lumiere from beauty and the beast: *Servants and Paternalism in the Works of Maria Edgeworth and Elizabeth Gaskell* Julie Nash, 2017-11-30 Writing during periods of dramatic social change, Maria Edgeworth and Elizabeth Gaskell were both attracted to the idea of radical societal transformation at the same time that their writings express nostalgia for a traditional, paternalistic ruling class. The author shows how this tension is played out especially through the characters of servants in short fiction and novels such as Edgeworth's *Castle Rackrent*, *Belinda*, and *Helen* and Gaskell's *North and South* and *Cranford*. Servant characters, the author contends, enable these writers to give voice to the contradictions inherent in the popular paternalistic philosophy of their times because the situation of domestic servitude itself embodies such inconsistencies. Servants, whose labor was essential to the economic and social function of eighteenth- and nineteenth-century British society, made up the largest category of workers in England by the nineteenth century and yet were expected to be socially invisible. At the same time, they lived in the same houses as their masters and mistresses and were privy to the most intimate details of their lives. Both Edgeworth and Gaskell created servant characters who challenge the social hierarchy, thus exposing the potential for dehumanization and corruption inherent in the paternalistic philosophy. the author's study opens up important avenues for future scholars of women's fiction in the nineteenth century.

lumiere from beauty and the beast: Deconstructing Disney Eleanor Byrne, Martin McQuillan, 1999-10-20 Demonising Disney is nothing new. Disney films have long been synonymous with a certain conservative, patriarchal, heterosexual ideology, occupying a centre-stage position at the heart of the evil empire. Deconstructing Disney takes issue with knee-jerk polarities, overturning classical oppositions and recognising that, just as the Disney 'text' has changed, so too must the terms of critical engagement. This book is a sharply focused deconstruction of the political culture - and the cultural politics - of the Disney canon in the years since the emergence of the so-called New World Order. Eleanor Byrne and Martin McQuillan offer a critical encounter with Disney which alternates between readings of individual texts and wider thematic concerns such as race, gender and sexuality, the broader context of American contemporary culture, and the global ambitions and insularity of the last great superpower. The movies discussed include The Little Mermaid, The Lion King, Pocohontas, Snow White, Bedknobs and Broomsticks, Dumbo, Peter Pan, The Jungle Book, Hercules and Mulan.
