Love And Information Play

love and information play: Love and Information Caryl Churchill, 2015 Caryl Churchill's 'Love and Information' is a kaleidoscopic play of short scenes addressing contemporary issues about knowledge, technology and communication, and our capacity for love. It was first performed at the Royal Court Jerwood Theatre Downstairs, London, on 6 September 2012.

love and information play: Microdramas John H. Muse, 2017-10-13 In *Microdramas*, John H. Muse argues that plays shorter than twenty minutes deserve sustained attention, and that brevity should be considered a distinct mode of theatrical practice. Focusing on artists for whom brevity became both a structural principle and a tool to investigate theater itself (August Strindberg, Maurice Maeterlinck, F. T. Marinetti, Samuel Beckett, Suzan-Lori Parks, and Caryl Churchill), the book explores four episodes in the history of very short theater, all characterized by the self-conscious embrace of brevity. The story moves from the birth of the modernist microdrama in French little theaters in the 1880s, to the explicit worship of speed in Italian Futurist synthetic theater, to Samuel Beckett's often-misunderstood short plays, and finally to a range of contemporary playwrights whose long compilations of shorts offer a new take on momentary theater. Subjecting short plays to extended scrutiny upends assumptions about brief or minimal art, and about theatrical experience. The book shows that short performances often demand greater attention from audiences than plays that unfold more predictably. *Microdramas* put pressure on preconceptions about which aspects of theater might be fundamental and about what might qualify as an event. In the process, they suggest answers to crucial questions about time, spectatorship, and significance.

love and information play: Caryl Churchill Mary Luckhurst, 2014-11-27 One of Europe's greatest playwrights, Caryl Churchill has been internationally celebrated for four decades. She has exploded the narrow definitions of political theatre to write consistently hard-edged and innovative work. Always unpredictable in her stage experiments, her plays have stretched the relationships between form and content, actor and spectator to their limits. This new critical introduction to Churchill examines her political agendas, her collaborations with other practitioners, and looks at specific production histories of her plays. Churchill's work continues to have profound resonances with her audiences and this book explores her preoccupation with representing such phenomena as capitalism, genocide, environmental issues, identity, psychiatry and mental illness, parenting, violence and terrorism. It includes new interviews with actors and directors of her work, and gathers together source material from her wide-ranging career.

love and information play: Social and Political Theatre in 21st-Century Britain Vicky Angelaki, 2017-02-23 In a context of financial crisis that has often produced a feeling of identity crisis for the individual, the theatre has provided a unifying forum, treating spectators as citizens. This book critically deals with representative plays and playwrights who have stood out in the UK and internationally in the post-recession era, delivering theatre that in the process of being truthful to the contemporary experience has also redefined theatrical form and content. Built around a series of case-studies of seminal contemporary plays exploring issues of social and political crisis, the volume is augmented by interviews with UK and international directors, artistic directors and the playwrights whose work is examined. As well as considering UK stage productions, Angelaki analyses European, North American and Australian productions, of post-2000 plays by writers including: Caryl Churchill, Mike Bartlett, Dennis Kelly, Simon Stephens, Martin Crimp, Debbie Tucker Green, Duncan Macmillan, Nick Payne and Lucy Prebble. At the heart of the analysis and of the plays discussed is an appreciation of what interconnects artists and audiences, enabling the kind of mutual recognition that fosters the feeling of collectivity. As the book argues, this is the state whereby the theatre meets its social imperative by eradicating the distance between stage and spectator and creating a genuinely shared space of ideas and dialogue, taking on topics including

the economy, materialism, debt culture, the environment, urban protest, social media and mental health. *Social and Political Theatre in 21st-Century Britain* demonstrates that such contemporary playwriting invests in and engenders moments of performative reciprocity and spirituality so as to present the audience with a cohesive collective experience.

love and information play: *Affects in 21st-Century British Theatre* Mireia Aragay, Cristina Delgado-García, Martin Middeke, 2021-04-09 This book explores the various manifestations of affects in British theatre of the 21st century. The introduction gives a concise survey of existing and emerging theoretical and research trends and argues in favour of a capacious understanding of affects that mediates between more autonomous and more social approaches. The twelve chapters in the collection investigate major works in Britain by playwrights and theatre makers including Mojisola Adebayo, Mike Bartlett, Alice Birch, Caryl Churchill, Tim Crouch and Andy Smith, Rachel De-la-hay, Reginald Edmund, James Fritz, David Greig, Idris Goodwin, Zinnie Harris, Kieran Hurley, Lucy Kirkwood, Anders Lustgarten, Yolanda Mercy, Anthony Neilson, Lucy Prebble, Sh!t Theatre, Penelope Skinner, Stef Smith, Kae Tempest and debbie tucker green. The interpretations identify significant areas of tension as they relate affects to the fields of cognition, politics and hope. In this, the chapters uncover interrelations of thought, intention and empathy; they reveal the nexus between identities, institutions and ideology; and, finally, they explore how theatre can accomplish the transition from a sense of crisis to utopian visions.

love and information play: *The Theatre of Caryl Churchill* R. Darren Gobert, 2014-09-25 The *Theatre of Caryl Churchill* documents and analyses the major plays and productions of one of Britain's greatest and most innovative playwrights. Drawing on hundreds of never-before-seen archival sources from the US and the UK, it provides an essential guide to Churchill's groundbreaking work for students and theatregoers. Each chapter illuminates connections across plays and explores major scripts alongside unpublished and unfinished projects. Each considers the rehearsal room, the stage, and the printed text. Each demonstrates how Churchill has pushed the boundaries of dramatic aesthetics while posing urgent political and theoretical questions. But since each maps Churchill's work in a different way, each deploys a different reading practice - for many approaches are necessary to characterise such a restlessly imaginative and prolific career. Through its five interlocking parts, *The Theatre of Caryl Churchill* tells a story about the playwright, her work, and its place in contemporary drama.

