Masterly blend of adventure, character development, psychological penetration. Considered by many Conrad's finest, most enigmatic story. About Joseph Conrad : Joseph Conrad books was a Polish-born English novelist who today is most famous for *Heart of Darkness* conrad, his fictionalized account of Colonial Africa. Conrad left his native Poland in his middle teens to avoid conscription into the Russian Army. He joined the French Merchant Marine and briefly employed himself as a wartime gunrunner. He then began to work aboard British ships, learning English from his shipmates. He was made a Master Mariner, and served more than sixteen years before an event inspired him to try his hand at writing. He was hired to take a steamship into Africa, and according to Conrad, the experience of seeing firsthand the horrors of colonial rule left him a changed man. Joseph Conrad settled in England in 1894, the year before he published his first novel. He was deeply interested in a small number of writers both in French and English whose work he studied carefully. This was useful when, because a need to come to terms with his experience, lead him to write *Heart of Darkness*, in 1899, which was followed by other fictionalized explorations of his life. It was a breathtaking read. There are few books which make such a powerful impression as '*Heart of darkness*' does. Written more than a century ago, the book and its undying theme hold just as much significance even today. Intense and compelling, it looks into the darkest recesses of human nature. Conrad takes the reader through a horrific tale in a very gripping voice. I couldn't say enough about Conrad's mastery of prose. Not a single word is out of place. Among several things, I liked Marlow expressing his difficulty in sharing his experiences with his listeners and his comments on insignificance of some of the dialogue exchanged aloud between him and Kurtz. The bond between the two was much deeper. Whatever words he uses to describe them, no one can really understand in full measure what he had been through. In Marlow's words: . . . No, it is impossible; it is impossible to convey the life-sensation of any given epoch of one's existence--that which makes its truth, its meaning--its subtle and penetrating essence. It is impossible. We live, as we dream--alone. . . . This was the first time I read this book which doesn't seem enough to fathom its profound meaning and all the symbolism. It deserves multiple reads. When I was a child, my father caught me frowning at a very small gift wrapped package I'd received. The dashed hopes for a larger package were broadcast across my face. Dynamite comes in small packages. My father counseled me. The literal and figurative truth of this statement has revealed itself throughout my life. This story is specifically relevant to Joseph Conrad's *Heart of Darkness*. It is a small book. (Surprisingly small.) And it is pure dynamite. (Super powerful dynamite!) Conrad later wrote he wanted to bring home the experience of *Heart of Darkness* to the minds and bosoms of the readers. He succeeded. Big time. *Heart of Darkness* is a masterpiece. Divided into three sections, it is one of the greatest creations of English literature I've had the pleasure to read.

heart of darkness conrad joseph: **Heart of Darkness** Joseph Conrad, 2012-08-28 In a novella which remains highly controversial to this day, Conrad explores the relations between Africa and Europe. On the surface, this is a horrifying tale of colonial exploitation. The narrator, Marlowe journeys on business deep into the heart of Africa. But there he encounters Kurtz, an idealist apparently crazed and depraved by his power over the natives, and the meeting prompts Marlowe to reflect on the darkness at the heart of all men. This short but complex and often ambiguous story, which has been the basis of several films and plays, continues to provoke interpretation and

discussion. *Heart of Darkness* grew out of a journey Joseph Conrad took up the Congo River; the verisimilitude that the great novelist thereby brought to his most famous tale everywhere enhances its dense and shattering power. Apparently a sailor's yarn, it is in fact a grim parody of the adventure story, in which the narrator, Marlow, travels deep into the heart of the Congo where he encounters the crazed idealist Kurtz and discovers that the relative values of the civilized and the primitive are not what they seem. *Heart of Darkness* is a model of economic storytelling, an indictment of the inner and outer turmoil caused by the European imperial misadventure, and a piercing account of the fragility of the human soul.

heart of darkness conrad joseph: Heart of Darkness by Joseph Conrad : (Annotated Edition) Joseph Conrad, 2021-03-09 Aboard a British ship called the *Nellie*, three men listen to a dude named Marlow recount his journey into Africa as an agent for the Company, a Belgian ivory trading firm. If you think The Company sounds super-sketchy, you're right: from the get-go, Marlow feels a nameless sense of dread about working for The Company. (It doesn't help that the last guy to have held Marlow's position...was murdered.) When Marlow signs on to take this voyage, he sees a couple of old women knitting in the corner. They give him the heebie-jeebies. Then, when he gets to Africa, he meets a dude wearing starched, formal clothing despite the heat. He's deeply weirded out by this fancy-pants guy and by the camp in general--and things haven't even started to get nightmarish. Marlow realizes that the Africans are kept as slaves, and many are dying from the brutality of the conditions. These Africans, he realizes, are not inhuman. (Don't get excited; Marlow's hardly progressive here.) As the bureaucracy of The Company moves at a molasses-like pace, Marlow becomes entangled in a power struggle within The Company--middle management is trying to climb the ranks, and being especially slimy about it. He also starts hearing tell of a mysterious figure named Kurtz, a mad agent who's rumored to have become both a prisoner and revered as a god by the indigenous population living further down the Congo. In fact, the more he hears about Kurtz, the more obsessed Marlow becomes. Who is this Kurtz? Why is he such a powerful figure? Why does everyone seem to either idolize him or loathe him? Finally, after delays due to a broken-down (or possibly vandalized) steamship, Marlow is on his way to meet the enigmatic Kurtz. Aboard the steamship are cannibals who, thankfully, snack on some rancid hippo meat. The ship is forced to stop often: once to pick up wood (the pile of wood is accompanied with a note that says, essentially, Proceed with caution), once because of a mysterious fog bank, and once because of an attack--arrows strike the ship from the riverbank, and the helmsman is impaled with a spear. When the riverboat arrives at Kurtz's camp, Marlow sees that the decoration of choice is posts topped with the severed heads of locals. Oh, that's not creepy at all. Marlow's met by a weird Russian dressed like a clown. This harlequin informs Marlow that Kurtz is a god. He has apparently expanded the harlequin's worldview with his power and eloquence. Marlow, naturally, thinks that both this harlequin and Kurtz must be bonkers. We finally meet Kurtz, who's so ill he's carried out on a stretcher. He looks, almost literally, like death. The natives in the camp want to attack the steamship, but Kurtz tells them to fall back. Although Kurtz tries to run away--or, rather, crawl away, because he's too weak to run--he finally agrees to being brought back to the mouth of the Congo. Kurtz's health deteriorates: he goes blind, starts raving in a series of fever dreams, and gives Marlow a stack of papers and the instructions not to hand them over to The Company. When he finally dies, his (famous) last words are The horror! The horror! Shortly after this, Marlow becomes super sick, but he pulls through. When he returns to Europe, Marlow is disillusioned with both The Company and Europe in general. He refuses to hand over Kurtz's papers, possibly jeopardizing his career. He does, however, visit Kurtz's Belgian fiancée, in order to give her a few of Kurtz's letters. The fiancée is still mourning Kurtz, and asks anxiously about Kurtz's last words. Marlow lies, telling her that Kurtz said her name. Yeah, that's a lot sweeter than muttering, The horror! The horror!
