This book covers the female contribution to Jamaican music and its subgenres through dozens of interviews with vocalists, instrumentalists, bandleaders, producers, deejays and supporters of the arts. louise miss lou bennett coverley: British Working Class women authors (born before 1962) a list Stefan Szczelkun , 2025-06-07 A collection of Wikipedia articles, edited, reformatted and with additions. In chronological order. References and sections on non-literary activity are sometimes omitted, hopefully not to the point of misrepresenting the author, which might include feminist or political activism. To my surprise the biographical material on Wikipedia was sometimes mesmerising, although it was uneven. Where there were gaps I have tried to fill them from other sources. Refer back to the wikipedia articles for more context and references in some cases, and if you have a verified source of information please update the Wikipedia article. Wikipedia is published under a creative commons licence. So this compilation also carries a creative commons licence. Introduction Looking through Sarah Richardson's 'Writing on the Line' (1996) I was struck by how many of the working class women writers were from North America and how many more were poets. Howard Slater had made a list of British working class male novelists and I selected British woman writers from 'Writing on the Line' and found that most of them now have Wikipedia pages - I first made a list of links. Wanting to take this further I first looked to focus on novels and short story writers but this category started to break up as many writers wrote in many idioms producing fact, fiction, poetry, plays, screenwriting and journalism. I decided on an arbitrary cut-off point of writers born before 1962. When I first made the list I was thinking how few working class women novelists had been published in this period. But then the lists of books by each author started to stack up ... and there's plenty to read and much that I missed even really hearing about. Of course it focuses on the most successful - others who produced a community published autobiography or self-published novel, did not get a Wikipedia page, and they should really be included - every life counts. Others only published an autobiography, perhaps in the last years of life, but were extraordinary writers and people. We could also discuss the genre snobbery in literary circles that puts crime, young peoples literature, romantic and fantasy fiction, and perhaps historical based narratives, in a lower category than the novel.

louise miss lou bennett coverley: *Children and Mother Nature* Rouhollah Aghasaleh, 2019-08-26 It is an old, yet relevant, argument that education needs to focus more on real-world issues in students' lives and communities. Nevertheless, conventional school curricula in many countries create superficial boundaries to separate natural and social worlds. A call for science learning approaches that acknowledge societal standpoints accumulate that human activities are driving environmental and evolutionary change which has lead scholars to investigate how different societies respond to environmental change. *Children and Mother Nature* is a multilingual volume that represents indigenous knowledges from various ethnic, linguistic, geographical, and national groups of educators and students through storytelling. Authors have identified indigenous stories, fables, and folk tales with a theme of human-nature interaction and facilitated storytelling sessions with groups of students in K-8 grade (5-14 years old) in Turkey, Greece, US, Jamaica, Brazil, Saudi Arabia, and Chinese and Korean language speaking communities in the US. Students have discussed and rewritten/retold the stories collaboratively and illustrated their own stories. All student-told stories are presented in the original language along with an English translation. This volume provides authentic materials for teachers to use in their classrooms and could also be of interest to educational, literary, and environmental researchers to conduct comparative and international studies.

louise miss lou bennett coverley: *Blood, Bullets And Bodies* Imani M. Tafari-Ama, 2017-06-11 Fifth Edition The true story of *Blood, Bullets and Bodies*: a critical multimedia exposé about the factors subverting the political will to act in the best interest of the poor, even when explicit just cause exists for such altruistic action to take place... *Blood, Bullets and Bodies* is a strange and paradoxical story that needs to be read as much as it needs to be told. It is a riveting story of sex, violence, political intrigue and survival by any means necessary. The book is a literary mirror that provides a revealing and frightening reflection for a self-destructing society to see itself profiled in

the throes of its own possible demise. Sure to stir controversy, the new book contains a compelling rendition of the historical circumstances that have made crime and violence – bullets, blood and dead bodies – the number one problem in late 20th and early 21st century Jamaica. Despite the historic One Love Peace Concert and the Peace Truce in 1978, young gunmen seem to have gone wild ever since. Using a variety of sophisticated methodological tools including literary sources, oral interviews, ethnographic studies and the lyrics of popular Reggae songs, Imani Tafari-Ama details the influences and implications of this violent social discourse for everyday performances of femininity and masculinity in Kingston's inner-city environment as well as in the wider Jamaican society. Tafari-Ama's stated objective in publishing her thesis as a book is to separate fact from fiction in order to find real and enduring solutions that will reduce the distressing flood of blood, bullets and bodies that is overflowing the streets of Kingston. She hopes that by highlighting some of the facts and exposing much of the fiction about life below the poverty line, her provocative book will be a catalyst in motivating the political and community willpower necessary to find and implement the real-time solutions that she proposes in her suggested Options for Development.