love and information play: *Stanley Cavell and Education* Adrian Skilbeck, 2025-02-20 This book explores the themes of seriousness and human voice in education, drawing on the work of the American philosopher Stanley Cavell. Cavell's views on culture, the arts, politics, morality, judgement, vulnerability, and the need for people to find something they can be sincere and serious in, are discussed in relation to education. The book represents a reappraisal of seriousness in education, art and philosophy, getting to the heart of what matters in education beyond ideology. Drawing on examples from film, theatre, literature and educational practice, it provides a philosophical analysis of conventional assumptions of educational seriousness. It offers an analysis of the central importance of voice and expression in education for both learners and teachers in terms of what it means to speak authentically; both literally, in conversation, and through forms of artistic expression. Carefully chosen examples offer insights into the value of drama in education for understanding the way in which we each inhabit a voice and body and give it expression. Cavell's work is brought into conversation with a number of philosophers, with Austin, Dewey, Derrida and Wittgenstein all contributing to a reappraisal of what it means to be serious and how slippery and elusive this can be.

love and information play: The Contemporary Political Play Sarah Grochala, 2017-03-23 What does it mean for a play to be political in the 21st century? Does it require explicit engagement with events and situations with the aim of bringing about change or highlighting social wrongs? Is it purely a matter of content or is it also a matter of structure? The Contemporary Political Play: Rethinking Dramaturgical Structure examines the politics of contemporary 'political' drama. It traces the origins of the contemporary British political play to the emergence of the idea of 'serious drama' in the late 19th century through the work of Bernard Shaw, and argues that a Shavian version of serious drama was inextricably linked to the social and political structures of British society at the time. While political drama is still often thought of as adhering to a Shavian model in which social issues are presented through a dialectical structure, Grochala argues that the different political structures of contemporary Britain give rise to formally inventive dramaturgies that are no less 'serious' or political than their Shavian forebears. Through analysing the experimental dramaturgies of contemporary plays by playwrights including Caryl Churchill, Simon Stephens, Anthony Neilson, Debbie Tucker Green and Mark Ravenhill, among others, it offers a set of new principles for understanding how a play functions politically and reveals how today the dramaturgical structure of a play is as political as its content.

love and information play: Mediatized Dramaturgy Seda Ilter, 2021-07-15 This study explores the ways in which playtexts have evolved in relation to the sociocultural and cognitive conditions of a mediatized age, and how they, in form and content, respond to this environment and open up new critical possibilities in text and performance. The study combines theatre and media theory through the innovative concept of 'mediatized dramaturgy' and offers conceptual reflections on the ways in which a playtext negotiates the new reality of contemporary culture. The book scrutinizes the form of playtexts and works through the exchange between text and performance by exploring contemporary works such as Simon Stephens's *Pornography*, Caryl Churchill's *Love and Information*, and David Greig's *The Yes/No Plays*, and their selected productions. Offering a

pioneering intervention that expands discussions about the mediatization of theatre, and new playwriting, *Mediatized Dramaturgy* proposes areas for discussion that appeal to researchers, audiences and practitioners with an interest in the sub-field of media and performance, and British and North American drama and theatre. Media technologies and their socio-cultural repercussions have increasingly influenced theatre, particularly since the ubiquitous prevalence of digital technologies from the 1990s onwards. Consequently, new modes such as digital and intermedial theatre have come to populate and transform the theatre practice and scholarship. In this changing theatrical landscape, what has happened to plays in the historically text-oriented British theatre? How has playtext changed in an age of theatre marked by mediatization and its possibilities?

love and information play: *Stage Business and the Neoliberal Theatre of London* Alex Ferrone, 2021-01-21 This book examines contemporary English drama and its relation to the neoliberal consensus that has dominated British policy since 1979. The London stage has emerged as a key site in Britain's reckoning with neoliberalism. On one hand, many playwrights have denounced the acquisitive values of unfettered global capitalism; on the other, plays have more readily revealed themselves as products of the very market economy they critique, their production histories and formal innovations uncomfortably reproducing the strategies and practices of neoliberal labour markets. *Stage Business and the Neoliberal Theatre of London* thus arrives at a usefully ambivalent political position, one that praises the political power of the theatre – its potential as a form of resistance to the neoliberal rationality that rides roughshod over democratic values – while simultaneously attending to the institutional bondage that constrains it. For, of course, the theatre itself everywhere straddles the line of capitulating to the marketization of our cultural life.

love and information play: *Love in Contemporary British Drama* Korbinian Stöckl, 2021-01-18 Despite the recent turn to affects and emotions in the humanities and despite the unceasing popularity of romantic and erotic love as a motif in fictional works of all genres, the subject has received surprisingly little attention in academic studies of contemporary drama. *Love in Contemporary British Drama* reflects the appeal of love as a topic and driving force in dramatic works with in-depth analyses of eight pivotal plays from the past three decades. Following an interdisciplinary and historical approach, the study collects and condenses theories of love from philosophy and sociology to derive persisting discourses and to examine their reoccurrence and transformation in contemporary plays. Special emphasis is put on narratives of love's compensatory function and precariousness and on how modifications of these narratives epitomise the peculiarities of emotional life in the social and cultural context of the present. Based on the assumption that drama is especially inclined to draw on shared narratives for representations of love, the book demonstrates that love is both a window to remnants of the past in the present and a proper subject matter for drama in times in which the suitability of the dramatic form has been questioned.
