradictory treatments of sexual violence can exist simultaneously.

foxy brown film 1974: *Hooked in Film* John Markert, 2013-05-23 Though drug use was widespread in the nineteenth century, the negative influence of narcotics was mostly unknown. Cinema of the early twentieth century was instrumental in making viewers aware of the harmful effects of drugs. Throughout the decades, images of drugs such as marijuana, LSD, and heroin in films impacted—both negatively and positively—the national perception of their use. In fact, the use, popularity, and opinion of certain drugs often follow their status on the big screen. In *Hooked in Film*, John Markert takes a close look at the correlation between social policies and the public view of drugs and their portrayals in film. In this volume, Markert examines the changing social attitudes toward illegal drugs and their cinematic depictions from as early as the 1894 film *Chinese Opium Den* to the present. The first section of this book focuses on the demonization of drugs between 1900 and 1959, followed by an assessment of marijuana on the big screen after 1960, when the drug was shown as part of everyday life with no serious consequences. Post-1960 depictions of heroin use, which have remained consistently negative, are also analyzed. Markert then takes a close look at the portrayals of powdered cocaine after the 1960s and the emergence of crack in the mid-1980s. Finally, Markert discusses hallucinogens, Ecstasy, and methamphetamines and their roles on the big screen. Tracking hundreds of films spanning more than a century, *Hooked in Film* looks at camp classics like *Reefer Madness*, comedies such as *Cheech and Chong's Up in Smoke*, *Dazed and Confused*, and *Pineapple Express*, and dramas, including *Panic in Needle Park* and *Requiem for a Dream*. Scholars and students of cinema, popular culture, media studies, and sociology will find this book a valuable examination of how cinematic portrayals of drugs have changed over time, and how

those images have influenced public perception of drugs and even public policy.

foxy brown film 1974: *Hearing Eyes, Seeing Ears* K.J. Donnelly, 2025-01-22 This book approaches music in audiovisual culture as a complex merged signal rather than as a simple 'addition' to the images of film. The audiovisual is central to modern culture, with screens and speakers (including headphones) dominating communication, leisure and drama. While this book mostly addresses film, it also deals with sister media such as television and video games, registering that there is a 'common core' of synchronized image and sound at the heart of these different but related media. The traditions of sound and what Michel Chion calls 'audiovision' (1994), including principles of accompaniment and industrial processes from film, have been retained and developed in other media. This book engages with the rich history, and varied genres, different traditions and variant strategies of audiovisual culture. However, it also points to and emphasizes the 'common core' of flat moving images and synchronized sound and music which marks a dominant in electronic media culture (what might be called 'screen and speaker/diaphragm culture'). Addressing music as both diegetic and non-diegetic, as both songs and score, the analyses presented in this book aim to attend the precise interaction between music and other elements of audiovisual culture as defining overall configurations. While many writings about music in audiovisual culture focus on 'what it communicates', its processes are more complicated and can form a crucial semi-conscious (or perhaps unconscious) background. While music's effect might be far from simple and unified, part of screen music's startling effect comes from its unity with the image. Cross-modal 'crosstalk' between sound and image forms a whole new signal of its own. Each chapter marks a case study making for a varied collection that embraces rich history and different traditions, as well as the distinct aesthetic boldness of different genres and formats.

In eleven intimate and revealing interviews, contemporary film directors speak frankly about their work-their successes and their disappointments, their personal aspirations, struggles, relationships, and the politics that affect the industry. A medley of directors including those working in pop culture and documentary, as well as feminist filmmakers, social satirists, and Hollywood mavericks recount stories that have never before been published. Among them are Monte Hellman, the auteur of the minimalist masterpiece *Two-Lane Blacktop*; Albert Maysles, who with his late brother David, created some of the most important documentaries of the 1960s, including *Salesman* and *The Beatles: What's Happening?*; Robert Downey Sr., whose social satires *Putney Swope* and *Greaser's Palace* paved the way for a generation of filmmakers; Bennett Miller, whose film *Capote* won an Academy Award in 2005; and Jamie Babbit, a lesbian crossover director whose low-budget film *But I'm a Cheerleader!* became a mainstream hit. The candid conversations, complimented by more than fifty photographs, including many that are rare, make this book essential reading for aspiring moviemakers, film scholars, and everyone interested in the how movies are made and who the fascinating individuals are who make them.

foxy brown film 1974: *American Film Cycles* Amanda Ann Klein, 2011-12-01 A series of movies that share images, characters, settings, plots, or themes, film cycles have been an industrial strategy since the beginning of cinema. While some have viewed them as subgenres, mini-genres, or nascent film genres, Amanda Ann Klein argues that film cycles are an entity in their own right and a subject worthy of their own study. She posits that film cycles retain the marks of their historical, economic, and generic contexts and therefore can reveal much about the state of contemporary politics, prevalent social ideologies, aesthetic trends, popular desires, and anxieties. *American Film Cycles* presents a series of case studies of successful film cycles, including the melodramatic gangster films of the 1920s, the 1930s *Dead End Kids* cycle, the 1950s juvenile delinquent teenpic cycle, and the

1990s ghetto action cycle. Klein situates these films in several historical trajectories—the Progressive movement of the 1910s and 1920s, the beginnings of America's involvement in World War II, the birth of the teenager in the 1950s, and the drug and gangbanger crises of the early 1990s. She shows how filmmakers, audiences, film reviewers, advertisements, and cultural discourses interact with and have an impact on the film texts. Her findings illustrate the utility of the film cycle in broadening our understanding of established film genres, articulating and building upon beliefs about contemporary social problems, shaping and disseminating deviant subcultures, and exploiting and reflecting upon racial and political upheaval.
