Shakespeare on screen is evaluated both in relation to the play texts and in relation to the realms of popular film culture. The book focuses on how Shakespeare is manipulated in film and

television through the representation of violence, gender, sexuality, race and nationalism. Cartmell discusses a wide range of films, including Orson Welles' *Othello* (1952), Kenneth Branagh's *Much Ado About Nothing* (1993), Peter Greenaway's *Prospero's Books* (1991), Baz Luhrmann's *William Shakespeare's Romeo and Juliet* (1996) and John Madden's *Shakespeare in Love* (1998).

This lively Companion is a collection of critical and historical essays on the films adapted from, and inspired by, Shakespeare's plays. An international team of leading scholars discuss Shakespearean films from a variety of perspectives: as works of art in their own right; as products of the international movie industry; in terms of cinematic and theatrical genres; and as the work of particular directors from Laurence Olivier and Orson Welles to Franco Zeffirelli and Kenneth Branagh. They also consider specific issues such as the portrayal of Shakespeare's women and the supernatural. The emphasis is on feature films for cinema, rather than television, with strong coverage of *Hamlet*, *Richard III*, *Macbeth*, *King Lear* and *Romeo and Juliet*. A guide to further reading and a useful filmography are also provided.

laurence olivier in othello: Translation and Adaptation in Theatre and Film Katja Krebs, 2013-08-15 This book provides a pioneering and provocative exploration of the rich synergies between adaptation studies and translation studies and is the first genuine attempt to discuss the rather loose usage of the concepts of translation and adaptation in terms of theatre and film. At the heart of this collection is the proposition that translation studies and adaptation studies have much to offer each other in practical and theoretical terms and can no longer exist independently from one another. As a result, it generates productive ideas within the contact zone between these two fields of study, both through new theoretical paradigms and detailed case studies. Such closely intertwined areas as translation and adaptation need to encounter each other's methodologies and perspectives in order to develop ever more rigorous approaches to the study of adaptation and translation phenomena, challenging current assumptions and prejudices in terms of both. The book includes contributions as diverse yet interrelated as Bakhtin's notion of translation and adaptation, Bollywood adaptations of Shakespeare's *Othello*, and an analysis of performance practice, itself arguably an adaptive practice, which uses a variety of languages from English and Greek to British and International Sign-Language. As translation and adaptation practices are an integral part of global cultural and political activities and agendas, it is ever more important to study such occurrences of rewriting and reshaping. By exploring and investigating interdisciplinary and cross-cultural perspectives and approaches, this volume investigates the impact such occurrences of rewriting have on the constructions and experiences of cultures while at the same time developing a rigorous methodological framework which will form the basis of future scholarship on performance and film, translation and adaptation.

laurence olivier in othello: 100 Shakespeare Films Daniel Rosenthal, 2019-07-25 From Oscar-winning British classics to Hollywood musicals and Westerns, from Soviet epics to Bollywood thrillers, Shakespeare has inspired an almost infinite variety of films. Directors as diverse as Orson Welles, Akira Kurosawa, Franco Zeffirelli, Kenneth Branagh, Baz Luhrmann and Julie Taymor have transferred Shakespeare's plays from stage to screen with unforgettable results. Spanning a century of cinema, from a silent short of 'The Tempest' (1907) to Kenneth Branagh's 'As You Like It' (2006), Daniel Rosenthal's up-to-date selection takes in the most important, inventive and unusual Shakespeare films ever made. Half are British and American productions that retain Shakespeare's language, including key works such as Olivier's 'Henry V' and 'Hamlet', Welles' 'Othello' and 'Chimes at Midnight', Branagh's 'Henry V' and 'Hamlet', Luhrmann's 'Romeo + Juliet' and Taymor's 'Titus'. Alongside these original-text films are more than 30 genre adaptations: titles that aim for a wider audience by using modernized dialogue and settings and customizing Shakespeare's plots and characters, transforming 'Macbeth' into a pistol-packing gangster ('Joe Macbeth' and 'Maqbool') or reimagining 'Othello' as a jazz musician ('All Night Long'). There are Shakespeare-based Westerns ('Broken Lance', 'King of Texas'), musicals ('West Side Story', 'Kiss Me Kate'), high-school comedies ('10 Things I Hate About You', 'She's the Man'), even a sci-fi adventure ('Forbidden Planet'). There are also films dominated by the performance of a Shakespearean play ('In the Bleak Midwinter', 'Shakespeare in Love'). Rosenthal emphasises the global nature of Shakespearean cinema, with entries on more than 20 foreign-language titles, including Kurosawa's 'Throne of Blood' and 'Ran', Grigori Kozintsev's 'Russian Hamlet' and 'King Lear', and little-known features from as far afield as 'Madagascar' and 'Venezuela', some never released in Britain or the US. He considers the films' production and box-office history and examines the film-makers' key interpretive decisions in comparison to their Shakespearean sources, focusing on cinematography, landscape, music, performance, production design, textual alterations and omissions. As cinema plays an increasingly important role in the study of Shakespeare at schools and universities, this is a wide-ranging, entertaining and accessible guide for Shakespeare teachers, students and enthusiasts.