The volume addresses the four language regions, early children's literature of conquest—in particular, the US colonization of Puerto Rico—and the fine line between children's and adult literature. It explores multiple young adult genres, probing the nuances and difficulties of historical fiction and the anticolonial impulses of contemporary speculative fiction. Additionally, the volume offers an overview of the literature of disaster and recovery, significant for readers living in a region besieged by earthquakes, hurricanes, and flooding. In this anthology and its companion anthology, international and regional scholars provide coverage of both areas, offering in-depth explorations of picture books, middle-grade, and young adult stories. The volumes examine the literary histories of both children's and young adult literature according to language region, its use (or lack thereof) in schools, and its place in the field of publishing. Taken together, the essays expand our understanding of Caribbean literature for young people.

louise miss lou bennett coverley: Black British Women's Theatre Nicola Abram, 2020-10-12 This book marks a significant methodological shift in studies of black British women's theatre: it looks beyond published plays to the wealth of material held in archives of various kinds, from national repositories and themed collections to individuals' personal papers. It finds there a cache of unpublished manuscripts and production recordings distinctive for their non-naturalistic aesthetics.

Close analysis of selected works identifies this as an intersectional feminist creative practice. Chapters focus on five theatre companies and artists, spanning several decades: Theatre of Black Women (1982-1988), co-founded by Booker Prize-winning writer Bernardine Evaristo; Munirah Theatre Company (1983-1991); Black Mime Theatre Women's Troop (1990-1992); Zindika; and SuAndi. The book concludes by reflecting on the politics of representation, with reference to popular postmillennial playwright debbie tucker green. Drawing on new interviews with the playwrights/practitioners and their peers, this book assembles a rich, interconnected, and occasionally corrective history of black British women's creativity. By reproducing 22 facsimile images of flyers, production programmes, photographs and other ephemera, *Black British Women's Theatre: Intersectionality, Archives, Aesthetics* not only articulates a hidden history but allows its readers their own encounter with the fragile record of this vibrant past.

In *Time Come*, he selects some of his most powerful prose - book and music reviews published in newspapers and magazines, lectures, obituaries and speeches - for the first time. Written over many decades, these works draw on Johnson's own Jamaican roots and on Caribbean history to explore the politics of race that continue to inform the Black British experience. Ranging from reflections on the place of music in Caribbean and Black British culture as a creative, defiant response to oppression, to penetrating appraisals of novels, films, poems and plays, and including warm tributes paid to the activists and artists who inspired him to contribute to the struggle for racial equality and social justice, *Time Come* is a panorama of an exceptional life. louise miss lou bennett coverley: *I Am Brother Oji* Mello Ayo, 2022-03-31 In November 1989, the Royal Ontario Museum staged a controversial exhibit called "Into The Heart of Africa." This sparked a protest demonstration that proved to be a life changing experience for many. The youth-led outcry for change became a landmark in Ontario's race-relations leading to an upheaval so impactful it altered the course of history for museums worldwide becoming in effect a milestone in the way museums mount and curate exhibits. Thirty-one years later, for the first time, the authorized biography of one of the main protagonists, Adisa Oji, the only demonstrator to be imprisoned for his actions, is being told publicly. Few people know of his courageous story, a young man who heroically stood up against institutionalized racist practices and was punished. His up until now unknown personal history sheds irrefutable light on the current public and global agitation regarding race and racism and compels us to honestly re-examine the long-lasting tragic effects of colonialism and slavery. This biography fills an important gap even for those who may be familiar with the Royal Ontario Museum episode while providing an informative gripping history for those who may not. In a world where the significant contributions of people of African ancestry are most often overlooked or given short-thrift, *I AM Brother Oji* honours and highlights for global recognition the life, leadership and legacy of a young Canadian of African Caribbean descent who distinguished himself during a time of social controversy. Adisa S. Oji's extraordinary story provides a window of illumination on how to break cycles of oppression and exploitation. His story is a source of fresh and thoughtful insight into what it means to be a person of African ancestry living in a predominantly white European milieu and calls attention to the effectiveness of efforts directed at addressing racial discrimination, inequity, and injustice. With the help of abundant amounts of photographs, Mello Ayo as narrator and social commentator weaves a vivid beautiful story of uncompromising triumph and self-empowerment. While the ROM episode provides a point of departure, the unflinching narrative

goes beyond and connects the past with the present to create an enchanting hero's journey transiting through the sociopolitical and historical landscapes of Jamaica, Canada, and Ghana. At a time when many young people are becoming disenchanted, slumping into alienation and learned helplessness or collapsing into sub-cultures of violence, a look at how one young man kept his youthful optimism alive and how he refused to become a victim while making a positive difference is deserving of our attention.

louise miss lou bennett coverley: *Fairy-Tale Revivals in the Long Nineteenth Century* Abigail Heiniger, 2023-09-12 Volume two explores the way a wide range of classic princess tales written by marginalized writers. Rapunzel and Snow White, with their pale skin or long ropes of golden hair, are particularly popular vehicles for exploring and challenging racialized constructions of beauty. Marriage is the traditional vehicle of a happy ending in Princess tales, so marginalized responses to these tales also inherently respond to the doubly colonized position of women in the Anglophone world. The institution of marriage typically exposes the institutional oppression of colonized women. Authors include Charles Chesnutt, Jessie Fauset, Julia Kavanaugh, George Edwards, some of the unpublished manuscripts of Jewish-Australian author Joseph Jacobs, and the earliest work of Sinéad de Valera, as well as fin-de-siècle illustrators such as Harry Clarke, and collected oral tales.
