katie price in 2004: Celebrity Memoir Hannah Yelin, 2020-11-10 In this timely analysis of the economics of access that surround contemporary female celebrity, Hannah Yelin reveals a culture that requires women to be constantly 'baring all' in physical exposure and psychic confessions. As famous women tell their story, in their 'own words', constellations of ghostwriters, intermediaries and market forces undermine assertions of authorship and access to the 'real' woman behind the public image. Yelin's account of the presence of the ghostwriter offers a fascinating microcosm of the wider celebrity machine, with insights pertinent to all celebrity mediation. Yelin surveys life-writing genres including fiction, photo-diary, comic-strip, and art anthology, as well as more 'traditional' autobiographical forms; covering a wide range of media platforms and celebrity contexts including reality TV, YouTube, pop stardom, and porn/glamour modelling. Despite this diversity, Yelin reveals seemingly inescapable conventions, as well as spaces for resistance. *Celebrity Memoir: from Ghostwriting to Gender Politics* offers new insights on the curtailment of women's voices, with ramifications for literary studies of memoir, feminist media studies, celebrity studies, and work on the politics of production in the creative industries.

katie price in 2004: Reality TV Misha Kavka, 2012-02-15 Is reality TV a coherent genre? This book addresses this question by examining the characteristics, contexts and breadth of reality TV through a history of its programming trends. Paying attention to stylistic connections as well as key concepts, this study breaks reality television down into three main 'generations': the camcorder generation, the competition generation and the celebrity generation. Beginning with a consideration of the applicability of the term 'genre' for this televisual hybrid, the book takes a transnational approach to investigating the forms and formats of reality TV framed by relevant popular and critical discourses.

katie price in 2004: Framing Celebrity Su Holmes, Sean Redmond, 2012-11-12 Celebrity culture has a pervasive presence in our everyday lives – perhaps more so than ever before. It shapes not simply the production and consumption of media content but also the social values through which we experience the world. This collection analyses this phenomenon, bringing together essays which explore celebrity across a range of media, cultural and political contexts. The authors investigate topics such as the intimacy of fame, political celebrity, stardom in American 'quality' television (Sarah Jessica Parker), celebrity 'reality' TV (I'm a Celebrity ... Get Me Out of Here!), the circulation of the porn star, the gallery film (David/David Beckham), the concept of cartoon celebrity (The Simpsons), fandom and celebrity (k.d. lang, *NSYNC), celebrity in the tabloid press, celebrity magazines (heat, Celebrity Skins), the fame of the serial killer and narratives of mental illness in celebrity culture. The collection is organized into four themed sections: Fame Now broadly examines the contemporary contours of fame as they course through new media sites (such as 'reality' TV and the internet) and different social, cultural and political spaces. Fame Body attempts to situate the star or celebrity body at the centre of the production, circulation and consumption of contemporary fame. Fame Simulation considers the increasingly strained relationship between celebrity and artifice and 'authenticity'. Fame Damage looks at the way the representation of fame is bound up with auto-destructive tendencies or dissolution.

katie price in 2004: Class and Contemporary British Culture A. Biressi, H. Nunn, 2013-04-23 How does culture articulate, frame, organise and produce stories about social class and class difference? What do these stories tell us about contemporary models of success, failure, struggle and aspiration? How have class-based labels been revived or newly-minted to categorise the

insiders and outsiders of the new 'age of austerity'? Drawing on examples from the 1980s to the present day this book investigates the changing landscape of class and reveals how it has become populated by a host of classed figures including Essex Man and Essex Girl, the 'squeezed middle', the 'sharp-elbowed middle class', the 'feral underclass', the 'white working class', the 'undeserving poor', 'selfish baby boomers' and others. Overall, the book argues that social class, although complicated and highly contested, remains a valid and fruitful route into understanding how contemporary British culture articulates social distinction and social difference and the significant costs and investments at stake for all involved.

How do young people reproduce, or alternatively, reject gender norms? Using new research and the work of renowned theorists such as Judith Butler and Pierre Bourdieu, Victoria Cann argues that popular culture affects young people's experiences of masculinity and femininity and forces them to navigate a social minefield in which they are pressured to display tastes deemed appropriate for their gender. Combining her own unique empirical research with a strong theoretical framework, Cann widens and links the fields of gender and taste studies to show the everyday reality of twenty-first-century youth and their apprehensions - especially those of young boys- about participating in activities, or embracing pop-cultural preferences that have traditionally only been associated with the opposite sex.

katie price in 2004: *Andy Warhol, Publisher* Lucy Mulroney, 2018-10-23 Although we know him best as a visual artist and filmmaker, Andy Warhol was also a publisher. Distributing his own books and magazines, as well as contributing to those of others, Warhol found publishing to be one of his greatest pleasures, largely because of its cooperative and social nature. Journeying from the 1950s, when Warhol was starting to make his way through the New York advertising world, through the height of his career in the 1960s, to the last years of his life in the 1980s, Andy Warhol, Publisher unearths fresh archival material that reveals Warhol's publications as complex projects involving a tantalizing cast of collaborators, shifting technologies, and a wide array of fervent readers. Lucy Mulroney shows that whether Warhol was creating children's books, his infamous "boy book" for gay readers, writing works for established houses like Grove Press and Random House, helping found Interview magazine, or compiling a compendium of photography that he worked on to his death, he readily used the elements of publishing to further and disseminate his art. Warhol not only highlighted the impressive variety in our printed culture but also demonstrated how publishing can cement an artistic legacy.

Audiences around the world are being urged to 'renovate' everything from their homes to their pets and children while lifestyle experts on TV now tell us what not to eat and what not to wear. Makeover television and makeover culture is now ubiquitous and yet, compared with reality TV shows like Big Brother and Survivor, there has been relatively little critical attention paid to this format. This exciting collection of essays written by leading media scholars from the UK, US and Australia aims to reveal the reasons for the huge popularity and influence of the makeover show. Written in a lively and accessible manner, the essays brought together here will help readers 'make sense' of makeover TV by offering a range of different approaches to understanding the emergence of this popular cultural phenomenon. Looking at a range of shows from The Biggest Loser to Trinny and Susannah Undress, essays include an analysis of how and why makeover TV shows have migrated across such a range of TV cultures, the social significance of the rise of home renovation shows, the different ways in which British versus American audiences identify with makeover shows, and the growing role of lifestyle TV in the context of neo-liberalism in educating us to be 'good' citizens. Sallie McNamara scrutinizes how the magazine negotiates ideas of 'Britishness', class, gender and national identity in a changing social, political, economic and cultural climate. Additionally, she explores the magazine's humorous approach, and looks at how that distinctive address can potentially lead to misinterpretation.
